

George Washington American Independenc

Kim S. Collier

George Washington American Independence:

George Washington Don Higginbotham,2004-09-24 In 1776 thirteen colonies declared their independence from Britain Although they came together to fight a war the colonies were far from a unified nation In George Washington Uniting a Nation Don Higginbotham argues that Washington s greatest contribution to American life was creating a sense of American unity In clear and concise prose Higginbotham shows that as Revolutionary War commander proponent of the Constitution and president George Washington focused on building national identity and erecting institutions to cement the fledgling nation The first book on Washington to examine exclusively his role in state formation George Washington is essential reading for scholars students and everyone interested in America s first and most formative president George Washington and the American Revolution Joanne Wachter,2005 Read about life and accomplishments of George Washington

The Strategy of Victory Thomas Fleming,2017-10-10 A sweeping and insightful grand strategic overview of the American Revolution highlighting Washington s role in orchestrating victory and creating the US Army Led by the Continental Congress the Americans almost lost the war for independence because their military thinking was badly muddled Following the victory in 1775 at Bunker Hill patriot leaders were convinced that the key to victory was the home grown militia local men defending their families and homes But the flush of early victory soon turned into a bitter reality as the British routed Americans fleeing New York General George Washington knew that having and maintaining an army of professional soldiers was the only way to win independence As he fought bitterly with the leaders in Congress over the creation of a regular army he patiently waited until his new army was ready for pitched battle His first opportunity came late in 1776 following his surprise crossing of the Delaware River In New Jersey the strategy of victory was about to unfold In The Strategy of Victory preeminent historian Thomas Fleming examines the battles that created American independence revealing how the creation of a professional army worked on the battlefield to secure victory independence and a lasting peace for the young nation *George Washington and the American Revolution* Kim S. Collier,2010-04-07 George Washington is the one I give title to in this book since he was a brave leader along with many in the the world in his life time but he was also the first President of the United States He helped establish America with his Army and leaders John Adams and Thomas Jefferson who wrote laws of the land and with French allies Admiral Francis Joseph Paul de Grasse and Marquis de lafayette and their Armies who helped win the American Revolution Along with American traders farmers and citizens who all wanted to retain their own land and what they all believed to be a fair government In this book are pictures from the State of Pennsylvania and the City of Philadelphia and outside of the City of Independence where American Soldiers had battles and retained forts This book provides the answers to questions you may have about the establishment and history of the United States and George Washington s life and careers This book is a tribute to the American Revolution Patriots Patriots of today and those who continue to honor the United States of America **George Washington** Molly Aloian,2012-04 Presents

the life and accomplishments of the commander in chief of the Continental Army during the American Revolution who became the first president of the United States Valiant Ambition Nathaniel Philbrick, 2017-05-09 A New York Times Bestseller Winner of the George Washington Prize A surprising account of the middle years of the American Revolution and the tragic relationship between George Washington and Benedict Arnold from the New York Times bestselling author of *In The Heart of the Sea* *Mayflower* and *In the Hurricane's Eye* May be one of the greatest what if books of the age a volume that turns one of America's best known narratives on its head Boston Globe Clear and insightful *Valiant Ambition* consolidates Philbrick's reputation as one of America's foremost practitioners of narrative nonfiction Wall Street Journal In the second book of his acclaimed American Revolution series Nathaniel Philbrick turns to the tragic relationship between George Washington and Benedict Arnold In September 1776 the vulnerable Continental army under an unsure George Washington evacuated New York after a devastating defeat by the British army Three weeks later one of his favorite generals Benedict Arnold miraculously succeeded in postponing the British naval advance down Lake Champlain that might have lost the war As this book ends four years later Washington has vanquished his demons and Arnold has fled to the enemy America was forced at last to realize that the real threat to its liberties might not come from without but from within Complex controversial and dramatic *Valiant Ambition* is a portrait of a people in crisis and the war that gave birth to a nation **George**

Washington's War Bruce Chadwick Ph.D., 2005-02-01 How a young general shaped a nation a fascinating account of George Washington as he faced a war and came out as America's first president The American Revolution was won not on the battlefields but through the mind of George Washington One of America's founding fathers Washington's story is one that influenced how our entire nation was built A compulsively readable narrative and extensive history George Washington's War illuminates how during the war's winter months the young general created a new model of leadership that became the model for the American presidency Through hardships loss and the brutal conditions of war Washington led his men with cunning and grace demonstrating the strong and endearing qualities that led him to become America's most beloved patriot

