Gods World A Biblical Theology Of The Environment:

Creation Care Douglas J. Moo, Jonathan A. Moo, 2018-02-27 What does the Bible say about the natural world and its place within God's purpose? From Genesis to Revelation the Bible reveals a God whose creative power and loving care embrace all that exists from earth and sky and sea to every creature. Yet the significance of the Bible's extensive teaching about the natural world is easily overlooked by Christians accustomed to focusing only on what the Bible says about God's interaction with human beings. In *Creation Care*, father and son team Douglas and Jonathan Moo invite readers to open their Bibles afresh to explore a comprehensive biblical theology of creation care as well as a careful analysis of the most up-to-date scientific data about the state of our world. Following the contours of the biblical storyline, they uncover answers to questions such as: What is the purpose of the non-human creation? Can a world with things like predators, parasites, and natural disasters still be the good world described in Genesis 1? What difference does the narrative of the Fall make for humankind's responsibility to rule over other creatures? What difference does Jesus make for our understanding of the natural world? How does our call to care for creation fit within the hope for a new heaven and a new earth? What is unique about Christian creation care compared with other approaches to environmental issues? How does creation care fit within the charge to proclaim the gospel and care for the poor? Rather than merely offering a response to environmental concerns, *Creation Care* invites readers into a joyful vision of the world as God's creation in which they can rediscover who they truly are as creatures called to love and serve the Creator and to delight in all he has made. _____ Part of the Biblical Theology for Life series, this practical and robust book will help you develop an effective and faithful Christian response to the scriptural teaching about the created world.

God's World Ken Gnanakan, 1999-01-01 Today the environmental crisis is no longer a matter of concern for a few but for everybody. It concerns global survival. *God's World* is a study guide looking at themes from the Old and New Testaments involving creation, land, and the environment, relating them to a contemporary context. Topics covered include the meaning of man's dominion over the earth, the laws guiding the Israelites' care of the land, the new creation through Jesus, eco-feminism, and evangelical Christians and the environment. The book combines a discussion of the theology and ethics of the environment as well as looking at a practical, positive response. There is a useful glossary of terms plus suggestions for discussion and further study.

Keeping God's Earth Noah Toly, Noah J. Toly, Daniel I. Block, 2010-05-26 Diversity of life, water resources, global climate change, cities, and global environmental issues. We all know being a Christian involves ethical responsibility. But what exactly are our environmental obligations? This unique volume teams up scientists with biblical scholars to help us discern just not that question: What does the Lord require of us? **Christianity and**

Ecological Theology E. M. Conradie, 2006-10-01 There has been a proliferation of publications in the field of Christian ecological theology over the last three decades or so. These include a number of recent edited volumes, each covering a range of topics and consolidating many of the emerging insights in ecological theology. The call for Christian churches to respond to

the environmental crisis has been reiterated numerous times in this vast corpus of literature also in South Africa **T&T Clark Handbook of Christian Theology and Climate Change** Hilda P. Koster, Ernst M. Conradie, 2019-12-12 The T these essays are critically engaged by respondents situated in other geographic regions minority communities non Christian traditions or non theological disciplines Structured in seven main parts the handbook explores 1 the need for collaboration with disciplines outside of Christian theology to address climate change 2 the need to find common moral ground for such collaboration 3 the difficulties posed by collaborating with other Christian traditions from within 4 the questions that emerge from such collaboration for understanding the story of God s work and 5 God s identity and character 6 the implications of such collaboration for ecclesial praxis and 7 concluding reflections examining whether this volume does justice to issues of race gender class other animals religious diversity geographical divides and carbon mitigation This rich ecumenical cross cultural conversation provides a comprehensive and in depth engagement with the theological and moral challenges raised by anthropogenic climate change *Emerging Voices in Global Christian Theology* William Dyrness, 2003-12-30 There are some new voices emerging in Christian theological conversation these days They do not speak with American or Western European accents but reflect their settings in Africa Asia and Latin America Since they come from many places the theological questions they ask are not ones we are used to in the West They are as likely to speak of ancestor worship or political oppression as they are of church growth or evangelism One thing is clear we cannot listen to their cries of hope or despair without being deeply moved This book gives an opportunity to listen in to important conversations going on in different parts of the world These Christian theologians do not respond to a common set of questions but are setting their own agendas of theological discussion With some general introductory comments these pieces are meant to stimulate an appetite for further exploration There seems little doubt that the major voices in theology in the next generation will share these non western accents Environmental Science and Theology in Dialogue Russell A. Butkus, Steven A. Kolmes, 2011 This work demonstrates how understanding environmental science and theology can provide new resources for sustaining the Earth With sidebars discussion questions and recommended readings the book provides students with a text that nurtures both critical thinking and ethical action *Problems in Biblical Theology* Henry T. C. Sun, Keith L. Eades, 2011-06-07 Trained in the German tradition Rolf Knierim is a scholar who has made many significant contributions to the ongoing discussion of form criticism tradition history and theology He is also a passionate and charismatic teacher and a widely respected author and editor who has served the scholarly world most visibly in his role as coeditor of the Forms of the Old Testament Literature commentary series Problems in Biblical Theology is an erudite collection of twenty four essays produced to honor Knierim s contribution to the study of biblical theology It also stands in its own right as a vade mecum of current trends in biblical scholarship Written by an international array of respected scholars Knierim s colleagues former students and fellow commentators this volume includes detailed exegetical studies discussions of theological methods and

