Godovoi Otchet 2004

Catriona Kelly

Godovoi Otchet 2004:

The Russian State and Russian Energy Companies, 1992-2018 Ingerid M. Opdahl, 2020-06-09 The Russian State and Russian Energy Companies analyses the development of relations between the state and five major energy companies and how this shaped Russia's foreign policy in the post Soviet region The book argues that the development of Russia's political economy mattered for foreign policy over the quarter of a century from 1992 to 2018 Energy companies' roles in institutional development enabled them to influence foreign policy formation and they became available as tools to implement foreign policy The extent to which it happened for each company varied with their accessibility to the Russian state Institutional development increased state capacity in a way that strengthened Russia's political regime The book shows how the combined power of several companies in the gas oil electricity and nuclear energy industry was a key feature of Russian foreign policy both in bilateral relationships and in support of Russia's regional position In this way Russia's energy resources were converted to regional influence The book contributes to our understanding of Russia's political economy and its influence on foreign policy and of the formation of policy towards post Soviet states Russia Since 1980 Steven Rosefielde, Stefan Hedlund, 2009 Russia since 1980 recounts the epochal political economic and social changes that destroyed the Soviet Union ushering in a perplexing new order Two decades after Mikhail Gorbachev initiated his regime wrecking radical reforms Russia has reemerged as a superpower It has survived a hyperdepression modernized restored private property and business adopted a liberal democratic persona and asserted claims to global leadership Many in the West perceive these developments as proof of a better globalized tomorrow while others foresee a new cold war Globalizers contend that Russia is speedily democratizing marketizing and humanizing creating a regime based on the rule of law and respect for civil rights Opponents counterclaim that Russia before and during the Soviet period was similarly misrepresented and insist that Medvedev's Russia is just another variation of an authoritarian Muscovite model that has prevailed for more than five centuries The cases for both positions are explored while chronicling events since 1980 and a verdict is rendered in favor of Muscovite continuity Russia will continue challenging the West until it breaks with its cultural legacy *OECD Economic Surveys: Russian Federation 2006* OECD, 2006-12-05 This 2006 edition of OECD's periodic review of the Russian economy finds an economy enjoying robust growth but requiring strengthening of the macroeconomic framework to sustain that growth Public administration urgently needs reform and raising **Russian Commercial Law** Hiroshi Oda, 2007-09-30 This is a new and substantially expanded edition of the author's Russian Commercial Law 2001 which has become the standard resource in this area **Producing Power** Sonja D. Schmid, 2015-02-13 An examination of how the technical choices social hierarchies economic structures and political dynamics shaped the Soviet nuclear industry leading up to Chernobyl The Chernobyl disaster has been variously ascribed to human error reactor design flaws and industry mismanagement Six former Chernobyl employees were convicted of criminal negligence they defended themselves by

pointing to reactor design issues Other observers blamed the Soviet style of ideologically driven economic and industrial management In *Producing Power* Sonja Schmid draws on interviews with veterans of the Soviet nuclear industry and extensive research in Russian archives as she examines these alternate accounts Rather than pursue one definitive explanation she investigates how each of these narratives makes sense in its own way and demonstrates that each implies adherence to a particular set of ideas about high risk technologies human machine interactions organizational methods for ensuring safety and productivity and even about the legitimacy of the Soviet state She also shows how these attitudes shaped and were shaped by the Soviet nuclear industry from its very beginnings Schmid explains that Soviet experts established nuclear power as a driving force of social not just technical progress She examines the Soviet nuclear industry's dual origins in weapons and electrification programs and she traces the emergence of nuclear power experts as a professional community Schmid also fundamentally reassesses the design choices for nuclear power reactors in the shadow of the Cold War's arms race Schmid's account helps us understand how and why a complex sociotechnical system broke down Chernobyl while unique and specific to the Soviet experience can also provide valuable lessons for contemporary nuclear projects **OECD**

