BOOK JACKET **God and Evolution: Creativity In Action** Jock Abra, 2015-01-20 Atheism this book argues is unbelievable The universe's wonders couldn't have come about by chance Natural selection alone doesn't produce evolution Therefore since evolution resembles the creative process especially in using trial and error God's creative activity is responsible and human creators reveal much about him However that process is goal directed so evolution must be as well But the goal a Picasso or Darwin pursues is vague They don't know exactly where they're going and make mistakes and so therefore must God Thus Abra rejects the perfect God assumed by many religions and Intelligent Design Why bring back God To restore meaning and purpose to existence and faith's many benefits To better explain how the universe scientific laws and life itself came about and living things attractive but useless properties Other discussions clarify both creativity and the creative God Is there one kind of creativity or many A sex difference Are creators neurotic The Publishers Weekly, 1972 **Catalog of Copyright**
