Gods Debris A Thought Experiment:

God's Debris Scott Adams, 2004-09 In God's Debris best selling author and creator of Dilbert Scott Adams fashioned a thought provoking exploration of life's great mysteries everything from quantum physics and God to psychic phenomena and dating that quickly captured the attention and imaginations of readers everywhere The intriguing story of a deliveryman who meets the world's smartest person and learns the secret of reality is threaded with a variety of hypnosis techniques that Adams a certified hypnotist used to induce a feeling of euphoric enlightenment in readers to mirror the main character's feelings as he discovers the true nature of the universe Launched to coincide with the hardcover publication of its sequel *The Religion War* see opposite page this first paperback edition of God's Debris will soon make the leap to a broader audience As Adams designed it the book will make your brain spin around inside your skull and drive readers toward *The Religion War* as they seek to confirm or deny the dizzying impressions and chaotic memories of reading God's Debris The book provides one of the most compelling visions of reality ever experienced on the printed page Along the way readers will enjoy the Thought Experiment Trying to discover what's wrong with the sage's explanation of reality This is a book as Adams says to be shared and savored with smart friends *Thought Experiments, Science, and Theology* Yiftach Fehige, 2023-10-30 Did Adam have a navel Did Adam and Eve have sex Is God merely a fictional character like Superman Without thought experiments like these the field of science and religion would be severely impoverished Thought experiments are exercises of the imagination Like in many other disciplines the imagination has not received the attention it deserves in theology This book argues that the imagination must be taken seriously as an engine for progress It offers a theology of the imagination that is consistent with and goes beyond existing discussions about pluralism at the intersection of science and religion *The God Game* Mike Hockney, 2013-09-30 What is the answer to everything Pythagoras provided a glimpse of the answer 2 500 years ago when he declared All things are numbers Mathematics is literally everything Unlike science mathematics offers certainty and absolute knowledge Mathematics unifies science religion and metaphysics and is the true Grand Unified Theory of Everything No experiment can ever contradict a mathematical truth Mathematics is the ONLY answer to everything Mathematics is the ONLY subject inherently about eternal Platonic truth The God Series starting with *The God Game* reveals the astonishing power of ontological mathematics to account for everything Isn't it time to convert to the world's only rational religion Illuminism the Pythagorean religion of mathematics that infallibly explains all things and guarantees everyone a soul that's not only eternal and indestructible but also has the capacity to make each of us a true God Isn't it time to become Illuminated The God Series is what God ought to have delivered to humanity rather than the Bible Knowledge rather than faith Truth rather than fantasy *The Blackwell Guide to Theology and Popular Culture* Kelton Cobb, 2008-04-15 The Blackwell Guide to Theology of Popular Culture outlines various general theories of popular culture identifies theologians and theological concepts that are conducive to analyzing popular culture and explores religious themes that are asserting themselves

through popular movies novels music television shows and advertising A timely examination and contribution to the rapidly expanding field of theology and popular culture Locates the theological analysis of culture alongside political sociological economic aesthetic and psychological analyses Surveys the work of religious and theological scholars who have turned their attention to popular culture Considers classic Christian thinkers who have wrestled with culture such as St Paul Tertullian Augustine Schleiermacher Tillich and Ricoeur Proposes a method for analysing culture to discern its religious content Identifies religious themes in popular culture Uses illustrations ranging from the fiction of Nick Hornby to *Six Feet Under* An appendix provides lists of films novels television series consumer products architectural works cultural events and corporate icons that lend themselves to theological analysis

Pandeism Knud Mapson, 2017-01-27 Pandeism An Anthology presents the work of sixteen authors new and old examining the implications of the revolutionary evolutionary theological theory of Pandeism the proposition that the Creator of our Universe created by becoming our Universe and that this proposition can be demonstrated through the exercise of logic and reason These authors present a wide range of views originating from their varied experiences from professional theologians and religious educators to lay philosophers with PhDs in the hard sciences Collectively these authors have assembled the most extensive examination of Pandeism put to print in over a hundred years

Of Literature and Knowledge Peter Swirski, 2007-02-12 *Of Literature and Knowledge* looks like an important advance in this new and very important subject literature is about to become even more interesting Edward O Wilson Pellegrino University Professor Harvard University Framed by the theory of evolution this colourful and engaging volume presents a new understanding of the mechanisms by which we transfer information from narrative make believe to real life Ranging across game theory and philosophy of science as well as poetics and aesthetics Peter Swirski explains how literary fictions perform as a systematic tool of enquiry driven by thought experiments Crucially he argues for a continuum between the cognitive tools employed by scientists philosophers and scholars or writers of fiction The result is a provocative study of our talent and propensity for creating imaginary worlds different from the world we know yet invaluable to our understanding of it *Of Literature and Knowledge* is a noteworthy challenge to contemporary critical theory arguing that by bridging the gap between literature and science we might not only reinvigorate literary studies but above all further our understanding of literature

