Gods Being Is In Becoming:

God's Being is in Becoming Eberhard Jüngel, 2014-11-20 Starting with an analysis of the close relation of Trinity and revelation in Barth Jüngel goes on to look at Barth's action of divine objectivity in relation to human subjectivity. He closes with a discussion of the ontological implications of God's self-manifestation at the Cross. This translation of Jüngel's *Gottes Sein ist in Werden* also incorporates material from the 1975 German edition together with a substantial new introduction by Professor John Webster.

The Freedom of God for Us Brian D. Asbill, 2014-12-18 This volume provides an analysis of divine aseity in Karl Barth's thought and appreciates the vital role that this doctrine can play in contemporary theology. Brian D. Asbill begins by setting the general theological context first through a broad sketch of the development of Barth's understanding of the relationship between the life of God *pro nobis* (pronobility) and *aseity* and secondly through the examination of the basic theological convictions that guide his approach to the divine being in *Church Dogmatics II/1*. The second section, *The Love and Freedom of God*, turns to the dialectical pairings which guide Barth's accounts of the divine reality in his earliest dogmatic cycle, *The Göttingen Dogmatics* 16-7, as well as in his most mature treatment, *Church Dogmatics* 28-31. Particular attention is given to how these themes arise from revelation and relate to one another. In the final

section The Aseity of God Asbill identifies this doctrine's basic features and primary functions Divine aseity is characterized as the self demonstration and self movement of God's life a trinitarian and entirely unique reality a primarily positive and dynamic concept and the manner and readiness of God's love for creatures Divine aseity is said to indicate God's lordship in the act of self binding God's uniqueness in the act of self revelation and God's sufficiency in the act of self giving *God and Knowledge* Nathaniel Gray Sutanto,2020-02-20 Nathaniel Gray Sutanto offers a fresh reading of Herman Bavinck's theological epistemology and argues that his Trinitarian and organic worldview utilizes an extensive range of sources Sutanto unfolds Bavinck's understanding of what he considered to be the two most important aspects of epistemology the character of the sciences and the correspondence between subjects and objects Writing at the heels of the European debates in the 19th and 20th century concerning theology's place in the academy and rooted in historic Christian teachings Sutanto demonstrates how Bavinck's argument remains fresh and provocative This volume explores archival material and peripheral works translated for the first time in English The author re reads several key concepts ranging from Organicism to the Absolute and relates Bavinck's work to Thomas Aquinas Eduard von Hartmann and other thinkers Sutanto applies this reading to current debates on the relationship between theology and philosophy nature and grace and the nature of knowing and in doing so provides students and scholars with fresh methods of considering Orthodox and modern forms of thought and their connection with each other *Word and Church* John Webster,2016-01-28 In *Word and Church* readers are treated to chapters that examine the field of Christian Dogmatics presenting a clear trajectory in the work of John Webster that moves from interpretation of 20th century Protestant theology to doctrinal construction Webster addresses the modern traditions of Christian divinity and the topics which come to the fore in making sense of these traditions the nature of the Bible and its interpretation the place of Jesus Christ in modern theological culture and the basis and shape of human agency As a whole the book boldly indicates how dilemmas or inadequacies in modern treatments of these topics might be clarified by more direct employment of language about God and the gospel The classic chapters present the work of one of the world's leading contemporary theologians at his creative best For this Cornerstones edition the author has provided a new preface in which he contextualizes the work within his current theology **Jesus Christ, Hermeneutics, and Scripture** Hans Burger,2024-04-18 Soteriology not epistemology is the best entrance to theological hermeneutics and to the doctrine of Scripture The triune God uses Scripture to make the community of believers live in Christ We hear the words of Scripture in the light of Easter and Pentecost We understand Scripture from faith in Christ and with the mind of Christ At the same time we come to know Christ in Scripture and we receive the mind of Christ by reading Scripture We remain in Christ by remaining in the Word Understanding Scripture and Christlikeness mutually reinforce each other Living a Christian life with God and our neighbor in God's world will deepen our understanding of Scripture This book explores the complex relationships between Jesus Christ participation in Christ theological hermeneutics and the doctrine of Scripture It shows the

necessity of a holistic approach of life knowledge understanding and renewal

The Holy Spirit as Communion I. Leon Harris, 2017-09-26 In *The Holy Spirit as Communion* Leon Harris examines the pneumatologies of Colin Gunton and Frank Macchia For both theologians the doctrine of the Holy Spirit is foundational to understanding their doctrine of God Christology and ecclesiology Drawing on the theme of communion *The Holy Spirit as Communion* expresses the concept that the Holy Spirit is the person who perfects the divine nature and personhood of the Father and Son It is the Holy Spirit who perfects the eternal communion within the divine Trinity which is the source of the divine action that also perfects the communion in creation as an expression of the Father's will through Jesus Christ *The Holy Spirit as Communion* explores the essentiality of the Holy Spirit through a unique approach to Spirit Christology Gunton is represented by a radicalized version of Chalcedon Christology and Macchia formulates his account through the overarching metaphor of Spirit baptism Therefore the doctrine of God Christology ecclesiology and eschatology cannot be construed without a proper account of pneumatology that takes into consideration the eschatological perfecting work of the third person of the Trinity who perfects creation's koinonia as a gift from the Father through the grace of Jesus Christ

