Fascism A Readers Guide Analyses Interpretations Bibliography:

Fascism Walter Laqueur, 1978 *Fascism. A reader's guide. Analyses, interpretations, bibliography. Ed. by W.[Z.] Laqueur, 1976* *The Future of Post-Human War and Peace* Peter Baofu, 2010-04-16 Is peace really so precious that it is popularly viewed in irenology peace studies of our time as natural and a prime force in human behavior whereas war its opposite is instead condemned as sinful and not natural In fact there is even the prestigious Nobel peace prize to be awarded to those who contribute to world peace but not an equivalent Nobel war prize to those who do the contrary This euphoric view of peace is by no means a constant conventional wisdom in human history as it can be sharply contrasted with an equally seductive view of war in polemology war studies For instance only several decades ago the well known writer Thomas Mann once approvingly asked about war Is not peace an element of civil corruption and war a purification a liberation an enormous hope WK 2009a This fickleness of conventional wisdom on war and peace has blinded us from the dark sides of both war and peace with the consequence of impoverishing our understanding of the human condition and its future Contrary to the two opposing sides of this conventional wisdom in its fickle history war and peace are neither possible nor desirable to the extent that their respective ideologues would like us to believe In addition war and peace cannot exist with each other Of course this is not to suggest that irenology peace studies and polemology war studies are worthless or that other fields of study related to war studies and peace studies like political science economics psychology sociology international relations history anthropology religious studies gender studies as well as a variety of others should be ignored WK 2009 Needless to say neither of these two extreme views is reasonable either Instead this book accepts the challenging task to provide an alternative better way to understand the nature of war and peace especially in relation to aggression and pacificity while learning from different approaches in the literature but without favoring any one of them nor integrating them since they are not necessarily compatible with each other Thus this book offers a new theory to transcend the existing approaches in the literature on war and peace in a way not conceived before If successful this seminal project is to fundamentally change the way that we think about war and peace from the combined perspectives of the mind nature society and culture with enormous implications for the human future and what I originally called its post human fate **Europe between Democracy and Dictatorship** Conan Fischer, 2011-06-13 Fischer offers a captivating analysis of Europe's turbulent history during the first half of the twentieth century from the optimism at the turn of the century to the successive waves of destruction of the First and Second World Wars Written by a leading authority in this field the book draws upon his areas of expertise Reflects the most recent scholarship in this period of history While laying stress on Europe's major powers and the seminal events of the earlier twentieth century Fischer pays due attention to the smaller European countries from the Atlantic to the Black Sea and the Baltic to the Mediterranean Extends beyond the political sociological and economic paradigms to include extensive references to the European cultural scene Organized both as a broad chronology and

thematically in order to allow for historical insights and entry into the key debates and literature *Industrialization in the Modern World* John Hinshaw, Peter N. Stearns, 2013-11-12 This unique two volume work analyzes the Industrial Revolution from a global perspective and traces its influences up to the present day encouraging students to rethink the significance of events past and present By taking a fresh approach to its topic Industrialization in the Modern World From the Industrial Revolution to the Internet enables students to see this ongoing phenomenon not as a standalone event but as a catalyst for the formation of today's globalized industrializing world Spanning the period from 1750 to the present the work offers some 450 entries that cover developments in Africa and Asia as well as in Europe and the United States Numerous essays are organized around specific questions or problems others examine significant events countries or industries The work deals with all the major aspects of traditional industrialization textiles coal steel as well as modern variations China computers the Internet With a targeted approach the authors will help students see how industrialization in one society influenced another how industrialization spread throughout the world and the causes and effects of each country's individual revolution Nazi Germany's New Aristocracy Herbert F. Ziegler, 2014-07-14 The first book length presentation on the social origins of the prewar SS leadership this volume offers a complete picture of the men who between 1925 and 1939 joined the vanguard of National Socialism and rose to the rank of SS F hrer Herbert Ziegler reveals that the Black Order was composed of people from all walks of life Young Gymnasium and university graduates rubbed elbows with former gardeners mechanics and office clerks while old fighters of the pre 1933 Nazi movement climbed the ladder of SS ranks alongside those who did not find their enthusiasm for Hitler's new order until after the Nazi seizure of power Within the confines of Heinrich Himmler's new knighthood was created a people's community in microcosm furnishing many a recruit a vehicle for upward social mobility Moving beyond earlier explanations of who provided the support for National Socialism Ziegler describes practices within the SS that were akin to a democracy of personnel selection and that resulted by 1939 in a leadership corps characterized by social heterogeneity rather than homogeneity Taking advantage of the detailed information contained in the thousands of SS personnel files located at the Berlin Document Center and using the tools of statistical analysis he also probes the connections between social reality and the ideological credos and promises of the Third Reich Originally published in 1990 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 *The Oxford Companion to Comparative Politics* Joel Krieger, 2013 The two volume Oxford Companion to Comparative Politics fills a gap in scholarship on an increasingly important field within Political Science Comparative Politics the discipline devoted to the politics of other countries or peoples has been steadily gaining

