George Iii And The Satirists From Hogarth To Byron

Mark Philp

George III And The Satirists From Hogarth To Byron:

George III and the Satirists from Hogarth to Byron Vincent Carretta, 2007-12-01 King George III inherited two legacies from the restoration of the monarchy in 1660 his crown and a tradition of regal satire As the last British monarch who fully ruled as well as reigned and as the last king of America George III was the target of constant satiric attacks even before he came to the throne in 1760 and for years after his death in 1820 An interdisciplinary and intercontinental study this book examines the political satiric poetry and political graphic prints of Britain and Colonial America during the late Georgian period a tumultuous era that witnessed the American and French revolutions the Napoleonic wars and the birth of the Romantic movement Using George III as his focal point Vincent Carretta draws on a wide range of verbal and visual sources to illuminate the development of satire from the work of Charles Churchill and William Hogarth to Lord Byron and George Cruikshank Extending the argument from his earlier book *The Snarling Muse* which dealt with satire during the first half of the eighteenth century Carretta demonstrates that the satiric line of descent from the early decades of the 1700s through the 1820s is much more direct than most scholars have recognized Throughout the book Carretta examines not only how the monarchy was reflected in satire but how satire in turn may have influenced the regal institution In the 1790s for example British satirists discovered that their earlier attacks on the king for not being kingly enough had brought an unanticipated consequence they had created the basis for the fictional commoner king Farmer George which the king's supporters used with great rhetorical effectiveness against the threat of revolutionary French ideas Enhanced by more than 160 illustrations *George III and the Satirists* effectively demonstrates how a wide range of materials verbal and visual literary and nonliterary can be marshaled in an interdisciplinary pursuit that crosses conventional fields and periods repositioning artists and authors who are too often approached outside their original contexts *The Oxford Handbook of Eighteenth-Century Satire* Paddy Bullard, 2019-07-30 Eighteenth century Britain thought of itself as a polite sentimental enlightened place but often its literature belied this self image This was an age of satire and the century's novels poems plays and prints resound with mockery and laughter with cruelty and wit The street level invective of Grub Street pamphleteers is full of satire and the same accents of raillery echo through the high scepticism of the period's philosophers and poets many of whom were part time pamphleteers themselves The novel a genre that emerged during the eighteenth century was from the beginning shot through with satirical colours borrowed from popular romances and scandal sheets This Handbook is a guide to the different kinds of satire written in English during the long eighteenth century It focuses on texts that appeared between the restoration of the Stuart monarchy in 1660 and the outbreak of the French Revolution in 1789 Outlier chapters extend the story back to first decade of the seventeenth century and forward to the second decade of the nineteenth The scope of the volume is not confined by genre however So prevalent was the satirical mode in writing of the age that this book serves as a broad and characteristic survey of its literature The Oxford Handbook of Eighteenth Century Satire reflects developments in

historical criticism of eighteenth century writing over the last two decades and provides a forum in which the widening diversity of literary intellectual and socio historical approaches to the period s texts can come together *The Hanoverian Dimension in British History, 1714-1837* Brendan Simms,Torsten Rlotte,2007-02-08 For more than 120 years 1714 1837 Great Britain was linked to the German Electorate later Kingdom of Hanover through Personal Union This made Britain a continental European state in many respects and diluted her sense of insular apartness The geopolitical focus of Britain was now as much on Germany on the Elbe and the Weser as it was on the Channel or overseas At the same time the Hanoverian connection was a major and highly controversial factor in British high politics and popular political debate This volume was the first systematically to explore the subject by a team of experts drawn from the UK US and Germany They integrate the burgeoning specialist literature on aspects of the Personal Union into the broader history of eighteenth and early nineteenth century Britain Never before had the impact of the Hanoverian connection on British politics monarchy and the public sphere been so thoroughly investigated *The Efflorescence of Caricature, 1759-1838* Todd Porterfield,2017-07-05 Searing disputes over caricature have recently sparked flames across the world the culmination not the beginning of the story of one of modernity s definitive artistic practices Modern visual satire erupts during a period marked by reform and revolution by cohering nationalisms and expanding empires and by the emerging discipline of art history This has long been recognized as its Golden Age It is time to look anew In *The Efflorescence of Caricature 1759 1838* an international interdisciplinary and intergenerational team of scholars reconfigures the geography of modern visual satire as the expansive narrative reaches from North America to Europe to China and the Ottoman Empire Caricature s specific visual cultures are also laid bare its iconographic means and material support as well as the diverse milieu of its making the military the art academy diplomacy politics art criticism and popular entertainment Some of its greatest practitioners James Gillray and Honor aumier are seen in a new light alongside some of their far flung and opportunistic pastichers Most trenchantly assumptions about the consequences of caricature s rise come under intense scrutiny interrogated for its cherished and long vaunted civilizational claims on individual character artistic supremacy political liberty and global domination **Literature and Union** Gerard Carruthers,Colin Kidd,2018-01-06 *Literature and Union* opens up a new front in interdisciplinary literary studies There has been a great deal of academic work both in the Scottish context and more broadly on the relationship between literature and nationhood yet almost none on the relationship between literature and unions This volume introduces the insights of the new British history into mainstream Scottish literary scholarship The contributors who are from all shades of the political spectrum will interrogate from various angles the assumption of a binary opposition between organic Scottish values and those supposedly imposed by an overbearing imperial England Viewing Scottish literature as a clash between Scottish and English identities loses sight of the internal Scottish political and religious divisions which far more than issues of nationhood and union were the primary sources of conflict in Scottish culture for most of the period of Union until at least the early

