Forces started Hungary was an agricultural county with limited heavy industrial assets but it was a solid foundation to modernise and produce infantry weapons and artillery First it based on the modernisation of the WW1 weaponry inherited from the Austro Hungarian Army Later licences were purchased and put into production During WW2 the Hungarian industry was able to supply the Army with all kinds of small arms and artillery weapons however not all were modern designs A significant number of German and captured weaponry also purchased by the Hungarians

**World War II Infantry Fire Support Tactics** Gordon L. Rottman, 2016-10-20 As infantry units advanced across Europe the only support they could rely on from day to day was that provided by the heavy weapons of their own units While thundering tanks struck fear into the hearts of their enemies it was the machine guns mortars and light cannon that proved to be most important causing the majority of casualties suffered during World War II Common principles were shared across units but the wide variety of weapons available to the different armies altered the way they were used in battle Focusing on the US British German and Soviet troops this title offers a comprehensive guide to infantry fire support tactics used through World War II Combat reports are complemented by specially commissioned artwork to show the way in which tactics varied and highlight how developments obliged opposing armies to review their own methods

The Royal Regiment of Canadian Artillery is represented by a long and distinguished line of gunners with historical ties back to the days before Canada's Confederation. The honour of defending Canada while standing steady to support operations overseas in peace and war continues to this day. In doing so it is necessary to remember that the weapons of war are an integral part of what keeps this nation safe although the examples that have been used to make it so are few and far between. The descriptions of Canadian artillery and the places of honour where they can be viewed highlights the importance of the equipment that brought our nation forward at key turning points in history when our guns were in use as tools of war at home and overseas. This guide book will show the interested reader where to find examples of the historical guns preserved in Canada and perhaps serve as a window on how Canada's military contribution to security in the world has evolved.