prominence as a field of study allowing politics to be viewed from a wider foundation than a concentration on domestic affairs would permit. Comparativists apply various theories and concepts to analyze the similarities and differences between political units using the results of their research to develop causalities and generalizations. Each of these theories and outcomes are thoroughly defined in the Companion as are major resultant conclusions. Those comparativists who have influenced the field in significant ways and politicians whose administrations have shaped the evaluation of contrasting governments. Approximately 200 revised and updated articles from the Oxford Companion to Politics of the World would serve as a foundation for the set while over 100 new entries would thoroughly examine the field in a lasting more theoretical than current event based way. New entries cover such topics as failed states, Grand Strategies and Soft Power. Important updates include such countries as China and Afghanistan and issues like Capital Punishment, Gender and Politics and Totalitarianism. Country entries include the most significant nations to permit a focus on non time sensitive analysis. In addition 25 1 000 word interpretive essays by notable figures analyze the discipline its issues and accomplishments. Collectively entries promote deeper understanding of a field that is often elusive to non specialists.

War and Democracy
Elizabeth Kier, 2021-08-15 Challenging the conventional wisdom that mass mobilization warfare fosters democratic reform and expands economic social and political rights War and Democracy reexamines the effects of war on domestic politics by focusing on how wartime states either negotiate with or coerce organized labor policies that profoundly affect labor s beliefs and aspirations. Because labor unions frequently play a central role in advancing democracy and narrowing inequalities their wartime interactions with the state can have significant consequences for postwar politics. Comparing Britain and Italy during and after World War I Elizabeth Kier examines the different strategies each government used to mobilize labor for war and finds that total war did little to promote political civil or social rights in either country. Italian unions anticipated greater worker management and a land to the peasants program as a result of their wartime service. British labor believed its wartime sacrifices would be repaid with homes for heroes and the extension of social rights. But Italy s unjust and coercive policies radicalized Italian workers prompting a fascist backlash and Britain s just and conciliatory policies paradoxically undermined broader democratization in Britain. In critiquing the mainstream view that total war advances democracy War and Democracy reveals how politics during war transforms societal actors who become crucial to postwar political settlements and the prospects for democratic reform.

A History of Italian Fascist Culture, 1922-1943 Alessandra Tarquini, 2022-04-12 Alessandra Tarquini s A History of Italian Fascist Culture 1922 1943 is widely recognized as an authoritative synthesis of the field. The book was published to much critical acclaim in 2011 and revised and expanded five years later. This long awaited translation presents Tarquini s compact clear prose to readers previously unable to read it in the original Italian. Tarquini sketches the universe of Italian fascism in three broad directions: the regime s cultural policies, the condition of various art forms and scholarly disciplines and the ideology underpinning the totalitarian state. She details

the choices the ruling class made between 1922 and 1943 revealing how cultural policies shaped the country and how intellectuals and artists contributed to those decisions The result is a view of fascist ideology as a system of visions ideals and above all myths capable of orienting political action and promoting a precise worldview Building on George L Mosse s foundational research Tarquini provides the best single volume work available to fully understand a complex and challenging subject It reveals how the fascists used culture art cinema music theater and literature to build a conservative revolution that purported to protect the traditional social fabric while presenting itself as maximally oriented toward the future

