Gods Advocates Christian Thinkers In Conversation:

God's Advocates Rupert Shortt, 2005-10-10 Religion journalist Rupert Shortt's lively interviews introduce readers to eighteen respected Christian thinkers who have contributed to the recent renaissance in theology **Plantingian**

Religious Epistemology and World Religions Erik Baldwin, Tyler Dalton McNabb, 2018-11-29 To what extent can non-Christian religious traditions utilize Plantinga's epistemology And if there are believers from differing religious traditions that can rightfully utilize Plantinga's religious epistemology does this somehow prevent a Plantingian's creedal specific religious belief from being warranted In order to answer these questions Baldwin and McNabb first provide an introduction to Plantinga's religious epistemology Second they explore the prospects and problems that members of non-Christian religions face when they attempt to utilize Plantingian religious epistemology Finally they sketch out possible approaches to holding that a Plantingian's creedal specific religious belief can be warranted even given believers from other religious traditions who can also rightfully make full use of Plantinga's religious epistemology **Theology in the Present Age**

Christopher Ben Simpson, Steven D. Cone, 2013-08-23 This volume of essays centers on the theme of doing Christian theology in the present postmodern context a consistent theme of the teaching of John D Castelein The work will celebrate and honor John's years of service by representing reflections of his teaching in the thought of his students and colleagues The essays range over such topics as theological reflections on the postmodern philosophical themes the relations between Christian theology and culture the contributions of philosophical hermeneutics for Christian theology and the challenges of engaging in ministry in a postmodern context The seventeen contributors to the volume are former students and both present and former colleagues involved in various ministries be they in a college setting or in a local church **Theology, Science and Life**

Carmody Grey, 2023-01-26 Offering a bold intervention in the ongoing debate about the relationship between theology and science Theology Science and Life proposes that the strong demarcation between the two spheres is unsustainable theology occurs within and not outside what we call science and science occurs within and not outside theology The book applies this in a penetrating way to the most topical contentious and philosophically charged science of late modernity biology Rejecting the easy dualism of expressions such as theology and science theology or science modern biology is examined so as to illuminate the nature of both In making this argument the book achieves two further things It is the first major English language reception and application of the thought of philosopher Hans Jonas in theology and it makes a decisive contribution to the unfolding reception of Radical Orthodoxy one of the most influential schools in contemporary Anglophone theology

Essays Anglican and Analytic Robert MacSwain, 2025-04-17 Explore the riches at the intersection of Anglican and philosophical theology In this thought provoking essay collection Robert MacSwain explores important connections between Anglican and philosophical theology Shining a spotlight on the underappreciated theological work of Austin Farrer and David Brown he brings them into creative conversation with better known figures such as Joseph Butler C S Lewis Stanley

Hauerwas and Eleonore Stump He skillfully leads readers through diverse conceptual territory ranging from the Reformed epistemology of Alvin Plantinga and Nicholas Wolterstorff to the hiddenness argument of J L Schellenberg to a sacramental vision of human culture and the arts More broadly MacSwain outlines what he calls Critical Catholicism explaining how it differs from other movements in contemporary Christian thought such as Radical Orthodoxy and Analytic Theology These perceptive essays will be of particular interest to scholars and pastors who are curious about connections between theology philosophy and Anglican studies

Abraham Heschel and the Phenomenon of Piety Joseph Harp Britton, 2013-12-19 Piety is often regarded with a pejorative bias a pious person is thought to be overly religious supercilious even Yet historically the concept of piety has played an important role in Christian theology and practice For Abraham Heschel piety describes the contours of a life compatible with God's presence While much has been made of Heschel's concept of pathos relatively little attention has been given to the pivotal role of piety in his thought with the result that the larger methodological implications of his work for both Jewish and Christian theology have been overlooked Grounding Heschel's work in Husserl Dilthey Schiller and Heidegger the book explores his phenomenological method of penetrating the consciousness of the pious person in order to perceive the divine reality behind it The book goes on to consider the significance of Heschel's methodology in view of the theocentric ethics of Gustafson and Hauerwas and the post modern context reflected in the works of Levinas Vattimo Marion and the Radical Orthodoxy movement

