Drew, 2015-06-02 Excerpt from Farm Blacksmithing A workshop on a farm is always a good sign It is an indication that the farmer believes in having a place where he may profitably spend his time on stormy days that would otherwise be wasted To such farmers and their sons this book is

addressed in the hope that they may learn from it some useful lessons in an easier way than by hard experience Several years ago a series of articles on Farm Blacksmithing appeared in Farm Stock and Home There was then and has since been some inquiry for a book embodying those articles and covering the subject of iron and steel work or so much of it as the farm mechanic would need to know Such a book has now been prepared and the author has added to it such knowledge as he has gained by an experience of seven years in teaching blacksmithing to the farmer boys in the Minnesota School of Agriculture If the expert blacksmith complains that he finds nothing to interest him in the book let him remember that it is not intended that he should It was written for beginners The chapter on Saw Filing was written by Mr William Boss Instructor in Carpentry at the School of Agriculture About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
