Fanning The Flames Fans And Consumer Culture In Contemporary Japan:

Fanning the Flames William W. Kelly, 2012-02-01 *Fanning the Flames* examines the worlds of fans in the exuberant and commercialized popular culture of contemporary Japan. The works collected here profile denizens of all night rap clubs, sumo stable patrons, passionate fan clubs of a professional baseball team, enthusiasts of traditional rakugo storytelling, a club of middle aged female fans of a popular music star, youthful followers of Japan's longest running rock band, vinyl record collectors, and a thriving community of girls and women who produce and devour amateur comics. Grounded in close, often extended fieldwork with the fans themselves, each case study is an effort to understand both the personal pleasures and political economies of fandoms. The contributors explore the many ways that fans in and of Japanese mass culture actively search for intimacy and identity amid the powerful corporate structures that produce the leisure and entertainment of today's Japan.

Female Masculinity and the Business of Emotions in Tokyo Marta Fanasca, 2023-11-30 *Female Masculinity and the Business of Emotions in Tokyo* investigates the novel emotion business of *dans* escorting as a phenomenon emerging between gender performativity and pop culture commodified relationships and the wish for self-expression. Fanasca documents the dreams, ambitions, and fears of young crossdresser escorts negotiating their identity with and within the Japanese society, as well as those of crossdresser escorts' clients, women looking for the perfect man and the opportunity to experience emotions. Combining anthropological, sociological, and gender studies theories with an ethnographic approach, Fanasca argues that *dans* crossdressing is the tool used by a sector of Japanese women to resist the heteronormative and patriarchal society and its expectations while reinventing themselves and their identities looking for self-actualization. *Female Masculinity and the Business of Emotions in Tokyo* is an interdisciplinary work which will interest both scholars and students of Japanese studies, gender studies, and anthropology.

The Ashgate Research Companion to Anthropology Andrew J. Strathern, 2016-03-03 This companion provides an indispensable overview of contemporary and classical issues in social and cultural anthropology. Although anthropology has expanded greatly over time in terms of the diversity of topics in which its practitioners engage, many of the broad themes and topics at the heart of anthropological thought remain perennially vital, such as understanding order and change, diversity and continuity, and conflict and co-operation in the reproduction of social life. Bringing together leading scholars in the field, the contributors to this volume provide us with thoughtful and fruitful ways of thinking about a number of contemporary and long-standing arenas of work where both established and more recent researchers are engaged. The companion begins by exploring classic topics such as Religion, Rituals, Language, and Culture, Violence, and Gender. This is followed by a focus on current developments within the discipline, including Human Rights, Globalization, and Diasporas, and Cosmopolitanism. It provides an interesting and challenging look at the state of current thinking in anthropology, serving as a rich resource for scholars and students alike.

Adulthood Nancy R. Rosenberger, 2013-11-30 In Dilemmas of Adulthood Nancy Rosenberger investigates the nature of long term resistance in a longitudinal study of more than fifty Japanese women over two decades Between 25 and 35 years of age when first interviewed in 1993 the women represent a generation straddling the stable roles of post war modernity and the risky but exciting possibilities of late modernity By exploring the challenges they pose to cultural codes Rosenberger builds a conceptual framework of long term resistance that undergirds the struggles and successes of modern Japanese women Her findings resonate with broader anthropological questions about how change happens in our global local era and suggests a useful model with which to analyze ordinary lives in the late modern world Rosenberger s analysis establishes long term resistance as a vital type of social change in late modernity where the sway of media global ideas and friends vies strongly with the influence of family school and work Women are at the nexus of these contradictions dissatisfied with post war normative roles in family work and leisure and yet in Japan as elsewhere committed to a search for self that shifts uneasily
