## God Of Buddha:

The God of Buddha Jamshed Fozdar,1973      **The Silence of God** Raimundo Panikkar,1989      *Buddha, Marx, and God* Trevor Ling,1979-03-22      **The Book of Wisdom** Osho,2023-07-09 Religion is not a science Religion is not a science in the sense physics mathematics and chemistry are sciences But still it is a science because it is the ultimate knowing the word science means knowing And if religion is not a science what else can be It is the highest knowing it is the purest knowing Ordinary science is knowledge not knowing religion is knowing itself Ordinary science is object oriented it knows something hence it is knowledge Religion is not object oriented it has no object it knows nothing Knowing knows itself as if the mirror is reflecting itself It is utterly pure of all content Hence religion is not knowledge but knowing      The Fish in the Sea is Not Thirsty Osho,2023-03-15 The fish in the sea is not thirsty but man is Man lives in God and is absolutely unaware of it Man is born in God breathes in God and one day will dissolve in God MAN IS GOD made of the stuff called God and yet completely oblivious of the fact The fish is not thirsty in the sea but man is God is the sea God surrounds you within and without All that is is divine God is not a person God is the presence that is overflowing everywhere in all directions The radiance the beauty of existence the splendour the majestic the miraculous the mysterious the whole magic of life is God God has not to be worshipped God has to be lived And to live God you need not go anywhere you are already in him To live God you need not cultivate any character God is already the case He is your consciousness      **One-dot Theory Described, Explained, Inferred, Justified, and Applied** Peter Kien-hong Yu,2011-12-23 The ancient Chinese scholars are fond of applying the Yin and Yang diagram to correlate almost everything This book continues that tradition and uses the model to study other non dialectical theories and models The major finding qua contribution in this publication is to point out that the four diagrams are equivalent to the BaGua or BaGuaTu BG a set of eight ancient China symbolic notations gossip Another finding is that dialectical crab and frog motion remark is just the opposite of a non dialectical crab and frog motion usually deductive linear or cause and effect remark or at best they must meet half way The two major tasks of this book are to first apply the author s one dot theory which is shored up by the crab and frog motion model to convert other theories and models as well as studies and second apply his theory and model to reinvent some well known western derived theories and models and studies such as game theory The attempt is to narrow down the gap between the East and the West scholarship XueShu broadly defined making the book of interest to Eastern and Western philosophers and scholars alike      *Strange Names of God* Sangkeun Kim,2004 One of the most precarious and daunting tasks for sixteenth century European missionaries in the cross cultural mission frontiers was translating the name of God Deus into the local language When the Italian Jesuit Matteo Ricci 1552 1610 introduced the Chinese term Shangti as the semantic equivalent of Deus he made one of the most innovative cross cultural missionary translations Ricci s employment of Shangti was neither a simple rewording of a Chinese term nor the use of a loan word but was indeed a risk taking identification of the Christian God with the Confucian Most High Shangti Strange

Names of God investigates the historical progress of the semantic configuration of Shangti as the divine name of the Christian God in China by focusing on Chinese intellectuals reaction to the strangely translated Chinese name of God

**God, Science, and the Buddha** Wijeratne Weerakkody,2010-07-30 Here in this book God Science and the Buddha my genuine effort is to present the reader with some insight into the existence of life and matter within the concept of universal space time in order to understand how and why mind is declared by the Buddha as the forerunner of all

existence in eternity and infinity of the concept of space time Learning to understand the culmination of all the energies contained within the concept of space time would unify theology science and the nature in the noble name of God without division into mind based diverse theological images The rare opportunity in human form of life is too precious to be neglected and wasted within the short span of existence in this sensual realm of life In order to be comfortable with this understanding the author seeks to discuss scientific revelations in cosmology physics and physiology along with theology religions philosophy and Buddhism which explains the existence of the nature in its true form Suns of God Acharya S,2004 Unlike many modern historians Perry was a diffusionist who believed that modern civilization began in Egypt and was spread via ships to Indonesia the Pacific Islands and even to North America Perry traces the origin of megalithic culture starting in Egypt and then across the Pacific Searching for gold obsidian and pearls they travelled across the Pacific to the American Southwest and Mexico The Revolution OSHO,2023-09-20 Osho brings alive the words of the Indian mystic Kabir with this fiery treatise on the only real revolution that matters enlightenment With love insight and compassion Osho delves deeply into the essential difference between a rebel and a revolutionary The sham of the orthodox conventional and traditional approaches to religion and spirituality are exposed by Osho s penetrating clarity In Osho s hands Kabir s approach will give you a glimpse into what kind of religiousness is possible in the future Buddhism Gurmukh Ram Madan,1999 Some of the articles in this book were presented at a seminar on Buddhism and its various manifestations held in Lucknow in March 1991