Fieldnotes from a Depth Psychological Exploration of Evil Robin L. Gordon,2019-03-01 In *Fieldnotes from a Depth Psychological Exploration of Evil* Robin L Gordon presents an accessible account of an attempt to define and understand the nature of evil Gordon takes on the role of guide to this confusing land tying together threads of Jungian theory philosophy etymology neuroscience and history as we are led on a personal journey of discovery Gordon begins by analysing what a twelfth century meeting between Chinggis Khan and Taoist priest Ch ang Ch un can tell us about the presence of opposing traits and the nature of evil in human beings We learn what depth psychology has said about evil and the shadow part of our psyches and examine examples of human behaviour throughout history to understand the etymological philosophical and historical understandings and definitions of evil Gordon s own relationship with her work and the feelings that arise when researching the psychological framework of Nazi doctors genocide in Rwanda Bosnia and Syria and the functionality of serial killers are interrogated We then return to Chinggis Khan s and Ch ang Ch un s relationship attempting to build a real and practical definition of evil and assessing their dialogues as a metaphor for Jung s views of the transcendent function *Fieldnotes from a Depth Psychological Exploration of Evil* will be essential reading for academics and students of Jungian and post Jungian studies sociology criminology and philosophy It will also be a key resource for Jungian analysts and psychotherapists interested in the study of evil and its impact on society and the psyche as well as anyone investigating and redefining their own meanings of evil past and present

Evolution and the New Gnosis Don Cruse,2002-06-17 Exposing a long hidden logical conflict that has hindered the quest for a deeper understanding in science religion and philosophy The unique ideas in this book shatter what are often unconscious or deeply hidden but nevertheless widely held assumptions Whatever your world view or discipline examine it anew through the window of these 22 hard hitting essays with titles such as *Evolution as a Property of Mind* *Christianity and the Old Gnosis* *Isaac Newton Harry Potter What is Imagination* combined with critical insights and commentaries on the works of Charles Darwin Noam Chomsky Michael Polanyi Arthur Koestler Theodore Roszak Owen Barfield Rudolf Steiner and many others Also investigate the social future as viewed in the light of an ongoing evolution of human consciousness

Creative Thinkering Michael Michalko,2011-08-31 Why isn t everyone creative Why doesn t education foster more ingenuity Why is expertise often the enemy of innovation Bestselling creativity expert Michael Michalko shows that in every eld of endeavor from business and science to government the arts and even day to day life natural creativity is limited by the prejudices of logic and the structures of accepted categories and concepts Through step by step exercises illustrated strategies and inspiring real world examples he shows readers how to liberate their thinking and literally expand their imaginations by learning to synthesize dissimilar subjects think paradoxically and enlist the help of the subconscious mind He also reveals the attitudes and approaches that diverse geniuses share and anyone can emulate Fascinating and fun Michalko s strategies facilitate the kind of lightbulb moment thinking that changes lives for the

better **Hidden Fields** Charles Ford, 2008-02 Poetry can give the readers a chance to make better choices in their lives Hidden Fields prepares them to examine their self religion and philosophy by the spirit of poetry Charles Ford wants to share his many life experiences with readers and invite them into his home by his every thought word and action So they may know him and discover something special and unique about themselves He wrote poems for people throughout history rather than to them Poems offer for people even for readers who know little poetry All are unique alive or dead In Hidden Fields Charles brings to readers his experiences and his individuations which he expresses wonderfully by his ever deepening imagination and understanding that he has about poetry These poems about self embodied metaphysics of his faith hope and love Charles writes poems about religion and philosophy they are also in the vein of metaphysics These poems reveal his profound spiritual growth that he achieved in his life He experienced a religious conversion at three He shares this experience and many others with readers so they may know he writes poems from his heart by inspiration and love he has for God and man

