

God does not exist. He is being-  
itself beyond essence and  
existence. Therefore to argue  
that God exists is to deny him.

## **God Does Not Exist:**

*God: The Failed Hypothesis* Victor J. Stenger, 2010-08-05 Throughout history arguments for and against the existence of God have been largely confined to philosophy and theology while science has sat on the sidelines Despite the fact that science has revolutionized every aspect of human life and greatly clarified our understanding of the world somehow the notion has arisen that it has nothing to say about the possibility of a supreme being which much of humanity worships as the source of all reality This book contends that if God exists some evidence for this existence should be detectable by scientific means especially considering the central role that God is alleged to play in the operation of the universe and the lives of humans Treating the traditional God concept as conventionally presented in the Judeo Christian and Islamic traditions like any other scientific hypothesis physicist Stenger examines all of the claims made for God's existence He considers the latest Intelligent Design arguments as evidence of God's influence in biology He looks at human behavior for evidence of immaterial souls and the possible effects of prayer He discusses the findings of physics and astronomy in weighing the suggestions that the universe is the work of a creator and that humans are God's special creation After evaluating all the scientific evidence Stenger concludes that beyond a reasonable doubt the universe and life appear exactly as we might expect if there were no God This paperback edition of the New York Times bestselling hardcover edition contains a new foreword by Christopher Hitchens and a postscript by the author in which he responds to reviewers criticisms of the original edition

**The Christians' God Does Not Exist! Yes, He/She Does!** Proncell F. Johnson Jr., 2018-02-22 The Christians God Does Not Exist Yes He She Does By Proncell F Johnson Jr Carl Sagan popular astronomer cosmologist astrophysicist and astrobiologist wrote *We are Star Stuff* which has taken its destiny into its own hands The scientific community basically agrees that everything is made of atoms Proncell F Johnson Jr says that they are all wrong Johnson shows that the material universe along with us mortals is one big illusion for all things are actually incorporeal spiritual the manifestation of the spiritual being we Christians have come to call God He says that the realization of and utilization of this fact will enable one to duplicate for himself the so called miracles of Christ Jesus in degrees thus proving the existence of this God and the non existence of matter Johnson's proof is based upon a law of physics that make it all but impossible to refute as the below

reviews confirm **Do we need more proofs that god does not exist?** Giambattista Caltabiano, This book tries to answer the question of god s existence using knowledge that is readily available *God Is All There Is and the Devil Does Not Exist* Muzire Mbuende,2016-06-03 *God Is All There Is and The Devil Does Not Exist* seeks to bring about awareness and remind us of Who We Really Are for God is All There Is and there is No thing else There is only One Consciousness that has individuated It self and thusly there is no Devil in absolute form as is taught and projected by many All That Is existed in a state of being without the means to express Its being in a state of being God is No thing unto Himself Out of this conceptual knowing God All That Is longed to express explore and experience It self for what It knows It self to be And so the No Thing created Some Thing Some Form all of creation as a means or device s through which It can express explore and experience It self fully and abundantly We live in a world driven by fear scarcity competition chaos pain struggle confusion and discord It is my firm conviction that all these factors have been born and taken root because we have forgotten Who We Really Are God Is All There Is and The Devil Does Not Exist is directed to all the men and women around the globe who are entangled in shackles of fear constructed by mythical beliefs and teachings about God and the mock Devil which have been served to us for eons The message I bring seeks to liberate and unchain us from these restraints So that we can live freely and express explore and experience That Which Is within more fully and abundantly **The Non-existence of God** Nicholas Everitt,2004

Arguments for the existence of God have taken many different forms over the centuries in *The Non Existence of God* Everitt considers all the arguments and examines the role that reason and knowledge play in the debate over God s existence

[Atheism: Why God Does Not Exist](#) Dan Steel,2015-08-10 Atheism is a subject that draws a lot of controversy into today s society People are now starting to doubt the existence of God because of all the advancements in modern science and technology that explain many of life s questions With that being said there is still a lot of confusion out there about atheism and what its belief system actually is The only thing that people seem to know is that it is the disbelief in God but it actually goes much deeper than that In fact there are different types of atheists who don t all act the same way about their disbelief Some of them are open to new scientific evidence that proves them wrong while others are simply determined to not believe in God no matter what In this book you will not only learn about the general concept of atheism and its effect on the world but you will also learn about the different types of atheists as well Religious followers tend to think of atheists as devil worshippers and other nonsensical things The reality is atheists are just people who believe is something that is not supernatural or superhuman The religious community only holds their devil belief about atheists because it contradicts their own religion But what the religious community fails to realize is that there are many different religions and faiths in the world that all have their own belief system The actions a person commits in one religion will be offensive to some other religion in the world Therefore there is no way to make people of all faiths happy and satisfied There will always be some group of people out there who gets offended by what you belief and what you do So if you want to be an atheist then no one

