God Created the Universe with the Purpose to Serve Humankind Fateh Ullah Khan, 2009 Creation Mary A. Hake, 2009 Bible study science math language arts spelling and art with 12 Character connections wisdom faith responsibility diligence honesty cooperation peaceableness kindness respect obedience thankfulness Page 1 **God Created Man in His Image and Likeness** Oried E. Graves, 2012-10-26 Everyone who reads the Bible must admit that it tells us to do things that we never have done and cannot do in our fleshly bodies One reason is that God our Creator is telling us what He wants us to be and do as created in His image and likeness Our purpose is in our image and likeness of God our Creator not like the dust of the ground or the flesh of our parents Most children dont know that they are created in the image and likeness of God and their parents have not asked God for His spirit for their children so they can be taught this vital truth The reason parents dont ask God for His spirit for their children is because they dont recognize the need for Him There are several things mankind cannot do in the flesh and they must recognize their origin in the image and likeness of God Mankind must recognize being in the image and likeness of God to first love God with all their being and love his neighbors as himself second to obey God and his parents as required in Gods word third to trust God with all his heart fourth to worship God in spirit and in truth and fifth to glorify God in his body and spirit which are God The devil does not want mankind to know that he is created in the image and likeness of God because man will always defeat Satan and fulfill God s will **God's Created Speech** J. R. T. M. Peters, 1976 **God and the History of the Universe** Jarvis Streeter, 2016-03-22 The popular belief that a scientific understanding of reality is incompatible with a Christian one is simply wrong Some Christian understandings of reality do conflict with some scientific understandings But a thoroughly rational Christian understanding of the origin and history of the universe will be informed by the best scientific theories and the facts founded on them This book weaves a narrative of the origin and history of the universe from the perspective of contemporary science with a Christian understanding of God and of God s role in the origin and history of the universe At the center of this integrated narrative is

venomous creatures and poisonous chemicals is usually asked by irreligious skeptics to challenge God's authority design and goodness. It is also asked by those of faith either out of innocent ignorance or curiosity. Life per se is a balance of life forms co-existing because they were created by God by means of obvious intelligent design. The authors show the vast majority of bacteria, viruses, and insects are beneficial. The reason some pathogens are harmful is discussed in some detail. Furthermore, the role of toxic chemicals which are beneficial and even essential to human and animal life at low to moderate concentrations is also covered. The authors' conclusions are well documented by several hundred peer-reviewed scholarly articles and books. If you have ever wondered about why in God's creation there are parasites and pathogens, ticks and toxins, maladies, and mosquitoes, then you owe it to yourself to consider the scholarly explanations that set the record straight from the professional perspective of Bergman and Hoff. If you are looking for sound scientific answers to the question "Why did God create life forms that have harmful side effects to other organisms?" this is the book to read.

In the Beginning ... God Created Henry DuBose, 2014-08-03 This book on the first chapters of Genesis is not concerning the literal creation of the universe. There is more than an ample supply of commentaries on how God created the earth and the heavens. Genesis is the book of beginnings. The first chapter of Genesis is about the mystical creation of the Body of Christ. In what way was Jesus the Beginning of the creation of God? Enjoy the study.