George Washington's War Robert Leckie, 2010-08-24 Exciting accounts of the major campaigns of the American Revolution a reminder of what history can be when written by a master Publishers Weekly Beginning with a recapitulation of the French and Indian War which though ending in British victory represented the beginning of the end of the British empire in America Robert Leckie briskly recounts the well known events leading to America's break with Britain and the military development of the war In anecdotal biographical sketches he draws vivid portraits of the war's principals George III George Washington Thomas Gage Lord Cornwallis and Benedict Arnold among others Leckie summarizes the principal battles of the war Lexington and Concord Bunker Hill Washington's disastrous Long Island and Manhattan campaigns his victories at Trenton Princeton Saratoga and Yorktown in lucid workmanlike fashion In superb depictions of the British leaders and of the British home front he also adds details rarely found in popular American histories and unlike some historians he doesn't

neglect the southern war the battles of Camden Cowpens and King s Mountain are covered as thoroughly as any Kirkus Reviews Entertaining and enlightening Booklist *George Washington's Secret Navy* James L. Nelson,2008-05-18

Complements the author s last book the well received Benedict Arnold s Navy Details an important but rarely mentioned event in American history *The First of Men* John E. Ferling,2010-02-04 Written by John Ferling one of America s leading historians of the Revolutionary era *The First of Men* offers an illuminating portrait of George Washington s life with emphasis on his military and political career Here is a riveting account that captures Washington in all his complexity recounting not only Washington s familiar sterling qualities courage industry ability to make difficult decisions ceaseless striving for self improvement love of his family and loyalty to friends but also his less well known character flaws Indeed as Ferling shows Washington had to overcome many negative traits as he matured into a leader The young Washington was accused of ingratitude and certain of his letters from this period read as if they were written by a pompous martinet and a whining petulant brat As commander in chief of the Continental Army he lost his temper more than once and indulged flatterers Aaron Burr found him a boring colorless person As president he often believed the worst about individual officials Ferling concludes that Washington s personality and temperament were those of a self centered and self absorbed man one who since youth had exhibited a fragile self esteem And yet he managed to realize virtually every grand design he ever conceived Ferling s Washington is driven fired by ambition envy and dreams of fame and fortune Yet his leadership and character galvanized the American Revolution probably no one else could have kept the war going until the master stroke at Yorktown and helped the fledgling nation take and survive its first unsteady steps This superb paperback makes available once again an unflinchingly honest and compelling biography of the father of our country *Winning Independence* John Ferling,2021-05-11 Co Winner of the 2022 Harry M Ward Book Prize From celebrated historian John Ferling the underexplored history of the second half of the Revolutionary War when after years of fighting American independence often seemed beyond reach It was 1778 and the recent American victory at Saratoga had netted the U S a powerful ally in France Many including General George Washington presumed France s entrance into the war meant independence was just around the corner Meanwhile having lost an entire army at Saratoga Great Britain pivoted to a southern strategy The army would henceforth seek to regain its southern colonies Virginia North Carolina South Carolina and Georgia a highly profitable segment of its pre war American empire Deep into 1780 Britain s new approach seemed headed for success as the U S economy collapsed and morale on the home front waned By early 1781 Washington and others feared that France would drop out of the war if the Allies failed to score a decisive victory that year Sir Henry Clinton commander of Britain s army thought the rebellion is near its end Washington who had been so optimistic in 1778 despaired I have almost ceased to hope *Winning Independence* is the dramatic story of how and why Great Britain so close to regaining several southern colonies and rendering the postwar United States a fatally weak nation ultimately failed to win the war The book explores the choices and

decisions made by Clinton and Washington and others that ultimately led the French and American allies to clinch the pivotal victory at Yorktown that at long last secured American independence General George Washington Edward G.

Lengel,2007-01-09 The most comprehensive and authoritative study of Washington s military career ever written Joseph J Ellis author of His Excellency George Washington Based largely on George Washington s personal papers this engrossing book paints a vivid factual portrait of Washington the soldier An expert in military history Edward Lengel demonstrates that the secret to Washington s excellence lay in his completeness in how he united the military political and personal skills necessary to lead a nation in war and peace Despite being an imperfect commander and at times even a tactically suspect one Washington nevertheless possessed the requisite combination of vision integrity talents and good fortune to lead America to victory in its war for independence At once informative and engaging and filled with some eye opening revelations about Washington the American Revolution and the very nature of military command General George Washington is a book that reintroduces readers to a figure many think they already know The book s balanced assessment of Washington is satisfying and thought provoking Lengel gives us a believable Washington the most admired man of his generation by far The Washington Post Book World A compelling picture of a man who was the archetypal American soldier The sum of his parts was the greatness of Washington The Boston Globe An excellent book fresh insights If you have room on your bookshelf for only one book on the Revolution this may be it The Washington Times George Washington and American Independence

Curtis Putnam Nettels,1976 Before George Washington Was President Janey Levy,2018-12-15 Everyone knows George Washington was the first president of the young United States Most also know that before he was president Washington was the commander of the Continental army during the American Revolution But Washington had a busy life long before the war Readers of this lively biography will discover what life was like for the young Washington from his childhood in rural Virginia through his surveying and military career to his early political life Each spread contains accessible text and vivid images plus captions and fact boxes that enhance the main text with additional information **George Washington Crosses the**
