German Federalism Past Present Future

Matthew Jefferies

German Federalism Past Present Future:

German Federalism M. Umbach, 2002-03-13 This book explores the German idea of federalism denoting diversity within unity. Historians, linguists and political scientists examine how federalism emerged in the Holy Roman Empire, was reshaped by nineteenth century cultural movements and was adopted by the unified state in 1871 and again after 1945. The myth of federalism as a safeguard against totalitarianism is tested in regard to the Third Reich and the GDR. The book concludes with an outlook on German federalism's future in Europe.

Comparative Federalism and Intergovernmental Agreements Jeffrey Parker, 2014-08-27 Intergovernmental agreements are an important instrument in federal systems establishing new social programs, regulating agricultural practices and even changing constitutions. Despite their importance, there have only been limited attempts to understand agreements in a comparative context or to provide a theoretical framework for their study. This book addresses both of these deficiencies by comparing the use of agreements in six federations: Australia, Canada, Germany, South Africa, Switzerland and the United States, and considering why certain federations form more agreements than others. Parker analyzes the data using an institutional framework that considers the effects of seven variables including the constitutional division of powers, the system of intergovernmental transfers, the size of the welfare state and the nature of governing institutions. In addition, the study provides the first ever comparative database of national intergovernmental agreements, a new resource for future research. This book will be of interest to students and scholars of Political Science, Federalism, Government, Political Institutions, Political Theory and Comparative Politics.

The Dual Transformation of the German Welfare State P. Bleses, M. Seeleib-Kaiser, 2004-08-23 This book breaks new intellectual ground in the analysis of the German welfare state. Bleses and Seeleib-Kaiser argue that we are witnessing a dual transformation of the welfare state which is caused by the emergence of new dominating interpretative patterns. Increasingly, the state reduces its social policy commitments towards securing the achieved living standard of former wage earners, which in the past had been the key normative principle of social policy in Germany, while at the same time public support and services for families are expanded.

Modern Germany Wendell G. Johnson, Katharina Barbe, 2022-03-29 This thematic encyclopedia presents a broad overview of contemporary Germany, spanning such topics as geography, pop culture, the media and gender roles. Themes in the book cover geography, history, politics and government, economy, religion and thought, social classes and ethnicity, gender, marriage and sexuality, education, language, etiquette, literature and drama, art and architecture, music and dance, food, leisure and sports, and media and pop culture. Within each theme, short topical entries cover a wide array of key concepts and ideas, from LGBTQ issues in Germany to linguistic dialects to the famous Oktoberfest.

Transnational Imaginations of Socialism Teresa Malice, 2022-12-31 Town twinning refers to the postwar phenomenon of administrative exchange between analogous municipalities. Cold War related research has mostly interpreted it as an instrument to pursue European integration or to solidify détente from below. However, municipalities were not only administrative neutral actors

but also bearers of political content This is particularly visible in the case of Italian towns located in the Western bloc guided by socialist oriented administrations and their twin counterparts in the German Democratic Republic This volume explores the connections initiated by such towns in the 1960s 1970s focusing on socialist specific conceptions which fueled the policies implemented by red municipalities in managing local economies and social policies but also in maintaining a lively and interconnected transnational microsociability among grassroots activists Despite the increasing ideological divergences between Eastern and Western communists and between Italian democratic communists and the more dogmatic and repressive strictly pro Soviet ones in the GDR communication continued to flourish on the local level The book explores what still linked the two worlds together the bright side of socialism in this case a common symbolism related to the past practical exchanges in the present dimension and a shared future imagination and conception of the town on the basis of a socialist horizon built around welfare and services for citizens and workers *Germany's Two Unifications* R. Speirs,J.