Economic Surveys: Russian Federation 2006 OECD,2006-12-21 This 2006 edition of OECD's periodic review of the Russian economy finds an economy enjoying robust growth but requiring strengthening of the macroeconomic framework to sustain that growth Public administration urgently needs reform and raising **Revolution, Repression, and Revival** Zvi Gitelman,Yaacov Ro'i,2007-11-06 *Revolution Repression and Revival* enhances our understanding of the Russian Jewish past by bringing together some of the latest thinking by the leading scholars from the former Soviet Union Israel and the United States The book explains the contradictions ambiguities and anomalies of the Russian Jewish story and helps us understand one of the most complex and unsettled chapters in modern Jewish history *Voices from the Shifting Russo-Japanese Border* Svetlana Paichadze,Philip A. Seaton,2015-02-20 In the nineteenth century as the Russian empire expanded eastwards and the Japanese empire expanded onto the Asian continent the Russo Japanese border became contested on and around the island of Sakhalin its Russian name or Karafuto as it is known in Japanese Then in the wake of the Second World War Russia seized control of the island and the Japanese inhabitants were deported Sakhalin's history as a border zone makes it a lynchpin of Russo Japanese relations and as such it is a rich case study for exploring the key themes of this book life in the borderlands migration repatriation historical memory multiculturalism and identity With a focus on cross border dialogue *Voices from the Shifting Russo Japanese Border* reveals the lives of the ordinary people in the border regions between Russia and Japan and how they and their communities have been affected by shifts in the Russo Japanese border over the past century and a half Examining the lives and experiences of repatriates from Karafuto Sakhalin in contemporary Hokkaido and their contribution to the multicultural society of Japan's northernmost island the chapters cover the border shifts in Karafuto Sakhalin up until 1945 the immediate aftermath the Second World War the commemorative practices and memories of those in both Japan and

Eastern Russia and finally postwar lives by drawing extensively on interviews with people in the communities affected most by the shifting border This interdisciplinary book will be of huge interest to students and scholars across a broad range of subjects including Russo Japanese relations Northeast Asian history border studies migration studies and the Second World War

Market as a Weapon Lionel S. Lewis,Anton Oleinik,2017-09-08 Power is all encompassing in Russia and mediates most interactions among people including everyday decisions Even the recent administrative reforms in the country which began at the end of the 1990s have tried to reshape the government institutions and modernize the country through the use of power Changes were initiated and implemented by people vested with power Power convention and trust can all support coordination However in the Russian institutional context power tends not only to supplement the alternative coordination mechanisms but also to substitute them Power can be used to solve problems related to social action by merging two or several centers of decision making into one The actor vested with power decides exactly how coordination and adjustment can be achieved This path breaking volume shows how power turns into a unique coordination mechanism and what are consequences of such transformation for everyday life and businesses Market as a Weapon focuses on issues of power and domination using the configuration of power relationships in Russia as a critical case but goes far beyond a narrowly defined scope of country specific studies Particular emphasis is put on domination by virtue of a constellation interests in the market since this is a relatively underexplored yet broadly used technique for imposing will in all countries that heavily rely on interventionist policies Instead of being a liberating force the market becomes an additional instrument facilitating the continuous reproduction of power which explains the title of the book Both qualitative and quantitative data including more than one hundred in depth interviews with experts state servants and businesspeople in Russia as well as statistics are used throughout the text of this major book

Russian and CIS Gas Markets and Their Impact on Europe Simon Pirani,2009 This book provides an overview of the gas industry and markets in the CIS This region s strategic importance as one of the largest gas producers has largely been ignored with the exception of Russia The book is comprised of 10 country chapters covering production decision making and regulation domestic market reform and trade issues