The Philosophy of Reenchantment Michiel Meijer, Herbert De Vriese, 2020-10-27 This book presents a philosophical study of the idea of reenchantment and its merits in the interrelated fields of philosophical anthropology ethics and ontology It features chapters from leading contributors to the debate about reenchantment including Charles Taylor John Cottingham Akeel Bilgrami and Jane Bennett The chapters examine neglected and contested notions such as enchantment transcendence interpretation attention resonance and the sacred or reverence worthy notions that are crucial to human self understanding but have no place in a scientific worldview They also explore the significance of adopting a reenchanting perspective for debates on major concepts such as nature naturalism God ontology and disenchantment Taken together they demonstrate that there is much to be gained from working with a more substantial and affirmative concept of reenchantment understood as a fundamental existential orientation towards what is seen as meaningful and of value *The Philosophy of Reenchantment* will be of interest to scholars and advanced students in philosophy especially those working in moral philosophy metaphysics philosophy of religion theology religious studies and sociology

Oliver O'Donovan's Moral Theology Samuel Tranter,2020-10-01 This book offers the first sustained full length treatment of the wide ranging work of major Anglican theologian Oliver O Donovan Analyzing such key texts as Resurrection and Moral Order The Desire of the Nations and Ethics as Theology Samuel Tranter shows that the relationship between eschatology and ethics is an area of significant tension in O Donovan's evolving vision of moral theology Tranter traces this tension as it relates to O Donovan's writing and contemporary discussion around natural law divine command and human flourishing as well as to particular topics such as poverty marriage and singleness and biotechnology He also connects it with the broader doctrinal features of O Donovan's project such as his accounts of creation sin and redemption and his understanding of the relationships between the cross and the resurrection on one hand and Christology and pneumatology on the other Throughout Tranter indicates the implications of these themes for our understanding of the Christian life This volume establishes and evaluates O Donovan's influence on contemporary Christian ethicists and political theologians such as Luke Bretherton Gilbert Meilaender Jean Porter and Brent Waters and engages with critical readings of O Donovan such as those by Stanley Hauerwas and Gerald McKenny In conversation with these and other voices from a range of perspectives Tranter shows how O Donovan's proposals may be appropriated and amended as a resource for theology and ethics going forward

A Philosophical Anthropology of the Cross Brian Gregor,2013-03-18 What does the cross both as a historical event and a symbol of religious discourse tell us about human beings In this provocative book Brian Gregor draws together a hermeneutics of the self through Heidegger Gadamer Ricoeur and Taylor and a theology of the cross through Luther Kierkegaard Bonhoeffer and Jungel to envision a phenomenology of the cruciform self The result is a bold and original view of what philosophical anthropology could look like if it took the scandal of the cross seriously instead of reducing it into general philosophical concepts

A New Introduction to Theology Richard Bourne,Imogen Adkins,2020-09-17 Encountering theology for the first time is exciting but it can also be daunting Some struggle to connect with doctrinal discussion they perceive to be abstract or abstruse Others may find the scope of theology and the connections between different theological issues dizzying In order to address these difficulties and keep the initial excitement alive A New Introduction to Theology offers a range of accessible practical experiential and interactive encounters with the major elements of academic Christian theology The guiding motif of this book is the claim that theology is full bodied thought The phrase full bodied shows both the richness of the experience of theology and its nature as a thoroughly embodied encounter with ways of knowing God and God s ways with the world This motif allows the authors to bring together topics ranging from theology through the arts sexuality and the body and the nature of the church s everyday life to mystical theology spirituality political action and ecology Working imaginatively with the five senses and the notions of loving and resting each chapter provides a range of activities guided discussions and reflections on key theological texts authors and issues This is a unique introduction to the key innovative and interdisciplinary elements from contemporary theology ideal for individual reflection classroom work or flexible and distributed learning