approaches from a variety of standpoints and efforts at relating Old Testament exegesis theology and hermeneutics to current interests in social scientific methods of interpretation or postmodern thought In all the breadth of interests found in this volume reflects the intellectual vitality and passion that Knierim himself has brought to the discipline A biographical narrative written by Hildegard Knierim and a foreword by James M Robinson provide additional insight into the historical and social contexts within which Knierim's work has unfolded

Watson, 2017-11-30 The ocean dominates the surface of the earth and is in the pages of the Bible too The Bible offers a view of the sea and the life it supports which affirms its intrinsic value to God as a good and indeed essential part of creation At the same time it also speaks perceptively of the sea's vulnerability to damage and change The Bible's focus on the sea raises questions about economics and the interconnectedness of communities whilst further references to the sea raise questions about our human centredness and spirituality and about our fear of chaos and disaster In a unique collaborative project the oceanographer Meric Srokosz and the biblical scholar Rebecca Watson not only offer environmental insights on the sea but also connect the ocean with other key issues of broader concern spirituality economics chaos and our place in the world Each chapter concludes with ideas for discussion and reflection and for suggested actions in the light of the issues raised The book will present a fresh new lens through which to view the Bible and as such inform biblical scholars students and preachers alike

A Primer in Ecotheology Celia E. Deane-Drummond, 2017-09-22 This book serves as an introduction to the

burgeoning field of ecotheology illustrating both its variety and its commonality across different Christian theological divides Some of the questions addressed in this short book include the following How can the Bible still make sense in the context of climate change and biodiversity loss Who on earth is Jesus Christ and what does he mean for us in today's world How can Christians be faithful to their traditions while responding to pressing calls to be engaged in environmental activism What is the relationship between theory and practice and local as well as global demands and how is this relationship expressed in different ecclesial settings How can we encourage each other to develop a sense of the earth as divine gift Written in clear accessible style this book walks readers through difficult concepts and shows the way different sources in Christian theology have responded to one of the most significant cultural issues of our time

Celebrating God's Cosmic Perichoresis Bryan Jeongguk Lee, 2011-08-05 In the face of today's unprecedented ecological crisis Christianity is often seen not only as sharing in the guilt of causing this crisis but also as unwilling and incapable of providing any help in re-envisioning the required new way of life on earth This view is justified when we consider how modern Christian theology has tended to denigrate the natural world and how the prevalent world deserting Christian eschatology forms a spirituality that is fundamentally

insensitive and indifferent to nature In light of this a meaningful Christian contribution to today's world of enormous ecological suffering must lie in envisioning a fundamentally new ecological vision of humanity's relationship to nature as well as providing an ethical energy to transform our current path of self destruction In this book Bryan J Lee finds in Jurgen Moltmann's eschatological panentheism a viable pathway toward a Christian ecological re envisioning of the relationship between God and humanity and between humanity and nature Furthermore Lee demonstrates in a persuasive way how Christian worship can and should be the epicenter of ecological transformation of the society emphatically interpreting Christian worship as an ecological eschatological anticipation of God's cosmic perichoresis *ThirdWay*, 1993-12 Monthly current affairs magazine from a Christian perspective with a focus on politics society economics and culture

Ecologies of Grace Willis Jenkins, 2013-02-12 Christianity struggles to show how living on earth matters for living with God While people of faith increasingly seek practical ways to respond to the environmental crisis theology has had difficulty contextualizing the crisis and interpreting the responses In *Ecologies of Grace* Willis Jenkins presents a field shaping introduction to Christian environmental ethics that offers resources for renewing theology Observing how religious environmental practices often draw on concepts of grace Jenkins maps the way Christian environmental strategies draw from traditions of salvation as they engage the problems of environmental ethics He then uses this new map to explore afresh the ecological dimensions of Christian theology Jenkins first shows how Christian ethics uniquely frames environmental issues and then how those approaches both challenge and reinhabit theological traditions He identifies three major strategies for making environmental problems intelligible to Christian moral experience Each one draws on a distinct pattern of grace as it adapts a secular approach to environmental ethics The strategies of ecojustice stewardship and ecological spirituality make environments matter for Christian experience by drawing on patterns of sanctification redemption and deification He then confronts the problems of each of these strategies through critical reappraisals of Thomas Aquinas Karl Barth and Sergei Bulgakov Each represents a soteriological tradition which Jenkins explores as an ecology of grace letting environmental questions guide investigation into how nature becomes significant for Christian experience By being particularly sensitive to the ways in which environmental problems are made intelligible to Christian moral experience Jenkins guides his readers toward a fuller understanding of Christianity and ecology He not only makes sense of the variety of Christian environmental ethics but by showing how environmental issues come to the heart of Christian experience prepares fertile ground for theological renewal