Breuilly,2004-12-06 Germany s unique historical experience of undergoing national unification twice in a little over a century makes it a fascinating object of study In this volume the processes of unification are analysed from the point of view of historians political scientists and literary historians Because each event had quite different historical pre conditions the first having been long anticipated and pursued whereas the second took virtually all participants by surprise the processes of adjustment to it have differed in many ways Yet in each case the idea of national unity has held sway powerfully as a norm guiding the responses of those involved *West Germany and the Iron Curtain* Astrid M. Eckert,2019-09-02 West Germany and the Iron Curtain takes a fresh look at the history of Cold War Germany and the German reunification process from the spatial perspective of the West German borderlands that emerged along the volatile inter German border after 1945 These border regions constituted the Federal Republic s most sensitive geographical space where it had to confront partition and engage its socialist neighbor East Germany in concrete ways Each issue that arose in these borderlands from economic deficiencies border tourism environmental pollution landscape change and the siting decision for a major nuclear facility was magnified and mediated by the presence of what became the most militarized border of its day the Iron Curtain In topical chapters the book addresses the economic consequences of the border for West Germany which defined the border regions as depressed areas and examines the cultural practice of western tourism to the Iron Curtain At the heart of this deeply researched book stands an environmental history of the Iron Curtain that explores transboundary pollution landscape change and a planned nuclear industrial site at Gorleben that was meant to bring jobs into the depressed border regions The book traces these subjects across the caesura of 1989 90 thereby integrating the long postwar era with the post unification decades As Eckert demonstrates the borderlands that emerged with partition and disappeared with reunification did not merely mirror some larger developments in the Federal Republic s history but actually helped to shape them **Making Prussians, Raising Germans** Jasper Heinzen,2017-08-31 An investigation into why the creation of nation states coincided

with bouts of civil war in the nineteenth century Western world **Walter Benjamin** M. Kohlenbach,2002-09-06 Walter Benjamin's work represents one of the most radical and controversial responses to the problems of twentieth century culture and society This new interpretation analyzes some of the central enigmatic features of his writing arguing that they result from the co presence of religious scepticism and the desire for a religious foundation of social life Margarete Kohlenbach focuses on the structure of self reference as an expression of Benjamin's sceptical religiosity and examines its significance in his writing on language literature and the cinema as well as history politics and modern technology The Holy Roman Empire, Reconsidered Jason Philip Coy,Benjamin Marschke,David Warren Sabean,2010-10-01 The Holy Roman Empire has often been anachronistically assumed to have been defunct long before it was actually dissolved at the beginning of the nineteenth century The authors of this volume reconsider the significance of the Empire in the sixteenth seventeenth and eighteenth centuries Their research reveals the continual importance of the Empire as a stage and audience for symbolic performance and communication as a well utilized problem solving and conflict resolving supra governmental institution and as an imagined political religious and cultural world for contemporaries This volume by leading scholars offers a dramatic reappraisal of politics religion and culture and also represents a major revision of the history of the Holy Roman Empire in the early modern period Hometown Hamburg Frank Domurad,2019-03-22 Through the study of Hamburg handicraft in the late Weimar Republic Hometown Hamburg addresses three intertwined problems in modern German history the role of institutionalized social political and cultural continuity versus contingency in the course of modern German development the impact of conflicting notions of social order on the survival of liberal democracy and the role of corporate politics in the rise of National Socialism It provides a theoretical and analytical framework for reintroducing the notion of historical continuity in the study of modern German history The book also supports the recent challenges to the notion of Hamburg as a liberal economic and political bastion a London on the Elbe in a nation of conservative and authoritarian governmental regimes Hometown Hamburg demonstrates why liberal and socialist Hamburg also remained a hotbed of corporate radicalism and underscores the fact that National Socialism was the only political party that presented a coherent vision of a corporate good society thereby making it attractive to hometown voters across the entire social spectrum in Hamburg and in Germany What Is a Nation? Timothy Baycroft,Mark Hewitson,2006-06-29 This volume analyses and compares different forms of nationalism across a range of European countries and regions during the long nineteenth century It aims to put detailed studies of nationalist politics and thought which have proliferated over the last ten years or so into a wider European context By means of such contextualization together with new and systematic comparisons What is a Nation Europe 1789 1914 reassesses the arguments put forward in the principal works on nationalism as a whole many of which pre date the proliferation of case studies in the 1990s and which as a consequence make only inadequate reference to the national histories of European states The study reconsiders whether the distinction between civic and ethnic identities and politics in

Europe has been overstated and whether it needs to be replaced altogether by a new set of concepts or types What is a Nation explores the relationship between this and other typologies relating them to complex processes of industrialization increasing state intervention secularization democratization and urbanization Debates about citizenship political economy liberal institutions socialism empire changes in the states system Darwinism high and popular culture Romanticism and Christianity all affected and were affected by discussion of nationhood and nationalist politics The volume investigates the significance of such controversies and institutional changes for the history of modern nationalism as it was defined in diverse European countries and regions during the long nineteenth century By placing particular nineteenth century nationalist movements and nation building in a broader comparative context prominent historians of particular European states give an original and authoritative reassessment designed to appeal to students and academic readers alike of one of the most contentious topics of the modern period

