*Georgia Governors in an Age of Change* Harold P. Henderson, Gary L. Roberts, 1988 Beginning with the inauguration of Ellis Arnall as governor in 1943 *Georgia Governors in an Age of Change* traces the gubernatorial leadership of Georgia through four decades chronicling the state's rise from bastion of southern provincialism to a dynamic and progressive state

**Politics in Georgia** Arnold Fleischmann, Carol Pierannunzi, 2010-01-25 In keeping with the state's major demographic upheavals of recent decades Georgia politics is an interesting and sometimes volatile mix of tradition and change In contrast to the state's rural past most Georgians now live in cities or suburbs and more than 40 percent of the population was born outside the state However religion and race remain issues that politicians ignore at great peril and the state still fares poorly in measures of poverty education and voter turnout *Politics in Georgia* uses a comparative framework to examine four major topics the foundations of contemporary Georgia politics political participation major political institutions and selected public policies Material new to this edition includes analysis of 2006 state elections coverage of trends and events since the book first appeared in 1997 an examination of the Republican Party's rise in Georgia an entirely new chapter on public opinion significantly expanded treatment of public policy on such issues as the environment social welfare education transportation economic development and public safety discussions of major federal court cases that deal with Georgia and that have set important precedents for the nation Throughout *Politics in Georgia* compares the state with the federal government and the other forty nine states as well as with earlier periods of Georgia's political development The result is a thorough up to date resource on Georgia's dynamic political system

**Saving the Georgia Coast** Paul Bolster, 2020-03-15 Fifty years ago Georgia chose how it would use the natural environment of its coast The General Assembly passed the Coastal Marshlands Protection Act in 1970 and surprisingly Lester Maddox a governor who had built a conservative reputation by defending segregation signed it into law With this book Paul Bolster narrates the politics of the times and brings to life the political leaders and the coalition of advocates who led Georgia to pass the most comprehensive protection of marshlands along the Atlantic seaboard *Saving the Georgia Coast* brings to light the intriguing and colorful characters who formed that coalition wealthy island owners hunters and fishermen people who made their home on the coast courageous political leaders garden club members clean water protectors and journalists It explores how that political coalition came together behind governmental leaders and traces the origins of environmental organizations that continue to impact policy today *Saving the Georgia Coast* enhances the reader's understanding of the many steps it takes for a bill to become a law Bolster's account reviews state policy toward the coast today giving the reader an opportunity to compare yesterday to the present Current demands on the coastal environment are different including spaceports and sea rise from climate change but the political pressures to generate new wealth and new jobs or to perch a home on the edge of the sea are no different than fifty years ago *Saving the Georgia Coast* spotlights the past and present decisions needed to balance human desires with the limits of

