encounter in the future bear characteristics that mirror inherently human modes of identity construction for example via age gender and visual appearance This process can differ across life stages such as childhood versus adulthood Monsters or what a society identifies as monstrous are not simply cultural artefacts communicated via literature historical accounts or modern media productions such as films or series They are integral components of the human psyche Therefore they have existed in symbiosis with the homo socius and will probably continue to do so in his future **Sci-Fi Movie Posters** Dover,2019-11-13
