We'll Get 'Em in Sequins Max

Davidson, 2012-03-01 A truly unique and fascinating look at the changing nature of masculinity and manliness told through the lens of a series of Yorkshire County Cricket Club player portraits through the ages George Hirst was a man of his time His apocryphal quotation 'We'll get 'em in single sequins' epitomises his no fuss approach to all matters and his distaste for excess or ostentation His stiff upper lip was a requisite part of his Edwardian manliness Fast forward a century or so to Darren Gough's beseeched victory on *Strictly Come Dancing* or to Michael Vaughan's final teary press conference and the different versions of what it means to be masculine are worlds apart It is one of the oldest clichés in sports writing to say that sport mirrors life And yet in this instance the world of Yorkshire cricket has so faithfully mirrored the outside world that the cliché is unavoidable Yorkshire's best of counties has given us some remarkable characters over the years Len Hutton Geoffrey Boycott and Fred Trueman to name just a few Through portraits of these and other Yorkshire players and the values that they shared with their contemporaries this wonderfully original book maps the contours of a sexual revolution whose tremors are

still being felt today **Military Interventions, War Crimes, and Protecting Civilians** Christi Siver, 2018-04-10 War crimes have devastating effects on victims and perpetrators and endanger broader political and military goals The protection of civilians one of the most fundamental norms in the laws of war appears to have weakened despite almost universal international agreement Using insights from organizational theory this book seeks to understand the process between military socialization and unit participation in war crimes How do militaries train their soldiers in the laws of war How do they enforce compliance with these laws Drawing on evidence from the Korean War the Malayan Emergency and the Canadian peacekeeping mission in Somalia the author discovers that military efforts to train soldiers about the laws of war are poor and leadership often sent mixed signals about the importance of compliance However units that developed subcultures that embraced these laws and had strong leadership were more likely to comply than those with weak discipline or countercultural norms Normandy Shelagh Whitaker, Dennis Whitaker, 2009-03-12 It was the allied armies valor their endurance and their ability to adapt that won the battle of Normandy and launched the liberation of Western Europe from Normandy The Real Story For decades it s been the conventional wisdom that brute force alone beat the German army at Normandy Now a definitive new history coauthored by a highly decorated field commander proves otherwise Using archival data oral histories and exclusive new interviews Normandy The Real Story takes the reader deep into the minds hearts and souls of the allied armies to show how despite the shortcomings of their superiors and the inferiority of their weaponry they destroyed two well equipped German armies and won the war Here is the crucial summer of 1944 as seen by both sides from the British spy code named Garbo who successfully misled the Nazis about the time and place of the D day landings to the poor planning for action after the assault that forced the allies to fight for nine weeks field to field hedgerow to hedgerow Here too are the questionable command decisions of Montgomery Eisenhower and Bradley the insatiable ego of Patton Yet fighting in some of the most miserable conditions of the war the allied soldiers used ingenuity resilience and raw courage to drive the enemy from France in what John Keegan describes as the biggest disaster to hit the German army in the course of the war Normandy is an inspiring tribute to the common fighting men of five nations who won the pivotal campaign that led to peace and freedom *Assault Landing Craft* Brian Lavery, 2009-10-27 The landing craft assault or LCA was one of the unsung heroes of the Second World War It took part in practically every amphibious operation from Norway to Normandy and landed around 400 000 men in action conditions plus many more in training It was the only serviceable British landing craft at the beginning of the War and it remained in service until the Suez operation of 1956 It landed the first waves of infantry on the British and Canadian beaches in Normandy in 1944 and Americans on the notorious Omaha Beach Its far sighted design of 1938 remains the basis for the landing craft of today This is the first book devoted to this humble but essential craft It examines its design history before the War when amphibious operations were deeply unfashionable It describes its design and construction with plans that will be useful to modellers and wargamers It includes information on

the role of the crew and the techniques and tactics used in landings It gives an account of the larger ships which carried it and the life of the sailors and soldiers who travelled in it with many vivid personal accounts Finally it describes its role in the many operations in which it took part including withdrawals such as Dunkirk and the catastrophic Dieppe raid of 1942 **A Midshipman's War** Frank Wade, 2005-12-21 Frank Wade was born in Brandon Manitoba Canada in October 1921 He was sent to England to train for the navy in the schoolship HMS Conway in Liverpool and the Dartmouth Devon Royal Navy College from 1936 to December 1940 Then in May 1941 he was appointed to the staff of the Commander in Chief of the Mediterranean fleet Admiral A B Cunningham doing most secret cipher messages At this time the navy had evacuated the British army from Greece and Crete with great losses from German bombers we had no air coverage Two cruisers were lost with a 1 000 men drowned or killed Another cruiser was severely damaged with 250 killed Other smaller ships were also lost Our desert army had been driven back to the Egyptian border but Tobruk had not been taken It was under siege for 9 months from April to December 1941 putting more strain on our fleet Wade was in battleship HMS Queen Elizabeth when the battleship HMS Barham was sunk by U331 on 25 November 1941 with 862 men lost and 495 saved A strange attack was made on Alexandria Harbour on the night of 15 December 1941 by Italian frog men severely damaging two battleships These two ships were given light repairs and sent to the USA for long refits The cruiser HMS Neptune leading a squadron from Malta to attack an enemy convoy ran into an unknown mine field and was sunk with only one survivor out of 750 The island of Malta located in the middle of the Mediterranean was never taken by the enemy and it played a vital part in winning the naval war It was under siege for nearly three years from June 1940 to May 1943 Thirty convoys were sent from Gibraltar and Alexandria These convoys were hard fought with many of our merchant ships and warships being sunk One fully loaded merchant ship was needed by the island every month to prevent starvation Malta was the most bombed place anywhere The islanders were awarded the George Cross and a special citation awarded by the US president to Buz Buerling the Canadian air ace who shot down 26 enemy planes over Malta The Canadian motor torpedo and gun boats fought many sea battles and were awarded bravery medals The turning point of the Middle East war came when a renewed 8th Army under General Montgomery achieved a stunning land victory at El Alamein 60 miles west of Alexandria on 4th November 1942 Tunis was taken in May 1943 and landings in Sicily took place on the night of 9 10 July 1943 and Messina fell on 14 August
