Secularisation in the Christian World Callum G. Brown,Michael Francis Snape,2010 Secularisation in the Christian World brings together leading scholars in the social history of religion and the sociology of religion to explore what we know about the decline of organised Christianity in Britain Europe the United States Canada and Australia With contributors from eight countries the volume also brings together many nations for the first consolidated international consideration of recent themes in de Christianisation

[The Joy of Secularism](#) George Levine,2021-05-11 The case for a thoughtful secularism from some of today s most distinguished scientists philosophers and writers Can secularism offer us moral aesthetic and spiritual satisfaction Or does the secular view simply affirm a dog eat dog universe At a time when the issues of religion evolution atheism fundamentalism Darwin and science fill headlines and invoke controversy The Joy of Secularism provides a balanced and thoughtful approach for understanding an enlightened sympathetic and relevant secularism for our lives today Bringing together distinguished historians philosophers scientists and writers this book shows that secularism is not a mere denial of religion Rather this positive and necessary condition presents a vision of a natural and difficult world without miracles or supernatural interventions that is far richer and more satisfying than the religious one beyond From various perspectives philosophy evolutionary biology primate study Darwinian thinking poetry and even bird watching the essays in this collection examine the wealth of possibilities that secularism offers for achieving a condition of fullness Factoring in historical contexts and ethical and emotional challenges the contributors

make an honest and heartfelt yet rigorous case for the secular view by focusing attention on aspects of ordinary life normally associated with religion such as the desire for meaning justice spirituality and wonder Demonstrating that a world of secular enchantment is a place worth living in *The Joy of Secularism* takes a new and liberating look at a valuable and complex subject The contributors are William Connolly Paolo Costa Frans de Waal Philip Kitcher George Levine Adam Phillips Robert Richards Bruce Robbins Rebecca Stott Charles Taylor and David Sloan Wilson

A Short History of Secularism Graeme Smith, 2007-11-28 What does it mean to call Western society secular What is secularism And how should we understand the concept of secularism in international relations particularly the clash between radical Islam and the West The Latin term from which the word secular is derived saeculum means generation or age and came to mean that which belongs to this life to the here and now in this world It is widely used as a shorthand for the ideology which shapes contemporary society without reference to the divine However according to Graeme Smith secularism represents a great deal more He offers a radical reappraisal of the notion of secularism and its history beginning with the Greeks and proceeding to modernity and the contemporary period The assumption that the West is becoming increasingly secular is often unquestioned By contrast Dr Smith discerns a different kind of society one informed by a historical legacy which makes sense only when it is appreciated that it is religious Secularism was born of Christianity Daringly and very originally Smith argues that it is impossible to understand the idea of the secular without appreciating that at root it is Christian *A Short History of Secularism* will fundamentally reshape discussions of western culture religion and politics It will have strong appeal to students of religion political philosophy and the history of ideas

Periodizing Secularization Clive D. Field, 2019 Moving beyond the now somewhat tired debates about secularization as paradigm theory or master narrative *Periodizing Secularization* focuses upon the empirical evidence for secularization viewed in its descriptive sense as the waning social influence of religion in Britain Particular emphasis is attached to the two key performance indicators of religious allegiance and churchgoing each subsuming several sub indicators between 1880 and 1945 including the first substantive account of secularization during the fin de siecle A wide range of primary sources is deployed many of them relatively or entirely unknown and with due regard to their methodological and interpretative challenges On the back of them a cross cutting statistical measure of active church adherence is devised which clearly shows how secularization has been a reality and a gradual not revolutionary process The most likely causes of secularization were an incremental demise of a Sabbatarian culture coupled with the associated emergence of new leisure opportunities and transport links and of religious socialization in the church at home and in the school The analysis is also extended backwards to include a summary of developments during the eighteenth and early nineteenth centuries and laterally to incorporate a preliminary evaluation of a six dimensional model of diffusive religion demonstrating that these alternative performance indicators have hitherto failed to prove that secularization has not

occurred The book is designed as a prequel to the author s previous volumes on the chronology of British secularization Britain s Last Religious Revival 2015 and Secularization in the Long 1960s 2017 Together they offer a holistic picture of religious transformation in Britain during the key secularizing century of 1880 1980

Church History, Volume Two: From Pre-Reformation to the Present Day John D. Woodbridge, Frank A. James III, 2013-08-08 Church History Volume Two chronicles the events the triumphs and the struggles of the Christian movement from the years leading up to the Reformation through the next five centuries to the present day Looking closely at the integral link between the history of the world and that of the church Church History paints a portrait of God s people within the context of the times cultures and developments that both influenced and were influenced by the church FEATURES Maps charts and illustrations spanning the time from the thirteenth century to today Explanations of all the major denominational movements traditions and schisms during and after the Reformation Overviews of the Christian movement in Africa eastern Europe Asia and Latin America to cover the scope of the ecumenical environment of the twenty first century Insights into the role and influence of politics culture and societal norms and technology on the Western church Unbiased details on the major theological controversies and issues of each period AUTHORS PERSPECTIVE Authors John D Woodbridge and Frank A James III wrote this history of the church from the perspective that such a history is the story of the greatest movement and community the world has known as imperfect as it still is It s a human story of a divinely called people who want to live by a divine revelation It s a story of how they succeeded and how they failed and of how they are still trying to live out their calling From the Reformation theologians in Europe to the revivalists apologists and Christian thinkers all over the world the historical figures detailed are people who have struggled with the meaning of the greatest event in history the coming of the Son of God and with their role in that event and in the lives of God s people