twentieth century The aim of the volume is to reconstruct the story of Scottish literature along lines which are more historically persuasive than those of the prevailing grand narratives in the field The chapters fall into three groups 1 those which highlight canonical moments in Scottish literary Unionism John Bull Rule Britannia Humphry Clinker Ivanhoe and England their England 2 those which investigate key themes and problems including the Unions of 1603 and 1707 Scottish Augustanism the Burns Cult Whig Presbyterian and sentimental Jacobite literatures and 3 comparative pieces on European and Anglo Irish phenomena

Edmund Burke: Volume I, 1730-1784 F. P Lock, 1998 This is a full scholarly biography of Burke in two volumes The first volume covers the years between 1730 1784 and describes his Irish upbringing and education early writing and his parliamentary career throughout the momentous years of the American War of Independence This second volume covers 1784 97 its leading themes are India and the French Revolution Burke was largely responsible for the impeachment of Warren Hastings former Governor General of Bengal

Strategic Imaginations Anke Gilleir, Aude Defurne, 2020-12-15 Imaginations of female rule and the imaginative strategies of women rulers What is the gender of political power What happens to the history of sovereignty when we reconsider it from a gender perspective Political sovereignty has been a major theme in European thought from the very beginning of intellectual reflection on community Philosophy and political theory historiography theology and literature and the arts have often in dialogue with one another sought to represent or recalibrate notions of rule Yet whatever covenant was imagined sovereign rule has consistently been figured as a male prerogative While in depth studies of historical women rulers have proliferated in the past decades these have not systematically explored how all women rulers throughout the entirety of European culture have had to operate in a context that could not think power as female except in grotesque terms *Strategic Imaginations* demonstrates that this constitutive tension can only be brought out by studying women s political rule in a comparative and longue dur e manner The book offers a collection of essays that brings together studies of female sovereignty from the Polish Lithuanian to the British Commonwealth and from the Middle Ages to the genesis of modern democracy It addresses historical figures and takes stock of the rich yet unsettling imagination of female rule in philosophy literature and art history For all the variety of geographical social and historical contexts it engages the book reveals surprising resonances between the strategies women rulers used and the images and practices they adopted in the context of an all pervasive skepticism toward female rule

Raising Royalty Carolyn Harris, 2017-04-08 How royal parents dealt with raising their children over the past thousand years from keeping Vikings at bay to fending off paparazzi William and Kate the Duke and Duchess of Cambridge are setting trends for millions of parents around the world The upbringing of their children Prince George and Princess Charlotte is the focus of intense popular scrutiny Royalty have always raised their children in the public eye and attracted praise or criticism according to parenting standards of their day Royal parents have faced unique challenges and held unique privileges In medieval times raising an heir often meant raising a rival and monarchs sometimes faced their grown children on the

battlefield Conversely kings and queens who lost their thrones in wars or popular revolutions often found solace in time spent with their children In modern times royal duties and overseas tours have often separated young princes and princesses from their parents a circumstance that is slowly changing with the current generation of royalty

Romanticism and the Rule of Law Mark L. Barr,2021-08-06 This book frames British Romanticism as the artistic counterpart to a revolution in subjectivity occasioned by the rise of The Rule of Law and as a traumatic response to the challenges mounted against that ideal after the French Revolution The bulk of this study focuses on Romantic literary replies to these events primarily in the work of Samuel Taylor Coleridge and William Blake but its latter stages also explore how Romantic poetry's construction of the autonomous reading subject continues to influence legal and literary critical reactions to two modern crises in the rule of law European Fascism and the continuing instability of legal interpretive strategy