Ecology and Theology in the Ancient World Ailsa Hunt, Hilary F. Marlow, 2019-03-21 This multi disciplinary volume brings together the voices of biblical scholars classicists philosophers theologians and political theorists to explore how ecology and theology intersected in ancient thinking both pagan Jewish and Christian Ecological awareness is by no means purely a modern phenomenon Of course melting icecaps and plastic bag charges were of no concern in antiquity frequently what made examining your relationship with the natural world urgent was the light this shed on human

relationships with the divine For in the ancient world to think about ecology was also to think about theology This ancient eco theological thinking whilst in many ways worlds apart from our own environmental concerns has also had a surprisingly rich impact on modern responses to our ecological crisis As such the voices gathered in this volume also reflect on whether and how these ancient ideas could inform modern responses to our environment and its pressing challenges Through multi disciplinary conversation this volume offers a new and dynamic exploration of the intersection of ecology and theology in ancient thinking and its living legacy

Christian Doctrine Mike Higton, 2008 The SCM Core Text Christian Doctrine offers an up to date accessible introduction to one of the core subjects of theology Written for second and third year university students it shows that Christian Doctrine is not a set of impossible claims to be clung to with blind faith Mike Higton argues that it is rather a set of claims that emerge in the midst of Christian life as Christian communities try to make enough sense of their lives and of their world to allow them to carry on This book explores these and other central Christian doctrines and in each case shows how the doctrine makes sense and how it is woven into Christian life It will help readers to see what sense it might make to say the things that Christian doctrine says and how that doctrine might affect the way that one looks at everything the natural world gossip culture speaking in tongues politics dieting human freedom love High Noon justice computers racism the novels of Jane Austen parenthood death and fashion

Global Dictionary of Theology William A. Dyrness, Veli-Matti Kärkkäinen, 2009-10-25 Theological dictionaries are foundational to any theological library But until now there has been no Global Dictionary of Theology a theological dictionary that presumes the contribution of the Western tradition but moves beyond it to embrace and explore a full range of global expressions of theology The Global Dictionary of Theology is inspired by the shift of the center of Christianity from the West to the Global South But it also reflects the increase in two way traffic between these two sectors as well as the global awareness that has permeated popular culture to an unprecedented degree The editorial perspective of the Global Dictionary of Theology is an ecumenical evangelicalism that is receptive to discovering new facets of truth through listening and conversation on a global scale Thus a distinctive feature of the Global Dictionary of Theology is its conversational approach Contributors have been called on to write in the spirit of engaging in a larger theological conversation in which alternative views are expected and invited William A Dyrness Veli-Matti Kärkkäinen Juan F Martinez and Simon Chan edit approximately 250 articles written by over 100 contributors representing the global spectrum of theological perspectives Pastors theological teachers theological students and lay Christian leaders will all find the Global Dictionary of Theology to be a resource that unfolds new dimensions and reveals new panoramas of the theological perspective and inquiry Here is a new launching point for doing theology in today's global context

Dusty Earthlings John Mustol, 2012-08-20 The Lord God formed a man from the dust of the ground Gen 2:7 Made of dust we humans are thoroughly physical beings We are dusty earthlings As such we are also ecological beings or rather eco physical beings firmly embedded in and dependent upon God's earthly ecosystems that support and provide for us and

constitute our earthly home Today we are living in ways that are damaging our home As Christian dusty earthlings we are called to oversee God s earthly creation and to follow Jesus Christ God incarnated as a dusty earthling How do we do this in the face of the array of ecological problems we face today How can we obey the ecological principles and limits that govern all of life on God s good earth I suggest that the virtues of humility voluntary self limitation and the principles of kenosis and justice will help as we seek to follow Jesus as dusty earthlings in today s world **Towards an African-Christian**

Environmental Ethic Nisbert Taisekwa Taringa,2014-04-17 This book is a critical comparative study of African Shona and Christian attitudes to nature The purpose of initiating this discussion is to review the existing attitudes to nature in these two religions This has important implications in an attempt to formulate a public environmental ethic in which traditional Shona and Christian adherents participate This is crucial in the light of the ongoing inequity and ecological imbalance in Zimbabwe