**The Debunker** Ted Lenny,2018-05-09 Many of the modern theories are viewed as facts when in actuality they are just educated guesses from times more technologically challenged People assume that the theories are a given and should be accepted by all Its considered politically unacceptable to disagree with their assumptions when in actuality its unhealthy to always agree and become close minded In the book The Debunker I use logic to disprove several popular theories Sometimes do to modern day prejudices my views may seem controversial at fi rst but with careful consideration you will see that it is really the politically correct stance that is controversial The Theories of Einstein and Darwin along with ones in the fi elds of geology psychology anthropology and theology along with several other theories many that are not considered controversial and are considered to be facts are debunked with basic logic I have also included witty phrases and sensible advise on how to live a good life Its just a little book that I wrote to help people live more heavenly enlightened lives I hope you enjoy it and prosper from it too *The Rise of the Kingdom of Heaven, Volume 1 (Paperback)* Gerhard Alm,2008-10-25 Living in a Hippie Community in the Australian rainforest I in January 1992 started to write about my visions and spiritual experiences I described ten places in our heads as homes of the human spirit There are many publicly known people who are involved in the move of the Earth to a higher dimension in 2013 More than 200 000 people live on Earth and at the same time on a parallel world which is a home for immortal people The evangelist John spoke with a Cross of Light I believe that a new Cross of Light will appear on Earth soon In July 1979 I met the devil and his wife on the inner German border I name some people

who have been the devil of previous Earth like planets in older universes Alex Collier wrote in 95 that since my 40th birthday on 3 23 1994 vibrations leave all black holes of our local universe changing its nature lifting all planets into higher dimensions I believe these frequencies come from the Immortals living on Earth now including me     The Maturing of Monotheism Garth Hallett,2019-01-24 Tracing a dialectical path The Maturing of Monotheism emphasises the plausibility of Jewish Christian Muslim and kindred forms of monotheism and responds to anti theistic challenges of our day These include materialism determinism the denial of objective value the pervasiveness of evil and predictions of human individual and collective extinction The book reviews traditional metaphysical ways of arguing for monotheism but employs a cumulative more experiential approach While agnosticism affects humanity s most basic beliefs Garth Hallett demonstrates that there remains ample room for rational theistic faith Of keen interest to students and researchers alike The Maturing of Monotheism offers new insights and approaches in this steadily advancing field     *Major Faith Traditions of India* V. S. Lalrinawma,2007     *Book of Jesus* The Jesus Books,2014-12 Almost the whole of the New Testament is devoted not to the portrayal of the significant and inspiring religious life of Jesus but to a discussion of Paul s religious experience and to a portrayal of his personal religious convictions The New Testament is a superb Christian document but it is only meagerly Jesusonian One of the most important things in human living is to find out what Jesus believed to discover his ideals

**Jesusion Bible** The Jesus Books,2017-01-02 Almost the whole of the New Testament is devoted not to the portrayal of the significant and inspiring religious life of Jesus but to a discussion of Paul s religious experience and to a portrayal of his personal religious convictions The only notable exceptions to this statement aside from certain parts of Matthew Mark and Luke are the Book of Hebrews and the Epistle of James Even Peter in his writing only once reverted to the personal religious life of his Master The New Testament is a superb Christian document but it is only meagerly Jesusonian     **The Search for Peace** Osho,2019-06-15 Peace talks peace agreements peace movements Why is it although there is a deep longing for peace in the world every day wars are being waged And why although so many people long for peace in their lives does peace seem to be an impossibility even on a personal level In this series of talks Osho explains how peace can only become a reality when rigid religious practices and political ideologies are dropped and an awakened consciousness takes their place The key to finding peace is transformation both outer and inner one person at a time and in this book Osho indicates how through meditation this can be achieved Finding this truth touching the shadow of this truth is known as finding peace Whoever finds this truth becomes totally calm at last finds tranquility Find truth and like a shadow peace will follow The shadow of truth is peace Osho Finding this truth touching the shadow of this truth is known as finding peace Whoever finds this truth becomes totally calm at last finds tranquility Find truth and like a shadow peace will follow The shadow of truth is peace Osho
