Disidentifications José Esteban Muñoz, 2013-11-30 There is more to identity than identifying with one s culture or standing solidly against it Jos Esteban Mu oz looks at how those outside the racial and sexual mainstream negotiate majority culture not by aligning themselves with or against exclusionary works but rather by transforming these works for their own cultural purposes Mu oz calls this process disidentification and through a study of its workings he develops a new perspective

on minority performance survival and activism Disidentifications is also something of a performance in its own right an attempt to fashion a queer world by working on with and against dominant ideology By examining the process of identification in the work of filmmakers performance artists ethnographers Cuban choteo forms of gay male mass culture such as pornography museums art photography camp and drag and television Mu oz persistently points to the intersecting and short circuiting of identities and desires that result from misalignments with the cultural and ideological mainstream in contemporary urban America Mu oz calls attention to the world making properties found in performances by queers of color in Carmelita Tropicana s Camp Choteo style politics Marga Gomez s performances of queer childhood Vaginal Creme Davis s Terrorist Drag Isaac Julien s critical melancholia Jean Michel Basquiat s disidentification with Andy Warhol and pop art Felix Gonzalez Torres s performances of disidentity and the political performance of Pedro Zamora a person with AIDS within the otherwise artificial environment of the MTV serial *The Real World* Sport, Sexualities and Queer/Theory Jayne

Air Force. Air Forces in Europe. Libraries, 1972 **The Culture of Sports in the Harlem Renaissance** Daniel Anderson, 2017-03-21 During the African American cultural resurgence of the 1920s and 1930s

professional athletes shared the spotlight with artists and intellectuals Negro League baseball teams played in New York City s major league stadiums and basketball clubs shared the bill with jazz bands at late night casinos Yet sports rarely appear in the literature on the Harlem Renaissance Although the black intelligentsia largely dismissed the popularity of sports the press celebrated athletics as a means to participate in the debates of the day A few prominent writers such as Claude McKay

and James Weldon Johnson used sports in distinctive ways to communicate their vision of the Renaissance. Meanwhile the writers of the Harlem press promoted sports with community consciousness, insightful analysis and a playful love of language and argued for their importance in the fight for racial equality. **The African American Experience** Arvarh E. Strickland, Robert E. Weems Jr., 2000-11-30

Compared to the early decades of the 20th century when scholarly writing on African Americans was limited to a few titles on slavery, Reconstruction and African American migration, the last thirty years have witnessed an explosion of works on the African American experience. With the Civil Rights and Black Power movements of the 1960s came an increasing demand for the study and teaching of African American history, followed by the publication of increasing numbers of titles on African American life and history. This volume provides a comprehensive bibliographical and analytical guide to this growing body of literature as well as an analysis of how the study of African Americans has changed. **The Cooperstown Symposium on Baseball and American Culture, 2017-2018** William M. Simons, 2019-03-26

Widely acknowledged as the preeminent gathering of baseball scholars, the annual Cooperstown Symposium on Baseball and American Culture has made significant contributions to baseball research. This collection of 15 new essays selected from the 2017 and the 2018 symposia examines topics whose importance extend beyond the ballpark. Presented in six parts, the essays explore baseball's cultural and social history and analyze the tools that encourage a more sophisticated understanding of baseball as a game and enterprise. Sports Media History John Carvalho, 2020-10-27 This research collection explores the ongoing interaction between sports media and society throughout important periods in history from the nineteenth century to the present day. It examines both historical moments and broader trends in sports with an emphasis on the media's role. Encompassing a variety of research approaches and perspectives, the book looks at the individuals, mass media outlets and communication technologies that have affected societies on a global scale, including print, photography, broadcast radio and television, Internet-based media and public relations marketing. It presents fascinating new case studies covering topics as diverse as sports journalism and the Third Reich, Argentina at the Mexico World Cup, post 9/11 sports reporting, Martina Navratilova and women's tennis, the growth of fantasy sport and the significance of Joe Louis and Jackie Robinson in the history of US sports reporting. This is essential reading for any researcher, student or media professional with an interest in the relationships between sports, culture and society or in the history of media culture or technology. Unpackaging Art of the 1980s Alison Pearlman, 2003-06-15