Friedrich Nietzsche and the Politics of History Christian Emden, 2008-05-08 This book explores Friedrich Nietzsche's understanding of modern political culture and his position in the history of modern political thought Surveying Nietzsche's entire intellectual career from his years as a student in Bonn and Leipzig during the 1860s to his genealogical project of the 1880s Christian Emden contributes to a historically informed discussion of Nietzsche's response to the political predicaments of modernity and sheds new light on the intellectual and political culture in Germany as the ideals of the Enlightenment gave way to the demands of the modern nation state This is a distinguished addition to the series of Ideas in Context and a major reassessment of a philosopher and aphorist whose stature among post enlightenment European thinkers is now almost unrivalled

'Trash,' Censorship, and National Identity in Early Twentieth-Century Germany Kara L. Ritzheimer, 2016-06-24 Convinced that sexual immorality and unstable gender norms were endangering national recovery after World War One German lawmakers drafted a constitution in 1919 legalizing the censorship of movies and pulp fiction and prioritizing social rights over individual rights These provisions enabled legislations to adopt two national censorship laws intended to regulate the movie industry and retail trade in pulp fiction Both laws had their ideological origins in grass roots anti trash campaigns inspired by early encounters with commercial mass culture and Germany's federalist structure Before the war activists characterized censorship as a form of youth protection Afterwards they described it as a form of social welfare Local activists and authorities enforcing the decisions of federal censors made censorship familiar and respectable even as these laws became a lightning rod for criticism of the young republic Nazi leaders subsequently refashioned anti trash rhetoric to justify the stringent censorship regime they imposed on Germany

The German Polity Eric Langenbacher, David P. Conradt, 2017-02-16 This thoroughly revised and updated edition provides a comprehensive introduction to contemporary Germany one of the world's leading economic and political powers Tracing the country's transformation since World War II the authors provide an in depth guide to Germany's institutions actors and challenges

The Holy Alliance Isaac Nakhimovsky, 2024-05-28 A major new account of the post Napoleonic

Holy Alliance and the promise it held for liberals The Holy Alliance is now most familiar as a label for conspiratorial reaction In this book Isaac Nakhimovsky reveals the Enlightenment origins of this post Napoleonic initiative explaining why it was embraced at first by many contemporary liberals as the birth of a federal Europe and the dawning of a peaceful and prosperous age of global progress Examining how the Holy Alliance could figure as both an idea of progress and an emblem of reaction Nakhimovsky offers a novel vantage point on the history of federative alternatives to the nation state The result is a clearer understanding of the recurring appeal of such alternatives and the reasons why the politics of federation has also come to be associated with entrenched resistance to liberalism s emancipatory aims Nakhimovsky connects the history of the Holy Alliance with the better known transatlantic history of eighteenth century constitutionalism and nineteenth century efforts to abolish slavery and war He also shows how the Holy Alliance was integrated into a variety of liberal narratives of progress From the League of Nations to the Cold War historical analogies to the Holy Alliance continued to be drawn throughout the twentieth century and Nakhimovsky maps how some of the fundamental political problems raised by the Holy Alliance have continued to reappear in new forms under new circumstances Time will tell whether current assessments of contemporary federal systems seem less implausible to future generations than initial liberal expectations of the Holy Alliance do to us today

Christendom and European Identity Mary Anne Perkins, 2015-02-06 This book critically explores the idea of Europe since the French Revolution from the perspective of intellectual history It traces the dominant and recurring theme of Europe as Christendom in discourse concerning the relationship of religion politics and society in historiography and hermeneutics and in theories and constructions of identity and otherness It examines the evolution of a grand narrative by which European elites have sought to define European and national identity This narrative the author argues maintains the existence of common historical and intellectual roots common values culture and religion The book explores its powerful legacy in the positive creation of a sense of European unity the ways in which it has been exploited for ideological purposes and its impact on non Christian communities within Europe

Heimat, Region, and Empire

Claus-Christian W. Szejnmann, Maiken Umbach, 2016-01-18 This collection brings together international scholars pursuing cutting edge research on spatial identities under National Socialism They demonstrate that the spatial identities of the Third Reich can be approached as a history of interrelated dimensions Heimat region and Empire were constantly reconstructed through this interrelationship

