

GEORGIA O'KEEFFE

Bold in color and composition but with a remarkable, sensual sensitivity, Georgia O'Keeffe's flower paintings stunned critics and the public alike. A pioneer of Modernism, she walked her own path in the art world, making noteworthy and influential progress without sounding any great fanfare of her own. Experimenting with abstraction and color, she created a style that is as original as it is powerful. O'Keeffe lived to be 98 years old and completed over 2,000 works—an oeuvre that has forever left its stamp on American art. Twelve of her striking depictions of flora are showcased in this calendar.

therefore the cornerstone of the functioning of any political system This book deals with the context the motives and the mechanisms explaining the incidence of institutional engineering in consolidated European democracies between 1990 and 2015 It is centred on the choice of political elites to use or not to use institutional engineering as a response to the challenges they face This study provides both a better empirical understanding of the world of democratic reforms in consolidated democracies thanks to a new data set covering six dimensions of reform in 18 European countries Secondly the book provides evidence about the link between the lack of political support and democratic reforms and the role of electoral shifts in fostering reforms Thirdly this research shows that the final outcome of a given reform depends on the type of reform at stake and on the process used during the phase of discussion of the reform though case studies in Ireland France and Italy Ultimately the book demonstrates that contrary to what has been commonly assumed reforms of the core democratic rules are frequent and constitute in most cases an answer of challenged political elites to the erosion of political support and electoral change Comparative Politics is a series for researchers teachers and students of political science that deals with contemporary government and politics Global in scope books in the series are characterised by a stress on comparative analysis and strong methodological rigour The series is published in association with the European Consortium for Political Research For more information visit www.ecprnet.eu The series is edited by Emilie van Haute Professor of Political Science Universit libre de Bruxelles Ferdinand M ller Rommel Director of the Center for the Study of Democracy Leuphana University and Susan Scarrow Chair of the Department of Political Science University of Houston