should feel afraid to be open about it Atheism won't even take much time out of your day because there are no churches or group organizations to go to worship atheist beliefs Another reason this book was written was because atheists travel a very lonely road Sure there are some forums on the internet where you can chat with other atheists but in your regular life there is nowhere you can go to meet up with other atheists After all how many atheists do you know in your regular life You could probably count the number on one hand Fortunately anyone can celebrate being an atheist by simply waking up in the morning and asking themselves what is real to them and what is not If they are still convinced that God is not real then they will be satisfied with that belief and go about their day This book on Atheism is not meant to ridicule or put down anyone else's faith Instead it was written to actually help people of all faiths to better understand atheism and the viewpoints of atheists around the world The world is very diverse as it pertains to people's religious beliefs Many of the wars taking place around the world are formed from the basis of these beliefs Hopefully this book will show people of all religions that there is another belief system out there that does not indoctrinate or persecute anyone Contents Preface My experience with god What is atheism Types of atheism Atheist philosophies Why god is evil Morality vs religion Do you need religion to be nice Atheist criticisms of religion Proof that there is no god Religious people are less intelligent than atheists Nonsense from the bible Reasons for being an atheist Why choose atheism Atheism in the USA Conclusion      How to Prove God Does Not Exist Trevor Treharne, 2012 How to Prove god Does Not Exist is the complete guide to the nonbeliever stance The most diverse validation of atheism ever written it deconstructs every major criticism of atheism and defense of religion through logical philosophical historical cultural moral and scientific means This builds towards a more strident approach towards asserting atheism with five key justifications outlined for why god does not exist This expansive work employs the philosophy of Epicurus David Hume and Friedrich Nietzsche the science of Charles Darwin Albert Einstein and Stephen Hawking plus the logic of Bertrand Russell the psychoanalysis of Sigmund Freud and the contemporized insights of New Atheism advocates such as Christopher Hitchens and Richard Dawkins It features original concluding insights with prominent atheists such as scientists Vic Stenger and Michael Shermer plus philosophers Peter Singer and Michel Onfray There are also unprecedented views of atheism by notable believers including the 21st century's leading Christian philosopher Professor Richard Swinburne while journalist Peter Hitchens unveils why his late brother Christopher's arguments for atheism were unoriginal trivial and often ill informed The all encompassing How to Prove god Does Not Exist is the complete armory of arguments that every atheist should know      *Does God Exist? I Do-Do Not Believe (This Book is for You)* Craig J. Radford, 2023-02-09 Does science prove God's existence or provide more reasons to doubt Does God truly exist That is the age old seemingly unanswerable question But what if there was an answer What if the answer has been staring us right in the face for centuries but we've been too busy missing the forest for the trees This book invites you to take a step back and look at the broader picture It offers anecdotes observations and most importantly scientific evidence of the universal all encompassing culture

transcending purpose that connects us all In that purpose we find many paths to a knowledge that has eluded humankind for as long as we have had the ability to wonder proof that God does indeed exist We find this knowledge in the stars in the nature of time in the laws of physics in our own bodies and in equations as complex as advanced calculus and unconditional love It s just a matter of knowing where and how to look In a centuries old debate that has always placed science in an adversarial role with faith this book brings the two camps together using logic and reason to prove the existence of God For the atheist these pages eschew scriptural references in favor of evolutionary philosophical cultural and natural evidence For the believer this book enhances your faith with affirmative arguments steeped in mathematics particle physics and a host of other scientific and real world observations And for anyone who has ever looked up at the sky and wondered what might lie beyond this book provides a clear compelling life affirming answer Desire is the starting point of all achievement not a hope not a wish but a keen pulsating desire which transcends everything Napoleon Hill As a secularist and humanist who doesn t share the same conclusions I was surprised with what an enjoyable read this is This is the strongest summary to date that I ve seen for the Theist position Jeremy Runnells author of the CES Letter Written through a Euro centric philosophical and western science lens one has the opportunity to consider not only the argument for and against the belief in a God but to contemplate a middle ground where the dualities of such sit squarely within the most important part of the equation the one who asks the question This book is a worthwhile read particularly for those seeking to dive more deeply into the self Jonathan Webb Dr of Theology      **God, Time, and Eternity** W.L. Craig, 2001-09-30 In this highly original and ground breaking work the author brings together discussions in the philosophy of time and space philosophy of language phenomenology philosophy of science Special and General Relativity classical cosmology quantum mechanics and so forth with the concerns of philosophy of religion and theology in order to craft a philosophically informed and scientifically tenable doctrine of divine eternity and God s relationship to time
