wrong order The first contact with this kind of narrative technique can evoke an unsatisfied feeling because a non chronological order of happenings in the first chapters of a book can lead to incomprehension The novels *Going After Cacciato* by Tim O'Brien and *Catch 22* by Joseph Heller we dealt with in the seminar *Between the Lines American War Novels* are narrated with this complex technique They are called nonlinear narratives I decided to write a paper about how Tim O'Brien accomplished to portray the trauma of war with his novel *Going after Cacciato* This is one of six novels he published dealing with Vietnam War In the second chapter I start to divide the novel into its three parts that could function as stories on their own and I analyse the narrative communication and its function within these parts The third chapter deals with the major themes of the novel The theme of control and its loss is discussed in a subchapter because it is a central one and can be associated with the special narrative technique In chapter four I analyse how structure and narrative communication assemble the content and main themes in *Going After Cacciato* harmonious It creates the feeling of reading about traumatic experiences at Vietnam War The novel contains a mythical fictional story within the story and therefore distinct ambiguities that are discussed in this chapter

**Friendly Fire** Katherine Kinney, 2000-11-02 Hundreds of memoirs novels plays and movies have been devoted to the American war in Vietnam In spite of the great variety of media political perspectives and the degrees of seriousness with which the war has been treated Katherine Kinney argues that the vast majority of these works share a single story that of Americans killing Americans in Vietnam *Friendly Fire* in this instance refers not merely to a tragic error of war it also refers to America's war with itself during the Vietnam years Starting from this point this book considers the concept of friendly fire from multiple vantage points and portrays the Vietnam age as a crucible where America's cohesive image of itself is shattered pitting soldiers against superiors doves against hawks feminism against patriarchy racial fear against racial tolerance Through the use of extensive evidence from the film and popular fiction of Vietnam e.g. Kovic's *Born on the Fourth of July* Didion's

Democracy O'Brien's *Going After Cacciato* Rabe's *Sticks and Bones* and Kinney's *Streamers* draws a powerful picture of a nation politically, culturally and socially divided and a war that has been memorialized as a contested site of art, media, politics and ideology. *Encyclopedia of the Veteran in America* William A. Pencak, 2009-10-15 A comprehensive encyclopedia that describes the experiences of American veterans from the Revolutionary War to the present. From the American Revolution to today's conflicts in Iraq and Afghanistan, *Encyclopedia of the Veteran in America* captures the experiences and lives of our nation's veterans in a comprehensive, unprecedented way. It is the first major reference work focused exclusively on an American soldier's view of military life during war and the often difficult return to civilian life and peacetime afterward. *Encyclopedia of the Veteran in America* comprises over 100 insightful entries that include major examinations of the American Revolution, Civil War, World Wars I and II, Korean War, Vietnam War and the Gulf, Afghan and Iraq Wars, plus brief reviews of other conflicts. In addition, it highlights the specific experiences of POWs, MIAs and their families, as well as African Americans, women and American Indian soldiers. Additional entries focus on key historic figures like Theodore Roosevelt and General Douglas MacArthur, veterans organizations like the American Legion and the VFW, legislative initiatives and the full range of memorials and monuments dedicated to our fighting men and women. Philip Roth David Brauner, 2013-07-19 This is a groundbreaking study of the most important contemporary American novelist, Philip Roth. Reading the author alongside a number of his contemporaries and focusing particularly on his later fiction, this book offers a highly accessible, informative and persuasive view of Roth as an intellectually adventurous and stylistically brilliant writer who constantly reinvents himself in surprising ways. At the heart of this book are a number of detailed and nuanced readings of Roth's works, both in terms of their relationships with each other and with fiction by Nathaniel Hawthorne, Thomas Pynchon, Tim O'Brien, Brett Easton Ellis, Stanley Elkin, Howard Jacobson and Jonathan Safran Foer. Brauner identifies as a thread running through all of Roth's work the use of paradox both as a rhetorical device and as an organizing intellectual and ideological principle.