Resisting Napoleon Mark Philp,2016-12-05 The long war with Revolutionary France had a fundamental impact on British political culture The most dramatic example of this is the mass mobilisation of the British people in response to French invasion threats throughout the last years of the century but most spectacularly in the period 1803-5 after the collapse of the Peace of Amiens and the massing of an invasion fleet by Napoleon The preparations for the threatened invasion had many dimensions including military and naval mobilization the development of defensive earthworks and fortifications on the British Coast the surveillance and monitoring of radicals identified with the French cause the incitement of loyalist sentiment through caricature newspapers tracts and broadsides and loyalist songs and the construction of Napoleon as the prime enemy of British interests Although aspects of these issues have been studied this book is the first time that they have been brought together systematically By bringing together historians of Britain and France to examine the dynamics of the military conflict between the two nations in this period this book measures its impact on their domestic political cultures and its effect on their perceptions of each other In so doing it will encourage scholars to further examine aspects of popular mobilisation which have hitherto been largely ignored such as the resurgence of loyalism in 1803 and to see their contributions in the light of the dual contexts of domestic political conflict and their war with each other By allowing scholars to focus their attention on this period of heightened tension the book contributes both new detail to our understanding of the period and a better overall understanding of the complex place which each nation came to occupy in the consciousness of the other

State of Ridicule Dan Sperrin,2025-04-29 This will be the first proper history of English satire from its origins in the late medieval period to the present day This book is a history of political satire in English literature from the Middle Ages through the nineteenth century The aim is to present a coherent history of what has been an everchanging complex series of literary traditions that we refer to as satire from its beginnings in various kinds of medieval grotesque up to the proliferation of the modern novel Author Dan Sperrin presents interesting and original insights into the satirist's paradoxical situation at both the periphery and the centre of culture The text is organised chronologically by period and is concentrated upon canonical

figures including Chaucer Dryden Swift Pope Johnson and Dickens but also including more obscure writers in such a way as to be focused enough to tell a story but broad enough to include variation of which there is decidedly a great deal by the very nature of what the author describes as a mercurial literary form Satire as Sperrin demonstrates often takes aim at grand narratives and comprehensive taxonomies and the book accounts for eccentricity and individuality as a matter of principle

The Reception of Blake in the Orient Steve Clark, Masashi Suzuki, 2006-04-01 This volume brings together research from international scholars focusing attention on the longevity and complexity of Blake's reception in Japan and elsewhere in the East It is designed as not only a celebration of his art and poetry in new and unexpected contexts but also to contest the intensely nationalistic and parochial Englishness of his work and in broader terms the inevitable passivity with which Romanticism and other Western intellectual movements have been received in the Orient **Edmund Burke, Volume II** F.

P. Lock, 2006-09-07 This is the second and concluding volume of a biography of Edmund Burke 1730-97 a key figure in eighteenth century British and Irish politics and intellectual life Covering the most interesting years of his life 1784-97 its leading themes are India and the French Revolution Burke was largely responsible for the impeachment of Warren Hastings former Governor General of Bengal The lengthy 145 day trial of Hastings which lasted from 1788 to 1795 is recognized as a landmark episode in the history of Britain's relationship with India Lock provides the first day by day account of the entire trial highlighting some of the many disputes about evidence as well as the great set speeches by Burke and others In 1790 Burke published *Reflections on the Revolution in France* the earliest sustained attack on the principles of the Revolution Continuously in print ever since the *Reflections* remains the most widely read and quoted book about the Revolution The *Reflections* was followed by a series of anti revolutionary writings as Burke maintained his crusade against the Revolution to the end of his life In addition to these leading themes the biography examines many other topics in its coverage of Burke's busy and varied life his parliamentary career his family friendships and philanthropy and his often difficult and obsessive personality There are more than thirty illustrations including many contemporary caricatures that convey how Burke was perceived by an often hostile and uncomprehending public Controversial in his time Burke is now regarded as one of the greatest of orators in the English language as well as one of the most influential political philosophers in the Western tradition

Manly Leaders in Nineteenth-Century British Literature Daniela Garofalo, 2009-01-08 Examines fantasies of charismatic virile leaders in British literature from the 1790s to the 1840s **Red Sea-Red Square-Red Thread** Lydia

