*Going by Contraries* Robert Bernard Hass, 2002 The ascendancy of science pushed aside Emerson's view of nature as an analogue for a kind and benevolent deity and led to a spiritual crisis that Robert Frost attempted to address in his work Hass English Edinboro U of Pennsylvania argues that this was the central concern of Frost's work throughout his career Frost consistently argued that poetry must seek to find a consistent rationality that strives towards wisdom and firmly rejected Poe's conception of poetry as mere ornament or the more revolutionary conceptions of the American Modernists Hass traces Frost's career as one in which he slowly overcame his fear of materialism and was able to restore his religious faith

Fogelin,2011-02-24 In this updated edition of his brief engaging book Robert J Fogelin examines figures of speech that concern meaning irony hyperbole understatement similes metaphors and others to show how they work and to explain their attraction T.E. Hulme and Modernism Oliver Tearle,2013-08-15 T E Hulme 1883 1917 was the author of a small number of poems and some genuinely innovative critical and philosophical writings From this modest output his influence on later writers was considerable T S Eliot described his poems as beautiful and Ezra Pound and Wyndham Lewis were both inspired by his work T E Hulme and Modernism explores his impact on key modernist figures and also shows where this influence has been misplaced or misinterpreted Oliver Tearle also here suggests that Hulme s significance goes beyond his influence on modernism and that his work provides new ways of thinking about creative and critical writing in the 21st century What is

poetry What is the purpose of literary criticism And how might the strange phenomenon of the fragment offer new ways of theorising such issues In exploring these and other important matters this book pushes at the boundaries of literary criticism and of writing itself     Practical Ecocriticism Glen A. Love,2003 Table of contents     Unsettling Nature Taylor Eggan,2022-03-24 The German poet and mystic Novalis once identified philosophy as a form of homesickness More than two centuries later as modernity s displacements continue to intensify we feel Novalis s homesickness more than ever Yet nowhere has a longing for home flourished more than in contemporary environmental thinking and particularly in eco phenomenology If only we can reestablish our sense of material enmeshment in nature so the logic goes we might reverse the degradation we humans have wrought and in saving the earth we can once again dwell in the nearness of our own being Unsettling Nature opens with a meditation on the trouble with such ecological homecoming narratives which bear a close resemblance to narratives of settler colonial homemaking Taylor Eggan demonstrates that the Heideggerian strain of eco phenomenology along with its well trod categories of home dwelling and world produces uncanny effects in settler colonial contexts He reads instances of nature s defamiliarization not merely as psychological phenomena but also as symptoms of the repressed consciousness of coloniality The book at once critiques Heidegger s phenomenology and brings it forward through chapters on Willa Cather D H Lawrence Olive Schreiner Doris Lessing and J M Coetzee Suggesting that alienation may in fact be natural to the human condition and hence something worth embracing instead of repressing Unsettling Nature concludes with a speculative proposal to transform eco phenomenology into exo phenomenology an experiential mode that engages deeply with the alterity of others and with the self as its own Other     William Wordsworth and the Ecology of Authorship Scott Hess,2012-04-12 In William Wordsworth and the Ecology of Authorship Scott Hess explores Wordsworth s defining role in establishing what he designates as the ecology of authorship a primarily middle class nineteenth century conception of nature associated with aesthetics high culture individualism and nation Instead of viewing Wordsworth as an early ecologist Hess places him within a context that is largely cultural and aesthetic The supposedly universal Wordsworthian vision of nature Hess argues was in this sense specifically male middle class professional and culturally elite factors that continue to shape the environmental movement today
