

Some claim that they are avenging a history of oppression, torture ... the kinds of crimes every conquering country carries out as a matter of course in the race for power. But I can tell you as a history teacher, that most people don't care about history unless they can relate what happened in the past to what is happening now. If people suffered in the past, but their descendants are content with their lives now, the descendants aren't likely to go out and kill in the name of history. But if people are suffering the same harsh treatment now that their parents and grandparents and great-grandparents went through, then you have generations of discontentment coming to the boil.

'Yes, I think what it comes down to in the end is a lack of contentment.'

The students looked at one another with expressions of puzzlement and scorn. 'Lack of contentment' didn't make someone into a terrorist. Chamus remembered the day at the hangar, when his class died, and when he returned later to see the bodies being pulled out. Hate coursed through him every time he thought about it and he wanted to hurt the people who had carried it out, except the only one he knew about was dead. He would wake up in the morning and the whispering would come to him in the last quiet moments of sleep, reminding him of what had happened, and he would find his hands clawing the sheets and his teeth grinding with the hate. That was the kind of thing that made a person into a killer. Lack of contentment was going around with a bad haircut.

'I think you're wrong, Miss,' he pronounced, in a flat tone. Mrs Archaw regarded him for a moment, and then gazed

around her as if admiring the architecture.

'Has anybody heard of a man named ...'  
Nobody answered; the name meant which was a sure sign they were in for a

'I think you'll recognise him when I tell you ...'  
Olam Waymath was born in Bartokhrin, in a region called Gefinkan,' the teacher began, and the class listened resignedly in expectation of another list of dates and places. But Mrs Archaw did not start reciting historical data. 'Olam was the son of a fisherman, and grew up in a relatively peaceful village. He was much the same as any of you, without the benefits of your exceptional education, of course.

That was until he turned thirteen. On his thirteenth birthday, the local councillor came to the village and told the people there that their river was to be blessed with the protection of a hydroelectric dam, which was to be built upstream. Olam and all the other boys watched over the months that followed as the rich men of Bartokhrin brought in Altiman engineers and construction teams to put up this huge dam that formed a new horizon above their village. The rich men were buying up plots of land along the valley, and Olam's father sold some land near his house for an excellent price and got ready to welcome some wealthy neighbours.

But the dam did not turn out to be the blessing the councillors had claimed. Pylons were erected on the newly bought plots of land, making the area look like a massive power station. The construction ruined a large section of the valley and when the dam became operational, the river flowing through the village dried up. Fish eggs didn't hatch

As Freder delves deeper into the city's secrets he encounters Maria a compassionate woman advocating for workers rights The plot thickens as the city faces the impending threat of rebellion from the oppressed laborers Joh Fredersen driven by his desire to maintain control enlists the help of the brilliant scientist Rotwang to develop a humanoid robot with Maria's likeness The robot is intended to manipulate and control the workers escalating tensions and leading to a dramatic climax that explores themes of class struggle technology and the consequences of unchecked industrialization Metropolis was first serialized in the German magazine Das illustrierte Blatt in 1926 and published as a book by August Scherl Verlag that same year Von Harbau also wrote the screenplay for the groundbreaking film of the same name directed by her husband Fritz Lang Both the novel and the film were developed simultaneously with the screenplay closely following the narrative of the novel This book is part of the Standard Ebooks project which produces free public domain ebooks *Popular Culture and Critical Pedagogy* Toby Daspit, John A. Weaver, 2012-09-10 This collection attempts to incorporate cultural studies into the understanding of schooling not simply addressing how students read themselves as members of a distinct culture but how they along with teachers and administrators read popular texts in general The purpose of this book is to suggest some alternative directions critical pedagogy can take in its critique of popular culture by inviting multiple reading of popular texts into its analysis of schooling and seeing many forms of popular culture as critical pedagogical texts **Metropolis** (□□□) Thea von Harbou, 2011-07-15 This remarkable novel the basis for the world's greatest science fiction movie has long been a rare but ardently sought after collector's item It is an unforgettable vision of the 21st century and the awe inspiring city of the future Metropolis has been compared to such classics as George Orwell's 1984 H G Wells's The Time Machine Samuel Butler's Erewhon and Karel Capek's R U R Science fiction writer and editor Forrest J Ackerman called it a work of genius noting The language of the novel is sometimes as thesauric as Shiel as kaliedoscopic as Merritt as bone spare as Bradbury as poetic as Poe as macabre as Machen You will have an experience in reading that will last you all the rest of your life Self and Substance in Leibniz Marc Elliott Bobro, 2006-01-16 There is a close connection in Gottfried Wilhelm Leibniz's mind between the notions of self and substance R W Meyer in his classic 1948 text Leibnitz and the Seventeenth Century Revolution writes that the monad is nothing but a 1 repr sentation in both senses of the French word of Leibniz's personality in metaphysical symbols and there was under contemporary circumstances no need 2 to introduce this concept apart from propounding it It is not clear what Meyer means here except that from the consideration of his own self in some way Leibniz comes to his concept of simple substance or monad Herbert Carr in an even earlier work notes that Leibniz held that the only real unities in nature are formal not material and for a long time Leibniz was content to call the formal unities or substantial forms he was speaking about souls This had the advantage that it referred at once to the fact of experience which supplies the very 3 type of a substantial form the self or ego Finally Nicholas Rescher in his usual forthright manner states that in all of Leibniz's expositions of his philosophy 4 the human person is the paradigm of a substance **God's Child** Terrence
