**God's Light Bulb** Muzella Hayes Ph.D, 2019-10-22

Earthly man does not always understand the revelations of the Word it is therefore sometimes necessary to use metaphors or parables as Jesus did when teaching the Jews about the kingdom of God In the same vein this dissertation uses the metaphor of a light bulb that can emanate light when plugged into an electrical source to the light that shines from God Going further with this metaphor the light bulb of God takes its energy from the Lord himself as it shines in the lives of everyone who believes in God Light is used to show the way as roads airport runways and stations are lit to facilitate easier traveling to humans Light as humans know it was only possible after electricity was discovered Caldwell stated that in New York by the late 1870 s electric light was no longer a novelty though the city didn't get its first consumer power grid until eight teen eighty two The city put electrical lights to good use as the New York Train System lit up the tracks twenty four hours a day this provided an indication of the way the train would go This was considered light that would guide the way for so many people travelling the city This train line pointing to the way people should go can be seen as a metaphor for The Way in a biblical sense There are people who do not know or believe that the first light was God's light
