God Time And Knowledge:

God, Time, and Knowledge William Hasker, 1989 In *God Time and Knowledge* William Hasker explores the major issues concerning God's knowledge of the future in relation to time and human freedom divine foreknowledge middle knowledge and divine timelessness Although he focuses on discussions that have taken place within analytic philosophy in the last thirty years Hasker also places the issues within the context of the history of philosophical and theological reflection on these matters Proceeding from a libertarian standpoint Hasker begins by providing a series of arguments against the possibility of middle knowledge He next considers and rejects all of the major methods by which the compatibility of foreknowledge and freedom have been defended the contention that facts about God's past beliefs are soft or relational facts about the past the claim that we have counterfactual power over the past and the belief that we have the power to bring about or even cause past events Hasker then carefully examines the notion of God as timelessly eternal and finds it provisionally intelligible nevertheless he charges that the doctrine of divine timelessness is inadequately motivated apart from the Augustinian Neoplatonic metaphysics that was its historical source He concludes by arguing for a view according to which the future is open and divine providence involves risk taking Lucidly and engagingly written *God Time and Knowledge* is a significant contribution to the contemporary debate over freedom and foreknowledge It will generate discussion and controversy among philosophers of religion metaphysicians and theologians

God, Mind and Knowledge Dr Andrew Moore, 2014-05-28 The themes of *God Mind and Knowledge* are central to the philosophy of religion but they are now being taken up by professional philosophers who have not previously contributed to the field This book is a collection of original essays by eminent and rising philosophers and it explores the boundaries between philosophy of religion philosophy of mind metaphysics and epistemology

Our Knowledge of God K.J. Clark, 2012-12-06 Natural theology is the project of articulating defending and CntlClzmg arguments for the existence and nature of God without the aid of special revelation Philosophical theology which employs the rational methods of natural theology is not restricted to premises that are discernible through observation and reason it may rightly employ premises that are knowable through special revelation While the project of natural theology may be construed as an attempt to demonstrate God's existence one cannot ignore the importance of using reason or experience to understand determine or assess attributes One will want to know at the conclusion of a proof in natural God's theology if one has proved the existence of God and not merely the prim urn mobilum source of moral obligation or a committee of finite designers while God may be the prime mover and designer of the cosmos none of these attributes alone is sufficient for making a claim to divinity It is therefore difficult to distinguish sharply the project of natural theology from philosophi cal theology The project of classical natural theology has been the attempt to prove God's existence and nature with arguments that employ premises that all rational creatures are obliged to accept

God, Mind and Knowledge Andrew Moore, 2016-04-15 The themes of *God Mind and Knowledge* are central to the philosophy of religion but they are now being

taken up by professional philosophers who have not previously contributed to the field This book is a collection of original essays by eminent and rising philosophers and it explores the boundaries between philosophy of religion philosophy of mind metaphysics and epistemology Its introduction will make it accessible to newcomers to the field especially those approaching it from theology Many of the book s topics lie at the focal point of debates instigated in part by the so called New Atheists in contemporary culture about whether it is rational to have religious beliefs and the role these beliefs can or should play in the life of individuals and of society *Prayer, Middle Knowledge, and Divine-Human Interaction* Kyle D. DiRoberts, 2018-07-27 Christians generally believe that in prayer they are free in their act to petition God Christians also believe that they pray to a God that is sovereign and omniscient Kyle DiRoberts maintains that explanation as to how one affirms these two truths is dependent upon one s account of divine providence which determines how motivated the person is to offer petitionary prayer in the divine human relationship The theories of providence and their understanding of petitionary prayer discussed in this book include compatibilism hard determinism open theism and middle knowledge Each of the theories of divine providence discussed in this book share a desire to construct a view concerning petitionary prayer that would propel the Christian toward God in relationship and then lead the body of Christ to pray without ceasing DiRoberts argues that middle knowledge is the preferred theory of providence as it relates to petitionary prayer because for middle knowledge God s sovereignty includes both his omniscience and libertarian human freedom *Knowledge of the Self-Revealing God in the Thought of Thomas Forsyth Torrance* John Douglas Morrison, 2005-02-07 This work examines Thomas Forsyth Torrance s concern for the modern re entrenchment of dualism as it has negatively affected the Christian faith and the realist knowledge of God in Christ Additionally an analysis is made of Torrance s program to faithfully restore theological thinking theological science and true objectivity out of the Christocentric Trinitarian self disclosure of God via the modern return to critical realist epistemology in the physical sciences e g Einstein Polanyi The study concludes with a critical examination of the adequacy and completeness of Torrance s endeavor the problem of residual dualism in the light of his own theological and redemptive concerns **Marsilius of Inghen** M. j. f. m. Hoenen, 1993 Extensive and detailed study of the development of medieval theories of divine knowledge discussing both metaphysical logical and ethical aspects Covers all the important theories from the period 1250 1400 including maiores as well as minores and issues in a discussion of Marsilius of Inghen d 1396 whose work was a milestone in medieval thought *Philosophy of Meaning, Knowledge and Value in the 20th Century* John V. Canfield, 2016-03-31 The twentieth century brought enormous change to subjects such as language metaphysics ethics and epistemology This volume covers the major developments in these areas and more *Philosophy of Meaning, Knowledge and Value in the Twentieth Century* John Canfield, 2012-10-12 Volume 10 of the Routledge History of Philosophy presents a historical survey of the central topics in twentieth century Anglo American philosophy It chronicles what has been termed the linguistic turn in analytic philosophy and traces the influence the study of language has had on the main problems of

philosophy Each chapter contains an extensive bibliography of the major writings in the field All the essays present their large and complex topics in a clear and well organised way At the end the reader finds a helpful Chronology of the major political scientific and philosophical events in the Twentieth Century and an extensive Glossary of technical terms

Freedom, Necessity, and the Knowledge of God Paul D. Molnar,2021-12-30 Paul D Molnar discusses issues related to the concepts of freedom and necessity in trinitarian doctrine He considers the implications of non conceptual knowledge of God by comparing the approaches of Karl Rahner and T F Torrance He also reconsiders T F Torrance s new natural theology and illustrates why Christology must be central when discussing liberation theology Further he explores Catholic and Protestant relations by comparing the views of Elizabeth Johnson Walter Kasper and Karl Barth as well as relations among Christians Jews and Muslims by considering whether it is appropriate to claim that all three religions should be understood to be united under the concept of monotheism Finally he probes the controversial issues of how to name God in a way that underscores the full equality of women and men and how to understand universalism by placing Torrance and David Bentley Hart into conversation on that subject

Knowledge, Ideology, Reproduction Giacomo Clemente,2025-05-22 Knowledge Ideology Reproduction is the first book length examination of the theses developed by Louis Althusser and his collaborators on the processes of class based educational formation and the function of schools Drawing largely on unpublished writings that have been overlooked by scholars of both Althusser and critical pedagogy this study reveals that for Althusser and the groupe Spinoza educational formation and the position of knowledge are central decisive issues in understanding the real forces driving the mechanisms of social reproduction This perspective enables a critical interrogation of knowledge transmission and opens up new possibilities for transformative educational practices