American art of the 1980s is as misunderstood as it is notorious. Critics of the time feared that market hype and self-promotion threatened the integrity of art. They lashed out at contemporary art, questioning the validity of particular media and methods and dividing the art into opposing camps. While controversies have since subsided, critics still view art of the 1980s as a stylistic battlefield. Alison Pearlman rejects this picture, which is truer of the period's criticism than of its art. Pearlman reassesses the works and careers of six artists who became critics' biggest targets. In each of three chapters, she pairs two artists the critics viewed as emblematic of a given

trend Julian Schnabel and David Salle in association with Neo Expressionism Jean Michel Basquiat and Keith Haring vis vis Graffiti Art and Peter Halley and Jeff Koons in relation to Simulationism Pearlman shows how all these artists shared important but unrecognized influences and approaches a crucial and overwhelming inheritance of 1960s and 1970s Conceptualism a Warholian understanding of public identity and a deliberate and nuanced use of past styles and media Through in depth discussions of works from Haring s body paintings of Grace Jones to Schnabel s movie Basquiat Pearlman demonstrates how these artists interests exemplified a broader generational shift unrecognized by critics She sees this shift as starting not in the 1980s but in the mid 1970s when key developments in artistic style art world structures and consumer culture converged to radically alter the course of American art Unpackaging Art of the 1980s offers an innovative approach to one of the most significant yet least understood episodes in twentieth century art

Samie, 2017-09-08 The experiences of ethnic Other females have until recently been widely overlooked in the study of sport There continues to be a need to produce critical scholarship about ethnic Other girls and women in sport and physical culture in order to represent their complex multifarious and dynamic lived realities This international collection of critical essays provides compelling insight into the lived realities of ethnic Other females in sport Throughout the book contributors either draw on the political consciousnesses of Other feminisms or privilege the voices of ethnic Other girls and women so as to broaden diversify and advance critical thinking pertaining to ethnic Other females in sport and physical culture The purpose of the collection is both to produce knowledge and privilege otherwise subjugated knowledges which individually and collectively present counter narratives that better speak to the lived realities of racially oppressed groups of women and girls *Race Gender and Sport The Politics of Ethnic Other Girls and Women* is important reading for all students and scholars with an interest in the sociology of sport gender studies or race and ethnicity studies

The Unlevel Playing Field David Kenneth Wiggins, Patrick B. Miller, 2003 A comprehensive study of black participation in sports since slavery reveals a checkered history of prejudice and cultural bias that have plagued American sports from the beginning

African American Authors, 1745-1945 Emmanuel S. Nelson, 2000-01-30 There has been a dramatic resurgence of interest in early African American writing Since the accidental rediscovery and republication of Harriet Wilson s *Our Nig* in 1983 the works of dozens of 19th and early 20th century black writers have been recovered and reprinted There is now a significant revival of interest in the Harlem Renaissance of the 1920s and in the last decade alone several major assessments of 18th and 19th century African American literature have been published Early African American literature builds on a strong oral tradition of songs folktales and sermons Slave narratives began to appear during the late 18th and early 19th century and later writers began to engage a variety of themes in diverse genres A central objective of this reference book is to provide a wide ranging introduction to the first 200 years of African American literature Included are alphabetically arranged entries for 78 black writers active between 1745 and 1945 Among these writers are essayists novelists short story writers poets playwrights and

autobiographers Each entry is written by an expert contributor and provides a biography a discussion of major works and themes an overview of the author s critical reception and primary and secondary bibliographies The volume concludes with a selected general bibliography **Black Firsts** Jessie Carney Smith,2012-12-01 Achievement engenders pride and the most significant accomplishments involving people places and events in black history are gathered in Black Firsts 4 000 Ground Breaking and Pioneering Events *Cougars of Any Color* Katherine Lopez,2008-03-24 After years of playing sub par teams in weak athletic conferences the University of Houston athletic program sought to overcome its underdog reputation by integrating its football and basketball programs in 1964 Cougar coaches Bill Yeoman and Guy V Lewis knew the radical move would grant them access to a wealth of talented athletes untouched by segregated Southern programs and brought on several talented black athletes in the fall semester including Don Chaney Elvin Hayes and Warren McVea By 1968 the Cougars had transformed into an athletic powerhouse and revolutionized the nature of collegiate athletics in the South This book gives the Cougars athletes and coaches the recognition long denied them It outlines the athletic department s handling of the integration the experiences of the school s first black athletes and the impact that the University of Houston s integration had on other programs
