celebration came to be named after the Christian missionary St Walpurgis ca 710-79 John Michael Cooper discusses the Night's treatments in several closely interwoven works by Goethe and Mendelssohn His book situates those works in their immediate personal and professional contexts as well as among treatments by a wide array of other artists philosophers and political thinkers including Voltaire Lessing Shelley Heine Delacroix and Berlioz In an age of decisive political and religious conflict Walpurgis Night became a heathen muse a source of inspiration that was neither specifically Christian nor Jewish nor Muslim And Mendelssohn's and Goethe's engagements with it offer new insights into its role in European cultural history as well as into issues of political religious and social identity and the relations between cultural groups in today's world John Michael Cooper Southwestern University is the author of Mendelssohn's Italian Symphony Oxford University Press

The Threat and Allure of the Magical Ashwin Manthripragada, Emina Mušanović, Dagmar Theison, 2014-08-11 This collection of essays is borne out of the 17th Annual Interdisciplinary German Studies Conference at the University of California Berkeley The essays gathered here cover a broad range of topics moving from intersections between the occult and the political to the entanglement of conceptions of the magical modernity media and aesthetics The first two essays primarily rely on historical analysis and present a wealth of original research One chronicles the construction of the witch in Early Modern print media while the other unfolds the complex relationship of an infighting Third Reich with a multifaceted occult deemed at once fascinating and menacing The third essay in the collection combines critical literary and feminist theories in order to address the magical as an aspect of the fairy tale a theme in the works of Jelinek and Adorno and as a challenge to Enlightenment reason The next two essays influenced heavily by narratology and semiotics present close readings of 19th century novellas that question the nexus of mediality and perception magic and narrative structure The first of these two essays deals with the liminality of the marionette as it is caught between its mechanical and marvelous qualities in E T A Hoffman s *Rat Krespel* Councilor Krespel while the latter addresses the collapse of reality mirrored by the magical collapse of metaphor in Theodor Storm s *Pole Poppenspäler* Paul the Puppeteer The last essay rounds out the compilation with a focus on new media With close analyses of the films in Lang s *Mabuse* trilogy this essay charts their relation to the enchantment and disenchantment of the medium of film

Thomas de Quincey F. Burwick, 2001-05-23 This book examines what De Quincey called psychological criticism a mode of studying how literature of power arouses ideas and images dormant in the subconscious He explores this power by means of an introspective analysis of the effects produced in his own mind by reading Shakespeare and Milton Wordsworth and Coleridge Discussion of De Quincey s critical and narrative prose includes his skilled rewriting of a German forgery of a Waverly novel as well as such better known works as *Suspensum* *de Profundis* *Murder* Considered as one of the *Fine Arts* On the Knocking at the Gate in *Macbeth* The English Mail Coach and Wordsworth s *Poetry* New insight into each of these works is provided by drawing on a wealth of previously unpublished manuscripts

Technocracy and Political Truth Guido Niccolò Barbi, 2025-09-02 The inability to envision political alternatives or to use Arendt s terminology to make new beginnings is a key component of today s democratic crisis In its first part this study shows that this situation results from the growing technocratization of both government and the democratic public sphere which hinders the ability to form new political judgments By analyzing rationalized bureaucracy which substitutes automated procedures for political decision and mass democracy which permits the infinite expansion of the administration s purview an account of technocracy as administrative non political rule is constructed The book s second

part expands on this diagnosis by examining how political judgment differs from epistemic reasoning This examination puts into dialogue Arendt Kant and Vico reviving a humanist understanding of common sense *sensus communis* and ingenuity *ingenium* This allows us to rethink political judgment as both cognitively immediate and reflectively plural showcasing how technocratic decision making illegitimately delimits the horizon for political judgments and new beginnings

Romantic Organicism C. Armstrong, 2003-06-24 Romantic Organicism attempts to reassess the much maligned and misunderstood notion of organic unity Following organicism from its crucial radicalisation in German Idealism it shows how both Coleridge and Wordsworth developed some of their most profound ideas and poetry on its basis Armstrong shows how the tenets and ideals of organicism despite much criticism remain an insistent if ambivalent backdrop for much of our current thought including the work of Derrida amongst others

Discovering Sexuality in Dostoevsky Susanne Fusso, 2008-01-29 Most discussions of sexuality in the work of Dostoevsky have been framed in Freudian terms But Dostoevsky himself wrote about sexuality from a decidedly pre Freudian perspective By looking at the views of human sexual development that were available in Dostoevsky s time and that he an avid reader and observer of his own social context absorbed and reacted to Susanne Fusso gives us a new way of understanding a critical element in the writing of one of Russia s literary masters Beyond discovering Dostoevsky s own views and representations of sexuality as a reflection of his culture and his time Fusso also explores his artistic treatment of how children and adolescents discover sexuality as part of their growth Some of the topics Fusso considers are Dostoevsky s search for an appropriate artistic language for sexuality a young narrator s experimentation with homoerotic desire and unconventional narrative in *A Raw Youth* and Dostoevsky s approach to a young man s sexual development in *A Raw Youth* and *The Brothers Karamazov* She also explores his complex treatment of a child s secret sexuality in his account of the Kroneberg child abuse case in *A Writer s Diary* and his conception of the ideal family a type of family that appears in his works mainly by negative example Focusing mainly on sexual practices considered deviant in Dostoevsky s time both because these are the practices that his young characters confront and because they offer the most intriguing interpretive problems Fusso decodes the author s texts and their social contexts In doing so she highlights one thread in the intricate thematic weave of Dostoevsky s novels and newly illuminates his artistic process

Music in Goethe's Faust Lorraine Byrne Bodley, 2017 Goethe s *Faust* a work which has attracted the attention of composers since the late eighteenth century and played a vital role in the evolution of vocal operatic and instrumental repertoire in the nineteenth century has had a seminal impact in musical realms

Mimesis and Its Romantic Reflections Frederick Burwick, 2010-11-01 In Romantic theories of art and literature the notion of mimesis defined as art s reflection of the external world became introspective and self reflexive as poets and artists sought to represent the act of creativity itself Frederick Burwick seeks to elucidate this Romantic aesthetic first by offering an understanding of key Romantic mimetic concepts and then by analyzing manifestations of the mimetic process in literary works of the period Burwick explores the mimetic concepts of art for art s

sake Idem et Alter and palingenesis of mind as art by drawing on the theories of Philo of Alexandria Aristotle Immanuel Kant Friedrich Schiller Friederich Wilhelm Joseph von Schelling Thomas De Quincey and Germaine de Staël Having established the philosophical bases of these key mimetic concepts Burwick analyzes manifestations of mimesis in the literature of the period including ekphrasis in the work of Thomas De Quincey mirrored images in the poems of Samuel Taylor Coleridge and William Wordsworth and the twice told tale in the novels of Charles Brockden Brown E T A Hoffmann and James Hogg Although artists of this period have traditionally been dismissed in discussions of mimesis Burwick demonstrates that mimetic concepts comprised a major component of the Romantic aesthetic
