Landy, 2001-01-01 This is a book about seeing the ultimate mystery as represented by the figure of God It is not about religion per se although it makes reference to many of the great religious traditions of the world and their gods Rather it is about the presence of the spiritual world and its inhabitants The author s aim is to attempt to answer the question How do we see God through engaging with the images created by a group of children from a number of different cultures and spiritual backgrounds Through a two year period the author travelled the world interviewing more than 500 children asking them to draw a picture of God to act and speak as God and to tell a story about God This text is a documentation of that journey into the lives and spiritual beliefs of children Throughout the book a

**The Bible's Many Voices** Michael Carasik,2014-01-01 The most common English translations of the Bible often sound like a single somewhat archaic voice In fact the Bible is made up of many separate books composed by multiple writers in a wide range of styles and perspectives It is as Michael Carasik demonstrates not a remote text reserved for churches and synagogues but rather a human document full of history poetry politics theology and spirituality Using historic linguistic anthropological and theological sources Carasik helps us distinguish between the Jewish Bible s voices the mythic the historical the prophetic the theological and the legal By articulating the differences among these voices he shows us not just their messages and meanings but also what mattered to the authors In these contrasts we encounter the Bible anew as a living work whose many voices tell us about the world out of which the Bible grew and the world that it created
