God's Sea Animals Ii Marion Wehmeyer,2007-01-23 God s universe is so astonishing that we would be missing a great deal of life if we chose to ignore any part of his creation Most of us are aware of the many animals that in the forest and roam the land A lot less of us are aware of God s animals that live beneath the sea It is with this in mind that I decided to share my undersea experience with all of God s children It is my hope that this book can be used by Christian parents to interact with their children in a way that will expose God s undersea world and at the same time teach some Christian values that will have enduring ramifications By asking the questions on each page we as parents can stimulate our children to think about God and His world We can communicate with our children and at the same time share some interesting life forms with them It has been said that a picture is worth a thousand words Each picture within this book is authentic sea animal I took all of the pictures of these sea animals as they appear in their natural environment Each picture represents an extended effort as a scuba divers and underwater photographer Each animal was handled with loving

care and was not removed from its environment. Look at each picture and use your imagination to stimulate your child's curiosity. This book is intended to be used as a guide to stimulate your child's interest in His world as a tool for you to listen to what your child has to say. Please read it to your child and use the information provided with each picture to answer your child's questions. As you read this book, may you enjoy God's undersea world and remember you are loved by Him always and forever.

All God's Animals Christopher Steck, 2019-10-01. The book is the first of its kind to draw together in conversation the views of the early Church, contemporary biblical and theological scholarship, and post-conciliar teachings. Steck develops a comprehensive Catholic theology of animals based on an in-depth exploration of Catholicism's fundamental doctrines: trinitarian theology, Christology, pneumatology, eschatology, and soteriology. All God's Animals makes two central claims: First, we can hope that God will include animals of the present age in the kingdom inaugurated by Christ. Second, because of this inclusion, our responses to animals should be guided by the values of the kingdom. As Christians await the final liberation of all creation, they are to be witnesses to God's kingdom by embodying its ideals in their relations with animal life. Because the kingdom's fullness is yet to come and because our world remains marked by the wounds of sin, however, Christian treatment of animals will at times require acts that are at odds with the kingdom's ideals, for example, those causing suffering and death. Steck examines each of these ideas and explores all of their complexities.

A Heaven for Animals Christopher Steck, 2025-09-02. A transformative perspective on animal afterlife bridging theological reflection and moral action. What happens to our beloved companion animals after death? Do they and other animals have a place in the divine plan? A Heaven for Animals offers a groundbreaking theological rationale for the inclusion of animals in heaven, challenging conventional thinking about the role animals have in God's plan. Based on Biblical evidence and the doctrine of the Catholic Church, Christopher Steck reveals a radical vision of divine grace that extends far beyond human-centric perspectives, demonstrating how animals are intrinsically part of Christ's redemptive work. Accessible to both theological scholars and thoughtful readers seeking deeper spiritual insights, this book provides a rigorous and compassionate framework for understanding the sacredness of all creation and the creatures within it. A Heaven for Animals invites readers to reimagine their ethical responsibilities, suggesting that our treatment of animals should strive to reflect an anticipatory vision of God's inclusive kingdom, a transformative perspective that bridges theological reflection and moral action.
