Summary of Alan W. Watts's Become What You Are Everest Media,2022-06-13T22:59:00Z Please note This is a companion version not the original book Sample Book Insights 1 The Buddhist poem written several centuries ago tries to find words for an intuition that is common to almost every culture in the world It says that a man does not really begin to be alive until he has lost himself This is the universal discovery that a man does not really begin to live until he has lost his life 2 There is a vital contradiction in the idea of self renunciation and self acceptance People try to accept themselves in order to be different but they also try to surrender themselves in order to have more self respect in their own eyes 3 The idea of self renunciation is a form of what Buddhists call upaya or skillful means It is a teacher s method to awaken his student to some truth that can only be reached by a roundabout route The selfishness of the self thrives on the notion that it can command itself and its own processes 4 The state called death or self surrender is not a future condition to be acquired It is a present fact When we begin to think about this clearly we evoke very disturbing emotions which we would like to be able to control Our resistance to these emotions is as natural as the emotions themselves American Book Publishing Record ,1977-03-31 Here s quick access to more than 490 000 titles published from 1970 to 1984 arranged in Dewey sequence with sections for Adult and Juvenile Fiction Author and Title indexes are included and a Subject Guide correlates primary subjects with Dewey and LC classification numbers These cumulative records are available in three separate sets A Journey with Two Mystics Matthew J. Distefano,Michael Machuga,2017-03-28 Having a careful ear and an open heart is vital to understanding the big ideas of the Universe Two friends Distefano and Machuga put this on display here vulnerably exploring some of humanity s most robust topics what it means to be human what it means to be saved what it means to be lost and what the meaning of life is And while the authors agree on many things including the ultimate fate of humanity they do not necessarily agree on all the details of how we get there But instead of agreeing to disagree they model for their readers what conversations of this variety should look like agreement with a little pushback and even some poking fun at one another from time to time So as Distefano advises take your time and enjoy these discussions They are transparent and hopeful refreshingly liberating and are imbued with complete awe toward the goodness of the Creator and her creation **National Union Catalog** Library of Congress,1979 Includes entries for maps and atlases **National Union Catalog** ,1973 *The Hands of God* Alan W. Modern Civilization Watts maintains is in a state of chaos because its spiritual leadership has lost effective knowledge of man's true nature Neither philosophy nor religion today gives us the consciousness that at the deepest center of our being exists an eternal reality which in the West is called God Yet only from this realization come the serenity and spiritual power necessary for a stable and creative society One of the most influential of Alan Watts's early works *The Supreme Identity* examines the reality of civilization's deteriorated spiritual state and offers solutions through a rigorous theological discussion on Eastern metaphysics and the Christian religion By examining the minute details of theological issues Watts challenges readers to reassess the essences of religions that before seemed so familiar and to perceive Vedantic oneness as a meeting ground of all things good and evil In addressing how religious institutions fail to provide the wisdom or power necessary to cope with the modern condition Watts confidently seeks the truth of the human existence and the divine continuum In this eye opening account of metaphysical blindness in the West Watts accents this dense exploration of religious philosophy with wry wit that will engage inquiring minds in search of spiritual power and wisdom **The Spectrum of Consciousness** Ken Wilber,2002-01-01

Path Breaking Book Ken Wilber Successfully Integrated Various Disciplines Reconciling The Approaches Adopted By Western Psychology And Eastern Philosophies To Explore Human Consciousness Spectrum Of Consciousness Lets In Fresh Air Into Increasingly Polarised Belief Systems And Tunnelled Perceptions And Provides Excellent Reading For Anyone Interested In Exploring The Nature Of Human Consciousness And Of His Own Mind **Forgiving the Unforgivable** Master Charles Cannon,Will Wilkinson,2012-02

The perfect guide for a course correction in life Deepak Chopra that teaches us how to enjoy a deeper more meaningful relationship with the spiritual in our present troubled times Drawing on his experiences as a former priest Watts skillfully explains how the intuition of Eastern religion Zen Buddhism in particular can be incorporated into the doctrines of Western Christianity offering a timeless argument for the place of mystical religion in today's world **Quantum God** Michelle Langenberg,2013-07-10

If Quantum God were a Who God would not be the judgmental biased and sometimes malicious Old Man in the Sky many of us grew up with but rather the All where everything is possible and pulsating with potential If Quantum God were a What God might be the fabric that connects every idea every desire every personality and everything in a pulsating energetic ever Becoming Whole If Quantum God were a Where God could be the Higgs Boson God Particle upon which angels dance or an everywhere with ever burgeoning

dimensions well beyond our comprehension of the universe as we know it If Quantum God were a Why God would exist because creativity cannot be contained or restrained but seeks free flowing expression expanding in waves and ripples of idea become event Yet Quantum God may be most like a Howthe how behind everything we know and laws we can only guess at the how that lays the groundwork for miracles as commonplace occurrences and composes a theme from the frequency or vibration of joy Quantum God How Life Really Works sheds light on the misconceptions that limit us and offers insights that can free us to be the true powers we really are seemingly magical beings who create with godlike abilities When we understand the invisible workings of the universe we stop being victims of creative laws we dont understand These laws rule our lives whether we comprehend them or not What could we do if we understood them Is there anything we could not do Miracles are the way life is meant to work Quantum God tells about how we shortchange ourselves our true creative potential how our hopes and dreams fears and feelings of inadequacy create our experiences how to rise out of depression victimhood and blame to find joy and peace how to believe in ourselves and live with confidence and optimism You are now what you think you are but youre actually so much more You can become whatever you believe is possible Learn how to redefine yourself

Integrative Theology Gordon R. Lewis, Bruce A. Demarest, 2010-09-21 Integrative Theology is designed to help graduate students in a pluralistic world utilize a standard method of fruitful research Each chapter on a major doctrine 1 states a classic issue of ultimate concern 2 surveys alternative past and present answers and 3 tests those proposals by their congruence with information on the subject progressively revealed from Genesis to Revelation Then the chapter 4 formulates a doctrinal conclusion that consistently fits the many lines of biblical data 5 defends that conviction respectfully and finally 6 explores the conclusion s relevance to a person s spiritual birth growth and service to others all for the glory of God Why the title Integrative Theology In each chapter steps 2 6 integrate the disciplines of historical biblical systematic apologetic and practical theology

Pilgrimage Into God Sicco Claus, 2023-04 Pilgrimage into God A Study of John Main s Meditation Oriented Spirituality is a comprehensive investigation of the heritage of the Benedictine monk John Main 1926 1982 This founder of a worldwide movement for Christian meditation understands meditation as an intentional transcending of all mental processes Contrary to popular opinion which associates meditation uniquely with Eastern traditions Main considers meditative practice to be essential and central to Christian faith This study not only explores Main s views on practise but also looks into his theology his understanding of spiritual growth and the ideal contexts for achieving such growth It does this by critically situating Main s spiritual teaching within the Christian tradition and exploring its relation to Charles Taylor s interpretation of the modern spiritual condition This study also aims at exploring how Main s heritage may contribute to illuminating Christian spiritual life today