what nature has to offer      *Ernest Vandiver, Governor of Georgia* Harold Paulk Henderson, 2008-06-01 Ernest Vandiver was elected governor of the state of Georgia in 1958 on a platform of fiscal conservatism and steadfast resistance to desegregation Having vowed to defend Georgia's segregated social system at all costs Vandiver nevertheless concluded that the state could not close its schools to avoid desegregation Because of his decision to reject the path taken by George Wallace in Alabama and Orval Faubus in Arkansas and to protect public education in the state by complying with federal court mandates Vandiver was denounced by the state's more vocal proponents of segregation Using primary sources and extensive interviews with the governor and his contemporaries Henderson tells the full story of Vandiver's life as a transitional figure in the political history of the state He portrays Vandiver as a man cast by circumstances into presiding over a crisis greater than any faced by a Georgia governor since the Civil War Henderson also notes some of Vandiver's less recognized accomplishments including the involvement of state government in furthering tourism foreign investment and industry Ernest Vandiver is here recognized for his significant achievements in guiding the state through a period of rapid transformation      **Defining the Peace** Jennifer E. Brooks, 2011-01-20 In the aftermath of World War II Georgia's veterans black white liberal reactionary pro union and anti union all found that service in the war enhanced their sense of male political and racial identity but often in contradictory ways In *Defining the Peace* Jennifer E Brooks shows how veterans competed in a protracted and sometimes violent struggle to determine the complex character of Georgia's postwar future Brooks finds that veterans shaped the key events of the era including the gubernatorial campaigns of both Eugene Talmadge and Herman Talmadge the defeat of entrenched political machines in Augusta and Savannah the terrorism perpetrated against black citizens the CIO's drive to organize the textile South and the controversies that dominated the 1947 Georgia General Assembly Progressive black and white veterans forged new grassroots networks to mobilize voters against racial and economic conservatives who opposed their vision of a democratic South Most white veterans however opted to support candidates who favored a conservative program of modernization that aimed to alter the state's economic landscape while sustaining its anti union and racial traditions As Brooks demonstrates World War II veterans played a pivotal role in shaping the war's political impact on the South generating a politics of race anti unionism and modernization that stood as the war's most lasting political legacy      **Some of the People Who Ate My Barbecue Didn't Vote for Me** Scott E. Buchanan, 2011-05-06 The story of a quintessential Southern pol      **Public Budgeting in Georgia** Thomas P. Bartley,1995 First published in 1955 to wide acclaim T Harry Williams P G T Beauregard is universally regarded as the first authoritative portrait of the Confederacy s always dramatic often perplexing general Chicago Tribune Chivalric arrogant and of exotic Creole Louisiana origin Beauregard participated in every phase of the Civil War from its beginning to its end He rigidly adhered to principles of war derived from his studies of Jomini and Napoleon and yet many of his battle plans were rejected by his superiors who regarded him as excitable unreliable and contentious After the war Beauregard was almost the only prominent Confederate general who adapted successfully to the New South running railroads and later supervising the notorious Louisiana Lottery This paradox of a man who fought gallantly to defend the Old South and then helped industrialize it is the fascinating subject of Williams superb biography      *Labor in the Modern South* Glenn T. *With All Deliberate Speed* Brian J. Daugherty, Charles C. Bolton, 2011-05 This is the first effort to provide a broad assessment of how well the Brown v Board of Education decision that declared an end to segregated schools in the United States was implemented Written by a distinguished group of historians the twelve essays in this collection examine how African Americans and their supporters in twelve states Arkansas North Carolina Virginia South Carolina Georgia Mississippi Florida Delaware Missouri Indiana Nevada and Wisconsin dealt with the Court's mandate to desegregate with all deliberate speed The process followed many diverse paths Some of the common themes in these efforts were the importance of black activism especially the crucial role played by the NAACP entrenched white opposition to school integration which wasn't just a southern state issue as is shown in Delaware Wisconsin and Indiana and the role of the federal government a sometimes inconstant and sometimes reluctant source of support for implementing Brown

**Restructured Resistance** Jeff Roche, 2010-09-01 In the spring of 1960 unprecedented public hearings were held on segregation and the future of public education These hearings held by John Sibley and the Georgia General Assembly Committee on Schools offered a rare glimpse into the reactions of southerners black and white to the changes wrought by the civil rights movement Restructured Resistance uses newly opened private papers public records newspaper reports and oral history interviews to examine how the desegregation of public schools in Georgia reflected the evolution of southern society economics and politics In the midst of crisis over segregation as a symbol of southern distinctiveness the state legislature accepted the inevitable adopted the Sibley Commission's proposals and created a deliberate and more utilitarian form of defiance a restructured resistance rooted in contemporary practicality and corporate pragmatism

**Desegregating Private Higher Education in the South** Melissa Kean, 2008-10-15 After World War II elite private universities in the South faced growing calls for desegregation Though unlike their peer public institutions no federal court ordered these schools to admit black students and no troops arrived to protect access to the schools to suggest that desegregation at these universities took place voluntarily would be misleading In Desegregating Private Higher Education in the South Melissa Kean explores how leaders at five of the region's most prestigious private universities Duke Emory Rice Tulane and Vanderbilt sought to strengthen their national position and reputation while simultaneously answering the increasing pressure to end segregation To join the upper echelon of U S universities these schools required increased federal and northern philanthropic funding Clearly to receive this funding schools had to eliminate segregation and so a rift appeared within the leadership of the schools University presidents generally favored making careful accommodations in their racial policies for the sake of academic improvement but universities boards of trustees the presidents main opponents served as the final decision makers on university policy Board members usually comprised of professional white male alumni reacted strongly to threats against southern white authority and resisted determinedly any outside attempts to impose desegregation The grassroots civil rights movement created a national crisis of conscience that led many individuals and institutions vital to the universities survival to insist on desegregation The schools felt enormous pressure to end discrimination as northern foundations withheld funding accrediting bodies and professional academic associations denied membership divinity students and professors chose to study and teach elsewhere and alumni withheld contributions The Brown v Board of Education decision in 1954 gave the desegregation debate a sense of urgency and also inflamed tensions which continued to mount into the early 1960s These tensions and the boards resistance to change created an atmosphere of crisis that badly eroded their cherished role as southern leaders When faced with the choice between institutional viability and segregation Kean explains they gracelessly relented refusing to the end to admit they had been pressured by outside forces Shedding new light on a rare unexamined facet of the civil rights movement Desegregating Private Higher Education

in the South fills a gap in the history of the academy      **Jimmy and Rosalynn Carter** E. Stanly Godbold, Jr.,2010-10-06

