**EBOOK: Psychotherapy And Its Discontents** Windy Dryden, Colin Feltham, 1992-06-16 Psychotherapists and critics of psychotherapy outline their views and answer their adversaries The critics draw attention to the inadequacy of research validating the results of psychotherapy and argue that no treatment at all may be as effective as therapy that some people's experience of therapy is harmful that there is a preciousness and pretentiousness about many psychotherapists that psychotherapists may be flawed and exploitative that psychotherapy is anachronistically detached from the new paradigm views and that psychotherapy embodies a form of psychological reductionism that weakens its credibility The object of this book is to reduce the antagonism between the two camps so that future debate can be more constructive than hitherto The contributors are Michael Barkham Ian Craib Gill Edwards Albert Ellis Hans Eysenck Stephen Frosh Sol Garfield Ernest Gellner Jeremy Holmes Paul Kline Katherine Mair Jeffrey Masson

David Pilgrim Jeff Roberts John Rowan David Shapiro and Stuart Sutherland Schizophrenia Bulletin ,1977 *The Lost Romantics* Norbert Lennartz,2020-01-13 This book features a collection of essays shedding subversively new light on Romanticism and its canon of big six white male Romantics by focusing on marginalised forgotten and lost writers and their long neglected works Probing the realms of literary and cultural lostness this book identifies different strata of oblivion and shows how densely the net of contacts and rivalries was woven around the ostensibly monolithic stars of the Romantic age It reveals how the lost poets inspired the production of anthologised poetry that they served as indispensable muses sidekicks and interlocutors of the big six and that their relevance for the literary scene has been continuously underrated This is also surprisingly true for some creators of famous one hit wonders Frankenstein The Vampyre who were suddenly rocketed to fame or notoriety but could not help seeing their other works of fiction turning into abortive flops **Schizophrenia: the Bearded Lady Disease Volume Two** ,2010-08-24 Man has long searched for the cause and meaning of mental illness This second book continues in an attempt to answer those questions The author compiler has spent 47 years investigating these problems and his conclusion is that severe unconscious bisexual conflict and confusion lie at the root of all mental illness as difficult to comprehend as this idea may be The book itself consists of 773 quotations from a variety of sources all of which point to the unshakable truth of this hypothesis This is a fixed law of nature unassailable and constantly operative in every case No other species but man is afflicted with mental illness because no other species has either the intellectual power to repress their sexual feelings nor the motivation to do so The disease we call schizophrenia is but an arbitrary name which is used to designate the end stage of a process beginning with a slight neurosis The more severe the bisexual conflict and confusion in the individual the more severe the degree of the mental illness which is experienced Several other investigators in the past have reached this same conclusion but unfortunately their wisdom went largely unheeded Hopefully this book will remedy that ill advised neglect **Ordinary Families, Special Children, Third Edition** Milton Seligman,Rosalyn Benjamin Darling,2009-02-23 This popular clinical reference and text provides a multisystems perspective on childhood disability and its effects on family life The volume examines how child family ecological and sociocultural variables intertwine to shape the ways families respond to disability and how professionals can promote coping adaptation and empowerment Accessible and engaging the book integrates theory and research with vignettes and firsthand reflections from family members **Poetic Madness and the Romantic Imagination** Frederick Burwick,2010-11-01 **Schizophrenia J.** Michael Mahoney,2010-08 Man has long searched for the cause and meaning of mental illness This book attempts to answer those questions The author compiler has spent 36 years investigating these problems and his conclusion is that severe unconscious bisexual conflict and confusion lie at the root of all mental illness as difficult to comprehend as this idea may be The book itself consists of 639 quotations from a variety of sources all of which point to the unshakable truth of this hypothesis This is a fixed law of nature unassailable and constantly operative in every case No other species but man is

afflicted with mental illness because no other species has either the intellectual power to repress their sexual feelings nor the motivation to do so The disease we call schizophrenia is but an arbitrary name which is used to designate the end stage of a process beginning with a slight neurosis The more severe the bisexual conflict and confusion in the individual the more severe the degree of the mental illness which is experienced Several other investigators in the past have reached this same conclusion but unfortunately their wisdom went largely unheeded Hopefully this book will remedy that ill advised neglect
