*The Ancient Near East: A Very Short Introduction* Amanda H. Podany, 2014 This book explores the lands of the ancient Near East from around 3200 BCE to 539 BCE The earth shaking changes that marked this era include such fundamental inventions as the wheel and the plow and intellectual feats such as the inventions of astronomy law and diplomacy

**God: An Anatomy** Francesca Stavrakopoulou, 2022-01-25 An astonishing and revelatory history that re presents God as he was originally envisioned by ancient worshippers with a distinctly male body and with superhuman powers earthly passions and a penchant for the fantastic and monstrous A rollicking journey through every aspect of Yahweh's body from top to bottom yes that too and from inside out Ms Stavrakopoulou has almost too much fun The Economist The scholarship of theology and religion teaches us that the God of the Bible was without a body only revealing himself in the Old Testament in words mysteriously uttered through his prophets and in the New Testament in the body of Christ The portrayal of God as corporeal and masculine is seen as merely metaphorical figurative or poetic But in this revelatory study Francesca Stavrakopoulou presents a vividly corporeal image of God a human shaped deity who walks and talks and weeps and laughs who eats sleeps feels and breathes and who is undeniably male Here is a portrait arrived at through the author's close examination of and research into the Bible of a god in ancient myths and rituals who was a product of a particular society at a particular time made in the image of the people who lived then shaped by their own circumstances and experience of the world From head to toe and every part of the body in between this is a god of stunning surprise and complexity one we have never encountered before

**Sumerian Origins** Norah Romney, 2020-06-07 A

Mysterious Group of People came to settle in southern Mesopotamia sometime around 5400BC What is now the modern state of Iraq the first city of Mesopotamia was founded named Eridu Although historians have generally regarded this as the world's first city we have seen this challenged on numerous occasions by recent discoveries too numerous to mention here Eridu had all the things we ordinarily associate with an ancient city temples administrative buildings housing agriculture markets art and of course walls to keep out unsavoury characters The elusive aspect is we have absolutely no idea where they acquired their language and bizarre language it is we have no idea what they originally looked like Their language which we call Sumerian and the subsequent Akkadian derivative were linguistic isolates Sumerian is the oldest known written language on Earth and any languages it might have derived from or developed alongside have been lost to time Figuring out what their baffling ethnic identity based on their art is a doomed effort because their art was so stylized that a good case could be made that it portrays people of any ethnicity or the people they encountered The Sumerian language was not Semitic and the Akkadian conquests of 2334 BCE disrupted the ethnic and cultural isolation of the Sumerian people By about 2000 BCE the Sumerians were speaking Akkadian and the Sumerian and Akkadian civilizations were regarded as a single enterprise Does this mean that we'll never know how the Sumerian language developed or where the Sumerians originally came from Well if any reasonably well preserved Sumerian bones can be found DNA testing could tell us their ethnic origin Although this all sounds murky we have literature left in the form of cuneiform writing that speaks volumes on their day to day life and their highly unusual gods The Sumerian pantheon reads like wild science fiction at times and although they often speak of their own origins in terms of their gods and family ties many have chosen to label this as mythology ignore it or merely treat it in a literature aspect

**Tradition and Innovation** Maria do Rosário Monteiro, Mário Ming Kong, 2021-06-29 The texts presented in Proportion Harmonies and Identities PHI Tradition and Innovation were compiled with the intent to establish a multidisciplinary platform for the presentation interaction and dissemination of researches They also aim to foster the awareness and discussion on the topic of Tradition and Innovation focusing on different visions relevant to Architecture Arts and Humanities Design and Social Sciences and its importance and benefits for the sense of identity both individual and communal The idea of Tradition and Innovation has been a significant motor for development since the Western Early Modern Age Its theoretical and practical foundations have become the working tools of scientists philosophers and artists who seek strategies and policies to accelerate the development process in different contexts

**Genesis, Isaiah, and Psalms** Katharine Julia Dell, Graham I. Davies, Yee Von Koh, 2010 Studies of Genesis Isaiah and Psalms key biblical texts that represent the interests of the honoree Professor John Emerton The comparison of biblical texts with the ancient Near East and archaeological finds intertextual work literary historical approaches texts and versions and scholarly interpretations from the past are all represented

**Evolutionary Creation** Denis O. Lamoureux, 2008-06-15 In this provocative book evolutionist and evangelical Christian Denis O Lamoureux proposes an approach to origins that moves beyond the evolution

versus creation debate Arguing for an intimate relationship between the Book of God's Words and the Book of God's Works he presents evolutionary creation a position that asserts that the Father Son and Holy Spirit created the universe and life through an ordained and sustained evolutionary process This view of origins affirms intelligent design and the belief that beauty complexity and functionality in nature reflect the mind of God Lamoureux also challenges the popular Christian assumption that the Holy Spirit revealed scientific and historical facts in the opening chapters of the Bible He contends that Scripture features an ancient understanding of origins that functions as a vessel to deliver inerrant and infallible messages of faith Lamoureux shares his personal story and his struggle in coming to terms with evolution and Christianity Like many he lost his boyhood faith at university in classes on evolutionary biology After graduation he experienced a born again conversion and then embraced belief in a literal six day creation Graduate school training at the doctoral level in both theology and biology led him to the conclusion that God created the world through evolution Lamoureux closes with the two most important issues in the origins controversy the pastoral and pedagogical implications How should churches approach this volatile topic And what should Christians teach their children about origins

**Psalms, Proverbs, Ecclesiastes, and Song of Songs** John Hilber, Tremper Longman III, Duane Garrett, 2016-01-12 Many today find the Old Testament a closed book The cultural issues seem insurmountable and we are easily baffled by that which seems obscure Furthermore without knowledge of the ancient culture we can easily impose our own culture on the text potentially distorting it This series invites you to enter the Old Testament with a company of guides experts that will give new insights into these cherished writings Features include Over 2000 photographs drawings maps diagrams and charts provide a visual feast that breathes fresh life into the text Passage by passage commentary presents archaeological findings historical explanations geographic insights notes on manners and customs and more Analysis into the literature of the ancient Near East will open your eyes to new depths of understanding both familiar and unfamiliar passages Written by an international team of 30 specialists all top scholars in background studies

**The Oxford Handbook of the Archaeology of Ritual and Religion** Timothy Insoll, 2011-10-28 The Oxford Handbook of the Archaeology of Ritual and Religion provides a comprehensive overview by period and region of the relevant archaeological material in relation to theory methodology definition and practice Although as the title indicates the focus is upon archaeological investigations of ritual and religion by necessity ideas and evidence from other disciplines are also included among them anthropology ethnography religious studies and history The Handbook covers a global span Africa Asia Australasia Europe and the Americas and reaches from the earliest prehistory the Lower and Middle Palaeolithic to modern times In addition chapters focus upon relevant themes ranging from landscape to death from taboo to water from gender to rites of passage from ritual to fasting and feasting Written by over sixty specialists renowned in their respective fields the Handbook presents the very best in current scholarship and will serve both as a comprehensive introduction to its subject and as a stimulus to further research