The Ashgate Research Companion to Imperial Germany Matthew Jefferies, 2016-03-03

Germany s imperial era 1871 1918 continues to attract both scholars and the general public alike The American historian Roger Chickering has referred to the historiography on the Kaiserreich as an extraordinary body of historical scholarship whose quality and diversity stands comparison with that of any other episode in European history This Companion is a significant addition to this body of scholarship with the emphasis very much on the present and future Questions of continuity remain a vital and necessary line of historical enquiry and while it may have been short lived the Kaiserreich

remains central to modern German and European history The volume allows 25 experts from across the globe to write at length about the state of research in their own specialist fields offering original insights as well as historiographical reflections and rounded off with extensive suggestions for further reading The chapters are grouped into five thematic sections chosen to reflect the full range of research being undertaken on imperial German history today and together offer a comprehensive and authoritative reference resource Overall this collection will provide scholars and students with a lively take on this fascinating period of German history from the nation's unification in 1871 right up until the end of World War I

The Holy Roman Empire, 1495-1806: A European Perspective, 2012-07-25 In the early modern period the Holy Roman Empire or Reich was one of the oldest and largest European states Its importance was magnified by its location at the heart of the continent by the extensive international connections of its leading families and by the involvement of foreign rulers in its governance This book breaks new ground in its collective exploration of aspects of cross border and transnational interaction and of political and diplomatic social and cultural relations There are essays on important turning points especially 1648 and 1806 on the patterns of rulership of the emperors themselves on areas which lay on the margin of the Reich on neighbouring countries which interacted with the Empire and on visual and material culture Contributors are Wolfgang Burgdorf Olivier Chaline Heinz Duchhardt Jeroen Duindam Robert Evans Sven Externbrink Robert Frost Lothar Hebel Thomas DaCosta Kaufmann Petr Matátek Nicolette Mout Thomas Munck Grzegorz Palfi Jaroslav Pánek Adam Perkowski Friedrich Pollero Blythe Alice Raviola Peter Schröder Kim Siebenhütter Peter H Wilson and Thomas Winkelbauer

German Federalism Past Present Future Introduction

In this digital age, the convenience of accessing information at our fingertips has become a necessity. Whether its research papers, eBooks, or user manuals, PDF files have become the preferred format for sharing and reading documents. However, the cost associated with purchasing PDF files can sometimes be a barrier for many individuals and organizations. Thankfully, there are numerous websites and platforms that allow users to download free PDF files legally. In this article, we will explore some of the best platforms to download free PDFs. One of the most popular platforms to download free PDF files is Project Gutenberg. This online library offers over 60,000 free eBooks that are in the public domain. From classic literature to historical documents, Project Gutenberg provides a wide range of PDF files that can be downloaded and enjoyed on various devices. The website is user-friendly and allows users to search for specific titles or browse through different categories. Another reliable platform for downloading German Federalism Past Present Future free PDF files is Open Library. With its vast collection of over 1 million eBooks, Open Library has something for every reader. The website offers a seamless experience by providing options to borrow or download PDF files. Users simply need to create a free account to access this treasure trove of knowledge. Open Library also allows users to contribute by uploading and sharing their own PDF files, making it a collaborative platform for book enthusiasts. For those interested in academic resources, there are websites dedicated to providing free PDFs of research papers and scientific articles. One such website is Academia.edu, which allows researchers and scholars to share their work with a global audience. Users can download PDF files of research papers, theses, and dissertations covering a wide range of subjects. Academia.edu also provides a platform for discussions and networking within the academic community. When it comes to downloading German Federalism Past Present Future free PDF files of magazines, brochures, and catalogs, Issuu is a popular choice. This digital publishing platform hosts a vast collection of publications from around the world. Users can search for specific titles or explore various categories and genres. Issuu offers a seamless reading experience with its user-friendly interface and allows users to download PDF files for offline reading. Apart from dedicated platforms, search engines also play a crucial role in finding free PDF files. Google, for instance, has an advanced search feature that allows users to filter results by file type. By specifying the file type as "PDF,"

users can find websites that offer free PDF downloads on a specific topic. While downloading German Federalism Past Present Future free PDF files is convenient, it's important to note that copyright laws must be respected. Always ensure that the PDF files you download are legally available for free. Many authors and publishers voluntarily provide free PDF versions of their work, but it's essential to be cautious and verify the authenticity of the source before downloading German Federalism Past Present Future. In conclusion, the internet offers numerous platforms and websites that allow users to download free PDF files legally. Whether it's classic literature, research papers, or magazines, there is something for everyone. The platforms mentioned in this article, such as Project Gutenberg, Open Library, Academia.edu, and Issuu, provide access to a vast collection of PDF files. However, users should always be cautious and verify the legality of the source before downloading German Federalism Past Present Future any PDF files. With these platforms, the world of PDF downloads is just a click away.

FAQs About German Federalism Past Present Future Books

1. Where can I buy German Federalism Past Present Future books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