Goehr, 2022 Designed as a philosophical detective story *Red Sea Red Square Red Thread* follows the extraordinary number of thinkers and artists who have used the Red Sea anecdote to make so much more than a merely anecdotal point Leading the large cast are the philosophers Arthur Danto and Søren Kierkegaard the poet and playwright Henri Murger the opera composer Giacomo Puccini and the painter and print maker William Hogarth Strange companions perhaps until their use of the anecdote is shown as working its extraordinary passage through so many cosmopolitan cities of art and capital Lydia

Goehr explores these narratives of emancipation in philosophy theology politics and the arts **A War of Ideas** Emma Vincent Macleod,2019-01-15 The responses of British people to the French Revolution has recently received considerable attention from historians British commentators often expressed a sense of the novelty and scale of European wars which followed yet their views on this conflict have not yet attracted such thorough examination This book offers a wide ranging exploration of the attitudes of various groups of British people to the conflict during the 1790 s the Government their supporters and their opponents inside and outside Parliament women churchmen and the broad mass of British public opinion It presents the debate in England and Scotland provoked by the war both as the sequel to the French Revolution and as a distinct debate in itself Emma Vincent Macleod argues that contemporaries saw this conflict as one of the first since the wars of religion to be significantly shaped by ideological hostility rather than solely by a struggle over strategic interests

Welsh Poetry of the French Revolution, 1789-1805 Cathryn A Charnell-White,2012-10-15 This anthology of Welsh poetry and English translations presents some of Wales s radical and reactionary responses to the French Revolution and its cultural legacy 1789 1805 *Novel Histories* Lisa Kasmer,2012-01-16 *Novel Histories* British Women Writing History 1760 1830 argues that British women s history and historical fiction in the late eighteenth and early nineteenth centuries changed not only the shape but also the political significance of women s writing At a time when women s participation in the republic of letters was both celebrated and reviled these authors took cues from developments that revolutionized British history writing to push the limits of narrated history to respond to contemporary national politics Through an examination of the conventions of historical and literary genres historiography during the period and the gendering of civic and literary roles this study shows not only a social political and literary lineage among women s history writing and fiction but also among women s writing and the writing of history **Emma** Jane Austen,2006-04-06 Her masterpiece mixing the sparkle of her early books with a deep sensibility Robert McCrum Observer Although described by Jane Austen as a character whom no one but myself will much like the irrepressible Emma Woodhouse is one of her most beloved heroines Clever rich and beautiful she sees no need for marriage but loves interfering in the romantic lives of others until her matchmaking plans unravel with consequences that she never expected Jane Austen s novel of youthful exuberance and gradual self knowledge is a brilliant sparkling comic masterpiece Edited with an Introduction by FIONA STAFFORD *A Mad, Bad, and Dangerous People?* Boyd Hilton,2006-02-16 This was a transformative period in English history In 1783 the country was at one of the lowest points in its fortunes having just lost its American colonies in warfare By 1846 it was once more a great imperial nation as well as the world s strongest power and dominant economy having benefited from what has sometimes if misleadingly been called the first industrial revolution In the meantime it survived a decade of invasion fears and emerged victorious from more than twenty years of war to the death against Napoleonic France But if Britain s external fortunes were in the ascendant the situation at home remained fraught with peril The country s population was growing at a rate not experienced by any

comparable former society and its manufacturing towns especially were mushrooming into filthy disease ridden gin sodden hell holes in turn provoking the phantasmagoria of a mad bad and dangerous people It is no wonder that these years should have experienced the most prolonged period of social unrest since the seventeenth century or that the elite should have been in constant fear of a French style revolution in England The governing classes responded to these new challenges and by the mid nineteenth century the seeds of a settled two party system and of a more socially interventionist state were both in evidence though it would have been far too soon to say at that stage whether those seeds would take permanent root Another consequence of these tensions was the intellectual engagement with society as for example in the Romantic Movement a literary phenomenon that brought English culture to the forefront of European attention for the first time At the same time the country experienced the great religious revival loosely described under the heading evangelicalism Slowly but surely the raffish and rakish style of eighteenth century society having reached a peak in the Regency then succumbed to the new norms of respectability popularly known as Victorianism

Recognizing the pretentiousness ways to acquire this ebook **George Iii And The Satirists From Hogarth To Byron** is additionally useful. You have remained in right site to start getting this info. get the George Iii And The Satirists From Hogarth To Byron associate that we manage to pay for here and check out the link.