In the Same Breath Jean Latz Griffin, 2006 Writers across spiritualities from 600 BCE to the 21st Century explore the mystery of the unity between Spirit and Creation in 52 weekly readings Each epoch is richly illustrated Selections include readings from the Tao Te Ching the Bible European and Sufi mystics earth based religions today s music and culture and the new synthesis of physics and spirituality A dozen striking images encourage deep reflection The True Believers Robert Milton, 2005-10-18 In this timely but controversial book Dr Robert Milton offers new scientifically oriented explanations for the events of 9 11 and 7 7 The attacks on the World Trade Center the Pentagon and London mass transit says Dr Milton represents an unsavory historical summit a kind of new age related to genetic neurological and psychological motivation The Golden Age of Terrorism is upon us The why he answers with compelling succinctness is because we learn to believe before we learn to think While he gives a realistic nod of acknowledgment to economic inequities abject poverty and exploitation of Middle East oil as contributors to Terrorism he pursues to a logical scientific end what he calls a still more basic cause the motivations of belief While Western Imperialism the US support of Israel and the war in Iraq capture the headlines as primary causes of todays Terrorism Dr Milton demystifies the myriad of alleged causes put forth by politicians and the media even agreeing with those who say the emergence of Islamic extremism as a result of Quran teaching is preposterous True Says Dr Milton it is not the words of any scripture Christian or Muslim that cause the problems of Terrorism It is belief in interpretations of them To instill a particular religious belief as the prime motivating directive is the goal of terrorist training How such beliefs obtain and remain within our nervous systems is the subject matter of this book The tendency to believe this book asserts is hardwired into the human nervous system The content is not Perhaps we have no more choice about believing than we do about the color of our eyes The cultural psychological and neurological basis of belief is explored and exposed revealing one enlightening twist after another Even the chapter on intelligent design which Dr Milton as a scientist advocates reveals still another point of view Terrorisms Golden Age is timely update on the sciences related to malevolent

human motivation Your Flexxible Brain Neuro-Nastics Building a Bigger Better Brain Robert Milton,2011-06-21 New genetic and brain scan research has created a revolution in modern scientific thinking regarding the human brain Recent neuroscience has clearly demonstrated that repetitive rehab or what Dr Milton calls neuro nastics can and does change specific physical brain structures enlarging or shrinking As a shortcut Dr Milton calls such changes brain nodules He goes on to ask and answer the question Do nodulized individuals or more precisely their morphed physically modified brains have the capacity to abruptly change thought direction without considerable amounts of new content loading e g neuro nastics think Rehab If peers parents and mentors have repeated the same information spiel or indoctrination repetitive rote learning reoccurring experiences hours of mumbled prayers drumming dancing juggling and a myriad of other habitual behaviors and or thoughts Dr Milton says It is unlikely that such individuals would be able to entertain or even see another point of view because physical tissue changes in his or her physical brain tissue may not allow it Free will Positive thinking Womens rights Religious Science Evolution Immigration and Addiction are just a few of the timely topics covered in your FLEXXIBLE brain

Atheism Explained David Ramsay Steele,2008-02-01 Atheism Explained explores the claims made both for and against the existence of God On the pro side that the wonders of the world can only be explained by an intelligent creator that the universe had to start somewhere telepathy out of body experiences and other paranormal phenomena demonstrate the existence of a spirit world and that those who experience God directly provide evidence as real as any physical finding After disputing these arguments through calm careful criticism author David Ramsay Steele presents the reasons why God cannot exist monstrous appalling evils the impossibility of omniscience and the senseless concept that God is a thinking mind without a brain He also explores controversial topics such as Intelligent Design the power of prayer religion without God and whether a belief in God makes people happier and healthier Steele s rational easy to understand prose helps readers form their own conclusions about this eternally thorny topic **Thinking on Purpose** Neil Paton,2014-12-22 Is there a secret that some people seem to know about and use in creating lives that are overflowing with success and abundance The answer is absolutely yes Over the years its been proven beyond a shadow of a doubt and yet surprisingly it remains a mystery to most to this very day We are the consequences of our environment and although we may not recognize the underlying forces influencing our lives each day the fact is we are all playing a role for the most part unconsciously in creating the outcomes that make up our lives Our thoughts create our feelings our feelings create our actions and our actions create our outcomes Indirectly yet surely we alone are ultimately responsible for the outcomes of our lives through the thoughts we have chosen to emotionally connect with The silver lining is that we also all have within our reach the ability to directly create new outcomes for a future that is limited only by the thoughts we choose from this day forward Only through learning how to consistently make constructive thought choices can we begin to make a difference in our lives and in the lives of those around us Join me on a personal journey learning the so called secrets and making them work for you in creating the life of