The Analogical Turn Johannes Hoff,2013-11-11 Recovers a 15th century thinker s original insights for theology and philosophy today Societies today says Johannes Hoff are characterized by their inability to reconcile seemingly black and white scientific rationality with the ambiguity of postmodern pop culture In the face of this crisis his book The Analogical Turn recovers the fifteenth century thinker Nicholas of Cusa s alternative vision of modernity to develop a fresh perspective on the challenges of our time In

contrast to his mainstream contemporaries Cusa's appreciation of individuality creativity and scientific precision was deeply rooted in the analogical rationality of the Middle Ages He revived and transformed the tradition of scientific realism in a manner that now retrospectively offers new insights into the completely ordinary chaos of postmodern everyday life Hoff's original study offers a new vision of the history of modernity and the related secularization narrative a deconstruction of the basic assumptions of postmodernism and an unfolding of a liturgically grounded concept of common sense realism

Jesus in the Theology of Rowan Williams Brett Gray, 2016-11-17 Brett Gray traces the portrayal of Christ that emerges throughout Williams' diverse writings including in his engagements with literature and philosophy What emerges is a vision of Jesus that grows from the roots of the Christian tradition but is pronounced in a contemporary idiom and sensitive to modern concerns Although attentive to the broad sweep of the Christian tradition Williams' Christology is also seen in this book to be a particular British artefact shaped in dialogue with thinkers such as Donald MacKinnon and Gillian Rose What is ultimately brought to the surface in this work is the profoundly hopeful if frequently under pronounced eschatology underlying Williams' Christology Jesus is the last word changing creation's possibilities and summoning it into an endless and vivifying journey

An Introduction to the Desert Fathers Jason Byassee, 2007-08-15 The desert fathers wanted to get away from a church co-opted by empire and a Christian faith grown cold and listless They retreated to the desert to do battle against demons and against their own worst desires They had no intention of being famous yet ironically their Sayings have inspired millions of imitators over the centuries This guide is meant to accompany a reading of the Sayings of the Desert Fathers in hopes that readers with lives quite different than those third and fourth century dwellers of the Egyptian desert might nevertheless come to imitate their lives of poverty chastity and obedience and more importantly that readers might grow more imaginative and passionate in their following of the same Lord

from systematic theology gender studies sociology patristics analytic philosophy of religion and evolutionary biology This integrated vision coheres around the mystical and contemplative core of Christian experience In her challenging revisionary work on themes such as gender sacrifice desire and the doctrine of the Trinity Coakley reconnects theological reflection with its contemplative roots and pushes toward a new approach to systematic theological reflection In Sarah Coakley and the Future of Systematic Theology scholars explore Coakley s multifaceted contribution to contemporary theology and consider the ways through which her work sets a new standard for systematic reflection on the Christian faith This volume brings together around Coakley s work a gathering of established and emerging scholars and asks critical questions of Coakley s work as we await three further volumes of her systematic theology **Richard Hooker** Paul Anthony Dominiak, 2019-12-12 Richard Hooker s Of the Laws of Ecclesiastical Polity has long been acknowledged as an influential philosophical theological and literary text While scholars have commonly noted the presence of participatory language in selected passages of Hooker s Laws Paul Anthony Dominiak is the first to trace how participation lends a sense of system and coherency across the whole work Dominiak analyses how Hooker uses an architectural framework of participation in God to build a cohesive vision of the Elizabethan Church as the most fitting way to reconcile and lead English believers to the shared participation of God First exploring Hooker s metaphysical architecture of participation in his accounts of law and the sacraments Dominiak then traces how this architecture structures cognitive participation in God as well as Hooker s political vision of the Church and Commonwealth The volume culminates with a summary of how Hooker provides a salutary resource for modern ecumenical dialogue and contemporary political retrievals of participation
