Farthest North:

Farthest North Fridtjof Nansen, 2000-05-12 In 1893 Nansen set sail in the Fram a ship specially designed and built to be frozen into the polar ice cap withstand its crushing pressures and travel with the sea's drift closer to the North Pole than anyone had ever gone before Experts said such a ship couldn't be built and that the voyage was tantamount to suicide This brilliant first person account originally published in 1897 marks the beginning of the modern age of exploration Nansen vividly describes the dangerous voyage and his 15 month long dash to the North Pole by sledge An unforgettable tale and a must read for any armchair explorer **Farthest North** Fridtjof Nansen, 1897 **Farthest North** Fridtjof

Nansen, 2003-01-29 In 1893 Fridtjof Nansen set off on one of the greatest journeys of exploration ever undertaken The remarkable three year project involved building a special ship designed to ride out the savage pressure of the ice to sail round the north of Russia into the Kara and Laptev Seas and then using his intuition as to arctic currents deliberately freeze the ship into the ice to drift towards the North Pole From the drifting ship Nansen and one of his men would then using dog teams make the last assault towards the North Pole across the pack Characterised by Nansen's restless and endless innovation the expedition was to be another in the litany of heroic failures But its advances in technique the sheer willpower that drove Nansen and Johansen first north from the Fram and then south across the melting pack to the uncharted mass of Franz Josef Land using sledge and kayak under assault from walrus and polar bear and above all the temperamental and endlessly changing ice was to light a fire of inspiration that later carried men to both North and South Pole The first edition of *Farthest North* sold 40 000 copies in English on publication One of its reviewers puts it best Two things were very prominent One was the indomitable faith of the man in himself and the other the unanimity with which most of the best authorities believed he was going to a living grave Nansen had made the most conspicuous advance towards the Pole that has ever been made and almost as great an advance as has been accomplished by all other voyages in the nineteenth century put together He is a Man in a Million This is the only complete edition in English **Farthest North; Being the Record of a Voyage of Exploration of the Ship "Fram" 1893-96** Fridtjof Nansen, 1898 *Ice Ship* Charles W. Johnson, 2014-10-07

In the golden age of polar exploration from the mid 1800s to the early 1900s many an expedition set out to answer the big question was the Arctic a continent an open ocean beyond a barrier of ice or an ocean covered with ice No one knew for the ice had kept its secret well ships trying to penetrate it all failed often catastrophically Norway's charismatic scientist explorer Fridtjof Nansen convinced that it was a frozen ocean intended to prove it in a novel if risky way by building a ship capable of withstanding the ice joining others on an expedition then drifting wherever it took them on a relentless one way journey into discovery and fame or oblivion *Ice Ship* is the story of that extraordinary ship the Fram from conception to construction through twenty years of three epic expeditions to its final resting place as a museum It is also the story of the extraordinary men who steered the Fram over the course of 84 000 miles on a three year ice bound drift finding out what the

Arctic really was in a remarkable four year exploration of unmapped lands in the vast Canadian Arctic and on a two year voyage to Antarctica where another famous Norwegian explorer Roald Amundsen claimed the South Pole Ice Ship will appeal to all those fascinated with polar exploration maritime adventure and wooden ships and will captivate readers of such books as *The Endurance In the Heart of the Sea* and *The Last Place on Earth* With more than 100 original photographs the book brings the Fram to life and light ***Farthest North (Illustrated)*** Fridtjof Nansen,2014-03-22 In 1893 Fridtjof Nansen set sail for the North Pole in the Fram a ship specially designed to be frozen into the polar ice cap withstand its crushing pressures and travel north with the sea s drift Experts said that such a ship couldn t be built and that the mission was tantamount to suicide *Farthest North* first published in 1897 to great popular acclaim is the stirring first person account of the Fram and her historic voyage Nansen tells of his expedition s struggle against snowdrifts ice floes polar bears scurvy gnawing hunger and the seemingly endless polar night that transformed the Fram into a cold prison of loneliness Once it became clear that the Fram could drift no farther Nansen and crew member Hjalmar Johansen set out on a harrowing fifteen month sledge journey to reach their destination by foot which required them to share a sleeping bag of rotting reindeer fur and to feed the weaker sled dogs to the stronger ones In the end they traveled 146 miles farther north than any Westerner had gone before representing the greatest single gain in polar exploration in four centuries **"Farthest North"** Fridtjof Nansen,1898

Farthest North Fridtjof Nansen,1897 ***Cold Words*** Bernadette Hince,2025-04 This ice breaking book collects the English words of the Antarctic and the Arctic for the first time These words relate to weather ice and snow auroras clothes food housing social structures wildlife plants politics as well as many other aspects of polar life The terms are presented with scientific precision a helpful interpretative commentary and moments of whimsy Apart from Antarctica and the Arctic the regions covered here stretch to places as remote as the Faroe Islands Iceland Tristan da Cunha and the Falkland Islands

Farthest North Fridtjof Nansen,2011-05-15 First published in 1897 this two volume travel account chronicles Fridtjof Nansen s unsuccessful expedition to the North Pole ***Cornell's primary geography, ed. and adapted by W. Hughes*** William Hughes,1860 **U.S. Army Recruiting News** ,1929 **The Greatest Show in the Arctic** P. J. Capelotti,2016-05-06 In Gilded Age America Arctic explorers were fabulous celebrities assured of riches and near immortality so long as they reached the North Pole first Of the many attempts to meet that goal three American expeditions launched from the Russian archipelago of Franz Josef Land ended in abject failure their exploits consigned to near oblivion Even so these ventures the Wellman expedition 1898 99 the Baldwin Ziegler 1901 2 and the Fiala Ziegler 1903 5 have much to tell us about the personalities politics and economics of exploration in their day In *The Greatest Show in the Arctic* the first book to chronicle all three expeditions P J Capelotti explores what went right and what in the end went tragically wrong The cast of colorful characters from the Franz Josef Land forays included Walter Wellman a Chicago journalist and bon vivant running from debts

his mistress and an illegitimate daughter Evelyn Briggs Baldwin a deranged meteorologist with a fetish for balloons and a passion for Swedish conserves and Anthony Fiala a pious photographer in search of God in the Arctic Featuring an international cast of supporting characters worthy of a three ring circus The Greatest Show in the Arctic follows each of the three expeditions in turn from spectacular feats of financing to their bitter ends Along the way the explorers accumulated considerable geographic knowledge and left a legacy of place names Through close study of the expeditions journals Capelotti reveals that the Franz Josef Land endeavors foundered chiefly because of poor leadership and internal friction not for lack of funding as historians have previously suspected Presenting tales of noble intentions novel inventions and epic miscalculations The Greatest Show in the Arctic brings fresh life to a unique and underappreciated story of American exploration