The Impact of International Migration Lira Sagynbekova,2016-04-27 This book comprises the historical overview of migration processes in Kyrgyzstan contemporary migration trends in international migration and various social economic and political impacts of migration It presents the findings of longstanding in depth comprehensive and empirical research Insights are maximized by applying the multi sited strategy of analyzing both the migrant s place of origin and that of destination The primary goal of the book is to contribute to a better understanding of the meanings and the impacts of contemporary international migration processes in Kyrgyzstan and their relevance for local livelihoods

Turkism in Eurasia Galina M. Yemelianova,2025-06-26 Turkism as an idea which emphasizes the Turkic ethnic component in national identity is widely associated with Turks and Turkey However many millions of Turkic peoples with distinctive histories cultures social and political traditions live outside Turkey

This book discusses the origins and ethno cultural and political evolution of Tatars Bashkirs Azerbaijanis Uzbeks Kazakhs and other Turkic peoples of post Soviet Turkic Eurasia examining the views of their national leaders and their attitudes towards Anatolian Turks and Turkey It addresses the geopolitical implications of the increased role of Turkic and Muslim states in the international system and argues that from the 2000s Turkism became integrated into the national discourses of the new Turkic states and polities while at the international level it facilitated rather than shaped Turkey's cooperation with these states as well as inter state relations within the Turkic world Based on both primary and secondary sources in Russian Turkish English and French the book uses semi structured interviews with relevant policy makers academics and proponents of Turkism ethnographic observation archival documents and contemporary political analysis from Turkic Eurasia and Turkey to provide the first history based integrated study of the cultural ideological and political role of Turkism in Eurasia

Russia and the Moslem World ,2004 **Russian Environmental Politics** Ellie Martus,2017-07-06 Protecting the environment is a key issue for Russia with its vast wilderness areas and its economy's reliance on extractive industries which have the potential to cause massive pollution This book explores how policymaking works in Russia focusing on the important field of environmental policy It argues that contrary to the prevailing view that the presidency dominates the policy process with Putin making all major decisions or at least being the arbiter between conflicting parties policy is in fact made a range of competing interests including the bureaucracy and influential industry and industrial association lobbyists with relatively little intervention from Putin The book shows how although Russia does not have a strong civil society environmentalist views are represented through the institutionalized bureaucracy The book concludes that policy decision making in Russia is quite dispersed and not overcentralized The Sons of Scripture Mikhail Kizilov,2015-07-24 Drawing on the variety of archival sources in the host of European and Oriental languages the book focuses on the history ethnography and convoluted ethnic identity of the Polish Lithuanian Karaites The vanishing community of the Karaites a non Talmudic Turkic speaking Jewish minority that had been living in Eastern Europe since the late Middle Ages developed a unique ethnographic culture and religious tradition The book offers the first comprehensive study of the dramatic history of the Polish Lithuanian Karaite community in the twentieth century Especially important is the analysis of the dejudaization or Turkicization of the community that saved the Karaites from horrors of the Holocaust **Russian-Ottoman Borderlands** Lucien J. Frary,Mara Kozelsky,2014-08-12 During the nineteenth century as violence population dislocations and rebellions unfolded in the borderlands between the Russian and Ottoman Empires European and Russian diplomats debated the Eastern Question or What should be done about the Ottoman Empire Russian Ottoman Borderlands brings together an international group of scholars to show that the Eastern Question was not just one but many questions that varied tremendously from one historical actor and moment to the next The Eastern Question or from the Ottoman perspective the Western Question became the predominant subject of international affairs until the end of the First World War Its legacy continues to resonate in the

Balkans the Black Sea region and the Caucasus today The contributors address ethnicity religion popular attitudes violence dislocation and mass migration economic rivalry and great power diplomacy Through a variety of fresh approaches they examine the consequences of the Eastern Question in the lives of those peoples it most affected the millions living in the Russian and Ottoman Empires and the borderlands in between