Philosophy of Religion for a New Century Jeremiah Hackett, Jerald Wallulis, 2004-04-30 Philosophy of Religion for a New Century represents the work of nineteen scholars presented at a conference in honor of Eugene T Long at the University of South Carolina April 5 6 2002 This volume is a good example of philosophy in dialogue there is both respect and genuine disagreement First an account of our present situation in the Philosophy of Religion is given leading to a discussion of the very idea of a Christian Philosophy and the coherence of the traditional concept of God The implications of science and a concern for the environment in our concepts of God are carefully examined A discussion follows on the possibility of speech about God and silence about God Since much of modern European philosophy is concerned with the Death of God theme the positions of Nietzsche and some of his twentieth century interpreters are presented There are presentations on Feminist Approaches to Philosophy of Religion and Comparative Religion is examined in relation to cultures and the demands of rationality The volume concludes with a critical dialogue on the relation of Religious Discourse to the Public Sphere Developing global awareness has led to significant change in the Philosophy of Religion One dimensional approaches have given way to honest dialogue The traditional boundaries between

the secular and the religious have shifted and new approaches to traditional problems are required This volume presents examples of these new approaches [History, Metaphors, Fables](#) Hans Blumenberg, 2020-06-15 *History Metaphors and Fables* collects the central writings by Hans Blumenberg and covers topics such as on the philosophy of language metaphor theory non conceptuality aesthetics politics and literary studies This landmark volume demonstrates Blumenberg s intellectual breadth and gives an overview of his thematic and stylistic range over four decades Blumenberg s early philosophy of technology becomes tangible as does his critique of linguistic perfectibility and conceptual thought his theory of history as successive concepts of reality his anthropology or his studies of literature *History Metaphors Fables* allows readers to discover a master thinker whose role in the German intellectual post war scene can hardly be overestimated

The Diversity of History John Elliott, H G Koenigsberger, 2016-04-14 Each of the essays in this volume originally published in 1970 touches upon a historical theme which Herbert Butterfield illuminated It covers a wide range of topics from music and religion in modern European history to the scientific revolution of the 17th century *The Secularization of History* Larry E. Shiner, 1966 **Popular Religion and Liberation** Michael R. Candelaria, 1990-01-01 El tema del libro es la ambivalencia de la religiosidad popular para la teología de la liberación y para la liberación misma Enfoca el asunto en dos posiciones de opuesta apreciación de la religiosidad popular la de Juan Carlos Scannone y la de Jua **Christianity in the Twentieth Century** Brian Stanley, 2018 This book charts the transformation of one of the world s great religions during an age marked by world wars genocide nationalism decolonization and powerful ideological currents many of them hostile to Christianity Amazon com **Christian Faith** Hendrikus Berkhof, 1991 In today s secular world the Christian faith is viewed as only one aspect of what could be called religious life Acknowledging this Hendrikus Berkhof begins this thought provoking study with a sketch of religion and faith in general before narrowing it down to a discussion of the specific place of Christian faith in all of reality [The Routledge History Handbook of Central and Eastern Europe in the Twentieth Century](#) Włodzimierz Borodziej, Ferenc Laczó, Joachim von Puttkamer, 2020-08-02 *Intellectual Horizons* offers a pioneering transnational and comparative treatment of key thematic areas in the intellectual and cultural history of Central and Eastern Europe in the twentieth century For most of the twentieth century Central and Eastern European ideas and cultures constituted an integral part of wider European trends However the intellectual and cultural history of this diverse region has rarely been incorporated sufficiently into nominally comprehensive histories of Europe This volume redresses this underrepresentation and provides a more balanced perspective on the recent past of the continent through original critical overviews of themes ranging from the social and conceptual history of intellectuals and histories of political thought and historiography to literary visual and religious cultures to perceptions and representations of the region in the twentieth century While structured thematically individual contributions are organized chronologically They emphasize where relevant generational experiences agendas and accomplishments while taking into account the sharp ruptures that characterize the

period The third in a four volume set on Central and Eastern Europe in the twentieth century it is the go to resource for understanding the intellectual and cultural history of this dynamic region *God's Century: Resurgent Religion and Global Politics* Monica Duffy Toft, Daniel Philpott, Timothy Samuel Shah, 2011-03-14 A fresh and illuminating perspective on the surge in religion's political influence across the globe Is religion a force for good or evil in world politics How much influence does it have Despite predictions of its decline religion has resurged in political influence across the globe helped by the very forces that were supposed to bury it democracy globalization and technology And despite recent claims that religion is exclusively irrational and violent its political influence is in fact diverse sometimes promoting civil war and terrorism but at other times fostering democracy reconciliation and peace Looking across the globe the authors explain what generates these radically divergent behaviors In a time when the public discussion of religion is overheated these dynamic young scholars use deeply original analysis and sharp case studies to show us both how and why religion's influence on global politics is surging Finally they offer concrete suggestions on how to both confront the challenges and take advantage of the opportunities posed by globally resurgent religion
