

A scenic landscape featuring a calm lake in the foreground, surrounded by dense evergreen forests. In the background, majestic mountains rise under a dramatic, cloudy sky with warm, golden light filtering through. The overall mood is serene and majestic.

God created the world out of nothing,
and so long as we are nothing, He can
make something out of us.

On the Frontlines Nathan L. Street, 2019-11-20 Our culture is under attack The battlefield is covered with the ruins of landmarks and monuments of the past dedicated to morality and natural law Throughout the centuries Christians have held high the banner of Jesus Christ for the world to see The culture has been protected and defended by the Christian soldiers in America since its founding However there is a darkness spreading throughout the land Leftist doctrines are gaining footholds and acquiring the fortresses of old The hallowed bastions of learning called American public schools once venerated by the world are now languishing crippled by the leftist ideologies they have now adopted in place of classical liberal education Christianity once the standard moral center of the community has now been replaced by pluralism relativism and postmodernism The epicenter of this transformation has been and still is the public schools **On the Frontlines Exposing Satan's Tactics to Destroy a Generation** is a clarion call from a Christian educator and administrator to the church It is time we as a body of believers stand up and be counted among those who refuse to allow the religion of the left to prevail *Nicene and Post-Nicene Fathers* Philip Schaff, 2007-05-01 The Council of Nicaea in 325 AD marked the beginning of a new era in Christianity For the first time doctrines were organized into a single creed The Nicene and Post Nicene Fathers did most of their writing during and after this important event in Church history Unlike the previous era of Christian writing the Nicene and Post Nicene era is dominated by a few very important and prolific writers In Volume III of the 14 volume collected writings of the Nicenes and Post Nicenes first published between 1886 and 1889 readers will find a complete collection of Saint Augustines writings concerning Christian doctrine and ethics On the Holy Trinity is one of his most important works and Augustine spent a significant amount of time crafting it Among the ethical considerations covered in the second half of the book readers will find essays on virginity lying patience and proper care for the dead Evolution Or the Bible John R. Rice, 2000-08 On the Holy Trinity; Doctrinal Treatises; Moral Treatises Saint Augustine, **How the World Was Made** K B Napier, 2018-09-24 This book could have been ten times longer but it serves the purpose of introducing Christians to the truth concerning the beginning of the world and the universe The first three chapters of Genesis describe historical facts not myths as the Hebrew texts prove Most quotes are by scientists Evolutionists jealously guard their failed hypothesis because as they say they cannot let God get a foothold in science In itself this is an admission of anxiety that truth will one day be shown and it is NOT found in scientism which is the fake version of science There are absolutely NO proofs for evolution But how many know this Evolutionists are so scared of this truth getting out they will resort to legal restraints They are so afraid they enforce evolution only in schools by intimidation and false science and denigrate students in universities for daring to question evolutionary orthodoxy Yet genuine scientists KNOW evolution is fake They hate God That's it **The Buddha Eye** Frederick Franck, 2004-03-01 Contains essays by many of the most important twentieth century Japanese philosophers offering challenging and illumination insights into the nature of Reality as understood by the school of Zen **The Political Philosophy of Francis Bacon** Tom van Malssen, 2014-11-19 Comprehensive in its ambitions and meticulous in its approach

The Political Philosophy of Francis Bacon is a new and unique interpretation of one of early modernity's more important thinkers. Whereas recent works on Bacon tend to confine themselves either to interpreting his historical context or to considering the founder of Baconianism from the perspective of one work in particular or the history of science in general, Tom van Malssen argues through detailed and provocative interpretations of a number of Baconian writings that the unity of Bacon's thought can only be revealed if these writings are read in historical and philosophical conjunction as well as on the assumption that they are all somehow part of the whole of Bacon's political philosophy. In addition to restoring Bacon to the pantheon of great philosophers, Van Malssen demonstrates that a proper understanding of Bacon's political philosophy contributes significantly to our understanding of the nature of philanthropic science, the modern project, and ultimately ourselves.

Spreading Indra's Net D. T. Suzuki, 2025-08-26 D. T. Suzuki's 1950s lectures at Columbia University were foundational for the postwar Zen boom. Speaking softly in a bookcase-lined room, Suzuki then in his eighties introduced East Asian Buddhism to a rapt audience of the general public, scholars, and students. He offered a distinctive interpretation of Zen, weaving together his understanding of classical Buddhist texts, especially the Flower Garland Sutra, with Christian mysticism, psychology, and twentieth-century European and American philosophy. The freewheeling lectures captivated listeners drawn from the New York intelligentsia and art world, including Carolyn Brown, John Cage, Arthur Danto, Sari Dienes, Erich Fromm, Phillip Guston, Ibram Lassaw, and Dorothy Norman, and catalyzed public interest in Buddhism. *Spreading Indra's Net* presents Suzuki's 1952-1953 lectures in full, giving a vivid look at how one of the most important global Buddhist figures of the twentieth century interpreted Zen for an American audience. Drawing on archival research in Japan and the United States, editor Richard M. Jaffe provides an extensive introduction that traces Suzuki's path to Columbia, analyzes the content of the lectures, and surveys their reception. Among the most accessible works of a major figure and a record of a crucial moment in New York history, this book displays Suzuki's gifts as a teacher, scholar, writer, and thinker.

One Year of Dinner Table Devotions and Discussion Starters Nancy Guthrie, 2013-09-13 Getting the kids to turn off the TV and video games is challenge enough, let alone gathering as a family to read and discuss the Bible. *One Year of Dinner Table Devotions and Discussion Starters* helps families start where they are already gathered together on a daily basis around the dinner table. As the meal comes to a close, family members can take turns turning to the dinner table devotion for that day, designed to be done together as a family in 10 to 15 minutes. The result is a meaningful daily discussion in which every family member can participate, drawing the whole family closer to God and each other.
