God Man Salt Water And The Eastern Shore:

God, Man, Salt Water, and the Eastern Shore William I. Tawes, 1967 **God, Man, Salt Water and the Eastern Shore**
William I. Tawes, The Eastern Shore of Maryland Enoch Pratt Free Library, 1980 **The Oyster Question** Christine
Keiner, 2010 In *The Oyster Question* Christine Keiner applies perspectives of environmental agricultural political and social
history to examine the decline of Maryland's iconic Chesapeake Bay oyster industry Oystermen have held on to traditional
ways of life and some continue to use preindustrial methods tonging oysters by hand from small boats Others use more
intensive tools and thus it is commonly believed that a lack of regulation enabled oystermen to exploit the bay to the point of
ruin But Keiner offers an opposing view in which state officials scientists and oystermen created a regulated commons that
sustained tidewater communities for decades Not until the 1980s did a confluence of natural and unnatural disasters weaken
the bay's resilience enough to endanger the oyster resource Keiner examines conflicts that pitted scientists in favor of
privatization against watermen who used their power in the statehouse to stave off the forces of rural change Her study
breaks new ground regarding the evolution of environmental politics at the state rather than the federal level *The Oyster
Question* concludes with the impassioned ongoing debate over introducing nonnative oysters to the Chesapeake Bay and how
that proposal might affect the struggling watermen and their identity as the last hunter gatherers of the industrialized world
