Akiskal,2012-12-06 Current evidence indicates that over two thirds of mood disorders pursue a recurrent or chronic course Yet much of the progress recorded in the field of mood disorders and their treatment has been in research into the acute phase of the illness Hence there is a need for a volume that specifically addresses the special clinical problems encountered in the recurrent forms of these disorders The various chapters of this book embrace a wide range of topics including etiology course and long term treatment integrative reviews results of recent investigations and clinical reports In this respect the contributions reflect current concepts research and clinical practice We have endeavored to build a bridge between neurobiology and psychology and have covered both the psychotherapeutic and the psychopharmacologic aspects of mood disorders *National Library of Medicine Current Catalog* National Library of Medicine (U.S.), **800 Autoevaluaciones en Farmacia** Ma Rosa Jiménez-Castellanos Ballesteros,Joaquín Herrera Carranza,1992 **Updating in Headache** Volker Pfaffenrath,Per-Olov Lundberg,Ottar Sjaastad,2012-12-06 In September 1983 the First International Headache Congress took place the founding congress of the International Headache Society IHS This meeting was attended by around 200 headache specialists from some 20 countries One of the principal goals of the IHS which was formed in London in 1982 is to promote and stimulate interest and research in the headache field In addition to the sponsorship of continued education events this also involves the coordination of scientific projects and the organization of future conferences There is no doubt that headaches represent an everyday problem in medical practice When the first headache clinics were established some years ago they were regarded as very progressive Today there are special outpatient centers and clinics for headache patients However this specialization has certainly not progressed very far The fact is that differential diagnosis and treatment of recurrent and chronic headaches represents a broad field that cuts across many disciplines Headaches are thus relevant not only to the neurologist but also to the psychiatrist the neurosurgeon the internist the endocrinologist the psychologist the pharmacologist and the biochemist Despite intensive research in numerous and very disparate medical disciplines there are still no generally accepted pathophysiologic concepts for many headache syndromes Realizing the importance of a multidisciplinary forum the IHS assumed the organization of this congress in collaboration with the German Migraine Society **Toxicología clínica** Ramón Bataller Sifre,2004 Cada vez son más acuciantes los problemas derivados de la intoxicación en sus más variadas formas El alcohol el tabaco y las drogas en general constituyen la fuente principal de este problema que en algunos puntos del mundo alcanza las dimensiones de una epidemia A este cúmulo de productos químicos de intoxicación cabe añadir otros que no por menos conocidos se muestran necesariamente inocuos La generalización del consumo incontrolado y sin prescripción médica de psicofármacos y de antibióticos la nefasta utilización de plaguicidas la ingestión de alimentos aparentemente saludables y la mala administración de productos domésticos e industriales han agravado los perjuicios derivados de estas sustancias Todo ello ha provocado una demanda urgente

de respuestas de carácter clínico entre los profesionales que se dedican a atajar las consecuencias de todo tipo de intoxicaciones Toxicología clínica está especialmente dirigido a los médicos y a los estudiantes de medicina y por su incidencia social resulta de gran interés también para un público amplio Además proporcionar gracias a su carácter interdisciplinario y polivalente una preparación más que suficiente al profesional y satisfacer sus necesidades de diagnóstico y tratamiento de cuantas patologías clínicas se le presenten RANG Y DALE, Farmacología + Student Consult, 6a ed.