**Twentieth-Century Atlanta** Ronald H. Bayor,2000-11-09 Atlanta is often cited as a prime example of a progressive New South metropolis in which blacks and whites have forged a city too busy to hate But Ronald Bayor argues that the city continues to bear the indelible mark of racial bias Offering the first comprehensive history of Atlanta race relations he discusses the impact of race on the physical and institutional development of the city from the end of the Civil War through the mayorship of Andrew Young in the 1980s Bayor shows the extent of inequality investigates the gap between rhetoric and reality and presents a fresh analysis of the legacy of segregation and race relations for the American urban environment Bayor explores frequently ignored public policy issues through the lens of race including hospital care highway placement and development police and fire services schools and park use as well as housing patterns and employment He finds that racial concerns profoundly shaped Atlanta as they did other American cities Drawing on oral interviews and written records Bayor traces how Atlanta s black leaders and their community have responded to the impact of race on local urban development By bringing long term urban development into a discussion of race Bayor provides an element missing in usual analyses of cities and race relations      **Torches of Light** Ann Short Chirhart,2005 As turbulent social and economic

changes swept the South in the first half of the twentieth century education became the flashpoint Ann Short Chirhart s study is the first to analyze such modernizing events in Georgia She shows how these changes affected the creation of the state s public school system and cast its teachers in a crucial role as mediators between transformation and tradition Depicting Georgia s steps toward modernity through teachers professional and cultural work and the educational reforms they advocated Chirhart presents a unique perspective on the convergence of voices across the state calling for reform or continuity secularism or theology equality or enforced norms consumption or self reliance Although most teachers black and white shared backgrounds rooted in localism and evangelical Protestantism attitudes about race and gender kept them apart African American teachers individually and collectively redefined traditional beliefs to buttress ideals of racial uplift and to press for equal access to public services White women adapted similar beliefs in different ways to enhance their efforts to train greater numbers of white students for professional and wage labor Torches of Light is based on such sources as government archives manuscript collections and interviews with teachers As Chirhart examines the ideas over which Georgians clashed she also shows how those ideas were embodied in New Deal and U S Department of Agriculture programs the political activities of the black Georgia Teachers and Educators Association and the Georgia legislature s 1949 Minimum Foundation Act Through two world wars and the Great Depression teachers sought to reconcile clashing beliefs not only to

renegotiate class race and gender roles but also to enhance their own professionalism and authority

**Reforming Jim Crow** Kimberley Johnson, 2010-04-16 Historians of the Civil Rights era typically treat the key events of the 1950s Brown v Board of Education sit ins bus boycotts and marches as a revolutionary social upheaval that upended a rigid caste system While the 1950s was a watershed era in Southern and civil rights history the tendency has been to paint the preceding Jim Crow era as a brutal system that featured none of the progressive reform impulses so apparent at the federal level and in the North As Kimberley Johnson shows in this pathbreaking reappraisal of the Jim Crow era this argument is too simplistic and is true to neither the 1950s nor the long era of Jim Crow that finally solidified in 1910 Focusing on the political development of the South between 1910 and 1954 Johnson considers the genuine efforts by white and black progressives to reform the system without destroying it These reformers assumed that the system was there to stay and therefore felt that they had to work within it in order to modernize the South Consequently white progressives tried to install a better meaning more equitable separate but equal system and elite black reformers focused on ameliorative rather than confrontational solutions that would improve the lives of African Americans Johnson concentrates on local and state reform efforts throughout the South in areas like schooling housing and labor Many of the reforms made a difference but they had the ironic impact of generating more demand for social change among blacks She is able to show how demands slowly rose over time and how the system laid the seeds of its own destruction The reformers commitment to a system that was less unequal albeit not truly equal and more like the North led to significant policy changes over time As Johnson powerfully demonstrates our lack of knowledge about the cumulative policy transformations resulting from the Jim Crow reform impulse impoverishes our understanding of the Civil Rights revolution Reforming Jim Crow rectifies that