An Indian Trinitarian Theology of Missio Dei P. V. Joseph, 2019-07-12 The recent rediscovery of the doctrine of the Trinity has left great impact on the thought and life of the Christian Church With this reinstatement the Trinity which was left out for long as an esoteric mystery has captured the imagination of theologians and elicited remarkable trinitarian formulations from across theological traditions This contemporary development has forced the church to review its dogma spirituality and Christian practices through the lens of this central doctrine of the Christian faith One of the important and essential upshots of the doctrine has been the reclamation of a theocentric and trinitarian understanding of mission as the *missio Dei* In view of the modern renewal of the Trinity and the global expansion of Christianity this book explores insights and perspectives from the trinitarian thoughts of St Augustine and the Indian theologian Brahmabandhab Upadhyay that can inform *missio Dei* theology relevant for the Indian context

David Vincent Meconi, S.J., 2016 This book gathers fourteen Catholic scholars to present examine and explain the often misunderstood process of deification The fifteen chapters show what becoming God meant for the early Church for St Thomas Aquinas and the greatest Dominicans and for St Francis and the early Franciscans This book explains how this understanding of salvation played out during the Protestant Reformation and the Council of Trent It explores the thought of the French School of Spirituality various Thomists John Henry Newman John Paul II and the Vatican Councils and it shows where such thinking

can be found today in the Catechism of the Catholic Church No other book has gathered such an array of scholars or provided such a deep study into how humanity's divinized life in Christ has received many rich and various perspectives over the past two thousand years This book seeks to bring readers into the central mystery of Christianity by allowing the Church's greatest thinkers and texts to speak for themselves demonstrating how becoming Christ like and the Body of Christ on earth is the only ultimate purpose of the Christian faith *Becoming a Man... God's Way* Andrew Ash, 2009-03-01 What does a guy have to do to become a mature man or a man full of manliness If you ask society what the key ingredients are they'll tell you that you need larger muscles a nicer car fashionable clothes an abrasive demeanor and the list keeps going But do the things on society's list really change the man inside Do they really bring about a means to draw people to him and to help him mature In recent times young men have followed society's formula which leads them to constantly strive for bigger and better things but often times their efforts are in the wrong areas of their life Society works on the outside of the man but God works on the inside God left the blueprints of a perfect man after which we can pattern our lives In these blueprints that are found in His Word we can learn the truths on Becoming a Man God's Way **The Becoming of God** Roland Faber, 2017-04-06 How should we believe in God today If we look beyond our little lives to the vast cosmos we may even ask Why all that And even if we spiritually feel the universe Why believe any religion After all there are many and haven't they contributed to the predicament of humanity Process theology gives provocative answers to these questions how we are bound by the organic cycles of this world but how in this web of life God shines even in the last least and forgotten event as the Eros of its becoming and as its mirror of greatness why anything exists because it is from beauty for harmony and intensity and through a consciousness of peace rising from our deepest intuitions of existence We can change not only in our thoughts and lives but even in the way we experience this world This book introduces such a new way of experiencing thinking and living Based on the fascinating work on cosmology religion and civilization of Alfred North Whitehead this book develops the main theses of process theology and elucidates it as a theopoetics of mutual care for the unexpected the excluded the forgotten and a future society of peace The Coming of God Jürgen Moltmann, Margaret Kohl, 2004-07-27 Winner of Grawemeyer Award In this remarkable and timely work in many ways the culmination of his systematic theology world renowned theologian Jürgen Moltmann stands Christian eschatology on its head Moltmann rejects the traditional approach which focuses on the End an apocalyptic finale as a kind of Christian search for the final solution He centers instead on hope and God's promise of new creation for all things Christian eschatology he says is the remembered hope of the raising of the crucified Christ so it talks about beginning afresh in the deadly end Yet Moltmann's novel framework deeply informed by Jewish and messianic thought also fosters rich and creative insights into the perennially nettling questions of eschatology Are there eternal life and personal identity after death How is one to think of heaven hell and purgatory What are the historical and cosmological dimensions of Christian hope What are its social and political implications In a heartbreakingly fragile and

fragment world Moltmann's comprehensive eschatology surveys the Christian vista bravely envisioning our horizons of expectation for personal social even cosmic transformation in God

How to Become God Michael Faust, 2013-01-27 Is it possible to become God Is the unconscious mind nothing other than the Heaven gate This is the extraordinary account of the ancient and controversial secret society known as the Pythagorean Illuminati of how it is possible for everyone to attain divinity There are two vast obstacles to overcome one relating to a lack of consciousness and the other to an over identification with consciousness The followers of the Abrahamic religions are bicameral meaning they are highly submissive and obey voices emanating from their unconscious Atheistic scientific materialists are overly rational and deny the existence of anything other than their mortal ego consciousness They have cut themselves off from the most mysterious domain in existence that of the two numbers zero and infinity This may be the most revolutionary book in history presenting a unique and breathtaking view of reality If you cannot find the answers to your profoundest questions in the God Program you will find them nowhere

Thomas F. Torrance Paul D. Molnar, 2016-02-17 This book provides an important study of the theology of Thomas F Torrance who is generally considered to have been one of the most significant theologians writing in English during the twentieth century with a view toward showing how his theological method and all his major doctrinal views were shaped by

his understanding of the doctrine of the Trinity Torrance pursued a theology that was realist because he attempted to think in accordance with the unique nature of the object that is known In holding to such a methodology he drew an analogy between theology and natural science This book demonstrates how for Torrance God relates with humanity within time and space so that creation finds its meaning in relation to God and not in itself this enabled him to avoid many theological pitfalls such as agnosticism subjectivism and dualism while explaining the positive implications of various Christian doctrines in a penetrating and compelling manner This book offers an important resource for students of theology and for scholars who are interested in seeing how serious dogmatic theology shapes and should shape our understanding of the Christian life
