God Polarity A Synthesis Of Philosophi:

God and Polarity Wilmon Henry Sheldon,2003-01-01 **Rethinking Philosophy with Borges, Zambrano, Paz, and Plato** Hugo Moreno,2022-02-16 In *Rethinking Philosophy with Borges Zambrano Paz and Plato* Hugo Moreno argues that in *Ficciones Claros del bosque* and *El mono gram tico* Jorge Luis Borges Mar a Zambrano and Octavio Paz practice a literary way of philosophizing a way of seeking and communicating knowledge of reality that takes up analogical procedures They deploy analogy as an indispensable and irreplaceable heuristic tool and literary device to convey their insight and perplexities on the nature of existence Borges ironic approach involves reading and writing philosophy as fiction Zambrano s poetic reason is a mode of writing and thinking based on an imaginative sort of recollection that is ultimately a visionary s poetizing technique Paz s poetic thinking relies on analogy to correlate and harmonize an array of worldviews ideas and discourses In the appendix Moreno shows that Plato s Republic is a forerunner of this way of philosophizing in literature Moreno suggests that in the Republic Plato reconciles philosophy and poetry and creates a rational prose poetry that fuses argumentation and narration dialectical and analogical reasoning and abstract concepts and poetic images **Creativity in American Philosophy** Charles Hartshorne,1985-06-30 The reader will find that I combine hearty enthusiasm for the philosophical traditions of my country with sharp partial disagreement with nearly all their representatives My effort throughout my career has been to think about philosophical that is essentially a priori or metaphysical issues using the history of ideas as a primary resource This is the second of two volumes dealing with the history of philosophy especially of metaphysics The first *Insights and Oversights of Great Thinkers* discusses some thirty European philosophers from Democritus to Wittgenstein and Merleau Ponty In both volumes I try to learn and teach truth about reality by arguing in a fashion with those who in the past have sought such truth Charles Hartshorne In a remarkable tour de force Charles Hartshorne presents a lively and illuminating study of what major American philosophers have said about creativity With a special talent for perceiving and elegantly expressing the essence of a position Dr Hartshorne details his reactions to friend and foe demonstrating that philosophy at its best is dialogue Noting that metaphysics is a major theme in the American philosophical tradition he states that nowhere has the topic been more persistently and searchingly investigated than in this country **The Nature of the Philosophical Enterprise** Edward G. Ballard,Richard L. Barber,James K. Feibleman,Harold N. Lee,Paul Guerrant Morrison,Andrew J. Reck,Louise Nisbet Roberts,Robert C. Whittemore,2012-12-06 *Columbia Companion to Twentieth-century Philosophies* Constantin V. Boundas,2007 *Columbia Companion to Twentieth Century Philosophies* is the first guide to cover both the Anglo American analytic and European Continental traditions The first section features Nicholas Rescher writing on neoidealism Josephine Donovan commenting on feminist philosophy Tyler Burge discussing the philosophy of language and mind and Robert Hanna reflecting on Kant s legacy The second section presents Jean Grondin on hermeneutics Leonard Lawlor on phenomenology Charles Scott on postmodernism and Babette Babich on

the philosophy of science The volume also covers logical positivism naturalism pragmatism aesthetics existentialism Marxism the Frankfurt School structuralism psychoanalysis political philosophy ethics and the philosophy of religion The final section addresses concurrent trends in Indian Chinese Japanese and African philosophy and a comprehensive introduction by Constantin V Boundas not only provides a thorough outline of the problems and issues of the analytic and Continental traditions but also boldly challenges the conviction that the two approaches must be rivals Offering an unusually panoramic perspective the Columbia Companion to Twentieth Century Philosophies enables readers to encounter foundational materials on their own terms

Personal Identity, the Self, and Ethics F. Santos, Santiago Sia, 2007-08-16 Going beyond the controversy surrounding personhood in non philosophical contexts this book defends the need for a credible philosophical conception of the person Engaging with John Locke Derek Parfit and P F Strawson the authors develop an original philosophical anthropology based on the work of Charles Hartshorne and A N Whitehead