Reforming the State Without Changing the Model of Power? Anton Oleinik, 2013-10-18 This book places administrative reform in post socialist countries in a broad context of power and domination This new perspective clarifies the reasons why reforms went awry in Russia and some other post Soviet countries whereas they produced positive outcomes in the Baltic States and most East European countries The contributors analyse the idea that administrative reform cannot produce sustainable changes in the organization of the state apparatus as long as it does not touch the underpinning model of power and domination Using an interdisciplinary and comparative approach the essays combine elements of philosophy sociology political science and economics including a wealth of primary and secondary data surveys in depth interviews with state representatives and participant observation The book focuses on Russia and analyses recent developments in this country by the way of comparison with the experience of carrying out administrative reform in Ukraine Bulgaria Poland Germany and North America This book was published as a special issue of the Journal of Communist Studies and Transition Politics

Reforming the Russian Industrial Workplace Elena Shulzhenko, 2017-04-21 Based on extensive original research this book explores how far the Soviet pattern of industrial workplace organisation characterised by a high level of management discretion authoritarian control and the use of punitive methods on the shop floor has been replaced by internationally established practices with a greater emphasis on a lean organisation and employee involvement in quality improvement The book explores how the market reforms of the 1990s raised companies attention to product quality but did not lead to a change in the management methods which only began with the increased internationalisation of the Russian economy in the 2000s The book includes a rich in depth study of multinational and domestic companies and argues that a move from the Soviet pattern of workplace organisation to new practices is only likely to occur in companies with strong ties to international partners who provide support for and audit the implementation and upholding of international management standards The research shows that local companies not exposed to such international collaboration continue with the old methods

Moscow under Construction Robert Argenbright, 2016-07-26 *Moscow under Construction* explores the growth of place based opposition to destructive redevelopment practices in Moscow and the consequent changes in city s governance regime The groups of citizens discussed in this study have struggled to defend homes neighborhoods heritage buildings and historic districts and in the process they ve built up civil society and advanced democratization Heritage preservationists and other aggrieved Muscovites have organized themselves into initiative groups and social associations to protect specific places in the city and to influence the planning process and these place defenders have become more confident and capable as citizens Their

activities also have caused Moscow's city government to shift along the political spectrum away from highly authoritarian and opaque habits of ruling toward a more open and collaborative governance regime

Socialist Churches Catriona Kelly, 2016-11-01 In Russia legislation on the separation of church and state in early 1918 marginalized religious faith and raised pressing questions about what was to be done with church buildings While associated with suspect beliefs they were also regarded as structures with potential practical uses and some were considered works of art This engaging study draws on religious anthropology sociology cultural studies and history to explore the fate of these socialist churches showing how attitudes and practices related to them were shaped both by laws on the preservation of monuments and anti religious measures Advocates of preservation while sincere in their desire to save the buildings were indifferent if not hostile to their religious purpose Believers on the other hand regarded preservation laws as irritants except when they provided leverage for use of the buildings by church communities The situation was eased by the growing rapprochement of the Orthodox Church and Soviet state organizations after 1943 but not fully resolved until the Soviet Union fell apart Based on abundant archival documentation Catriona Kelly's powerful narrative portrays the human tragedies and compromises but also the remarkable achievements of those who fought to preserve these important buildings over the course of seven decades of state atheism Socialist Churches will appeal to specialists students and general readers interested in church history the history of architecture and Russian art history and cultural studies

Unveiling the Magic of Words: A Overview of "**Godovoi Otchet 2004**"

In a world defined by information and interconnectivity, the enchanting power of words has acquired unparalleled significance. Their power to kindle emotions, provoke contemplation, and ignite transformative change is actually awe-inspiring. Enter the realm of "**Godovoi Otchet 2004**," a mesmerizing literary masterpiece penned by way of a distinguished author, guiding readers on a profound journey to unravel the secrets and potential hidden within every word. In this critique, we shall delve in to the book is central themes, examine its distinctive writing style, and assess its profound effect on the souls of its readers.