Recent Perspectives in American Philosophy Yervant Hovhannes Krikorian, 1973 The essays in this book analyze significant perspectives of the recent past in American philosophy they represent some of the major trends of this period Alfred North Whitehead is included with the recent American philosophers since his major philosophic ideas were fully developed in this country There has been no attempt to deal comprehensively with this period Several philosophers of equal importance who also deserve attention C I Lewis A O Lovejoy W F Montague R B Perry F J E Woodbridge and others have not been discussed Most of the essays were published at various times in various journals Though all of the perspectives are presented with sympathetic understanding they are also critically evaluated

2 AMERICAN PHILOSOPHY OF THE RECENT PAST But even more than individual philosophers and schools of philosophy the larger background of contemporary American life has nourished the empirical spirit Science as the most pervasive climate of our intellectual and practical activity has enhanced the empirical attitude The great development in this country of business and technological industry has encouraged the pragmatic empirical outlook Empiricism however is an ambiguous term and its different meanings have different philosophic consequences For some it means that only concrete personal experience can be accepted as reality for others it means the succession of sense impressions The more recent usage the one that has been dominant in American philosophy identifies empiricism with objectively and socially verifiable pronouncements that is with experimentalism or confirmation through demonstrable evidence

Dictionary of Modern American Philosophers John R. Shook, 2005-01-01 The Dictionary of Modern American Philosophers includes both academic and non academic philosophers and a large number of female and minority thinkers whose work has been neglected It includes those intellectuals involved in the development of psychology pedagogy sociology anthropology education theology political science and several other fields before these disciplines came to be considered distinct from philosophy in the late nineteenth century Each entry contains a short biography of the writer an exposition and analysis of his or her doctrines and ideas a bibliography of writings and suggestions for further reading While

all the major post Civil War philosophers are present the most valuable feature of this dictionary is its coverage of a huge range of less well known writers including hundreds of presently obscure thinkers In many cases the Dictionary of Modern American Philosophers offers the first scholarly treatment of the life and work of certain writers This book will be an indispensable reference work for scholars working on almost any aspect of modern American thought

The Modern Schoolman, 1966 *The History of Philosophy* Johannes Hirschberger, 1958 Comparative Religious And Philosophies : Anthropomorphism And Divinity Mahinder N. Gulati, 2008 *International Philosophical Quarterly*, 1967 *Tulane Studies in Philosophy*, 1958 *Philosophy East & West*, 1956 **The Philosopher's Index** Richard H. Lineback, 1978 **Author - Title Catalog** University of California, Berkeley. Library, 1963 *LIVING ISSUES IN PHILOSOPHY* HAROLD H. TITUS, 1964 *Living Issues in Philosophy* Harold Hopper Titus, 1959 *The Making of American Liberal Theology* Gary J. Dorrien, 2006-01-01 In this first of three volumes Dorrien identifies the indigenous roots of American liberal theology and demonstrates a wider longer running tradition than has been thought The tradition took shape in the nineteenth century motivated by a desire to map a modernist third way between orthodoxy and rationalistic deism atheism It is defined by its openness to modern intellectual inquiry its commitment to the authority of individual reason and experience its conception of Christianity as an ethical way of life and its commitment to make Christianity credible and socially relevant to modern people Dorrien takes a narrative approach and provides a biographical reading of important religious thinkers of the time including William E Channing Ralph Waldo Emerson Horace Bushnell Henry Ward Beecher Elizabeth Cady Stanton and Charles Briggs Dorrien notes that although liberal theology moved into elite academic institutions its conceptual foundations were laid in the pulpit rather than the classroom Introduction to Comparative Philosophy P. T. Raju, 2007-01-01 This classic comparative study of the world's three great philosophies Western including Jewish Indian and Chinese surveys the three philosophical traditions from their beginnings to the present time However in examining the traditions Professor Raju has been less occupied with separate doctrines and individual thinkers than with essential characteristics and general trends He has analyzed and compared these features within the traditions and explored the parallels and divergences among them For the general interested reader the interchange among the philosophies will be especially valuable For the students of religion and of philosophy the work is a standard guide and reference work