Fighting the Last War Jeffrey M. Bale,Tamir Bar-On,2024-01-24 The authors argue that the potential threat of a resurgence of fascism has been consistently exaggerated from 1945 until present day that the ongoing lack of conceptual and definitional clarity with respect to terms like fascism the radical right the alt right white supremacism populism racism etc has enabled ill informed or dishonest commentators to distort their meaning and abusively misapply those labels so as to delegitimize their political opponents and that the political and economic elites in charge of contemporary Western societies are now deliberately exaggerating and exploiting the threat posed by the domestic radical right in order to facilitate vilifying harassing de platforming censoring canceling and repressing disgruntled citizens no matter where they may lie along the political spectrum who openly criticize and vigorously oppose their agendas The authors also advocate the use of well established scholarly methods for carrying out research on the right and provide precise definitions of various terms in order to facilitate the development of more accurate categorizations

Decades of Crisis Ivan T. Berend,2023-11-15 Only by understanding Central and Eastern Europe s turbulent history during the first half of the twentieth century can we hope to make sense of the conflicts and crises that have followed World War II and after that the collapse of Soviet controlled state socialism Ivan Berend looks closely at the fateful decades preceding World War II and at twelve countries whose absence from the roster of major players was enough in itself he says to precipitate much of the turmoil As waves of modernization swept over Europe the less developed countries on the periphery tried with little or no success to imitate Western capitalism and liberalism Instead they remained as Berend shows rural agrarian societies notable for the tenacious survival of feudal and aristocratic institutions In that context of frustration and disappointment rebellion was inevitable Berend leads the reader skillfully through the maze of social cultural economic and political changes in Hungary Czechoslovakia Yugoslavia Poland Romania Bulgaria Albania Austria Latvia Lithuania Estonia and the Soviet Union showing how every path ended in dictatorship and despotism by the start of World War II Only by understanding Central and Eastern Europe s turbulent history during the first half of the twentieth century can we hope to make sense of the conflicts and crises that have followed World War II and after that the collapse of Soviet controlled st

The Fascist Faith of the Legion "Archangel Michael" in Romania, 1927-1941 Constantin Iordachi,2022-12-30 The Fascist Faith of the Legion Archangel Michael in Romania 1927 1941 engages critically with recent works on fascism totalitarianism and religion and advances an original theoretical

and methodological approach to fascism as a political faith On this basis the book constructs an innovative comparative research framework for reconceptualizing the history of the Legion Archangel Michael in Romania 1927 1941 It contends that the Legion put forward a palingenetic political faith of a theological type called Legionarism To provide a comprehensive analysis of the origins main features mechanisms of institutionalization and demise of this self proclaimed salvific political faith the book documents the palingenetic foundations of the Legionary faith the syncretism between fascist and Christian rites and rituals and the intricate relationship between the Legion and the Orthodox Church and its dogma The book documents three main sacrificial strategies employed by the Legion to re evangelize the people in the new faith 1 the appropriation of the cult of the fallen soldiers 2 terrorist missions meant to create fascist heroes through violent sacrifice and 3 sanctification through heroic fight for Christianity in the Spanish Civil War in an attempt to link Legionarism with the transnational crusade against Judeo Bolshevism As well as providing a detailed historical and interpretive account of the Legion the book makes a significant contribution to debates about defining fascism and its relation to religion It also provides novel comparative perspectives for studying other attempts at constructing fascist faiths in interwar Europe most notably in Fascist Italy and Nazi Germany but also in Central and Eastern Europe This book will be of interest to students and scholars of fascism Romanian studies politics and religion political theory totalitarianism youth radicalization violence and the emergence of terrorism

A Monastery for the Ibex Wilko Graf von Hardenberg, 2021-02-23 Gran Paradiso National Park is Italy's oldest and was instrumental in preventing the extinction of the Alpine ibex between World War I and just after World War II Today there are more than 30 000 ibex living in the Alps all of which descended from that last colony protected in Gran Paradiso under Mussolini's rule Wilko Graf von Hardenberg merges the history of conservation with the area's social history and Italy's larger political history to produce a multifaceted narrative about the park as an institution the conflicts it triggered and practices adopted to manage the ibex despite hurdles placed by the fascist regime The book's central argument is that in fascist Italy preservation propaganda notwithstanding was a product of the regime's continuities with the previous liberal system Italy's total fascist transformation accomplished only more than a decade after Mussolini took power virtually unmade the early successes of preservation set in place by the nascent nature state in the regime's early years Despite this conflict conservationists succeeded in preserving the ibex Hardenberg positions this success within the broader history of science conservation and tourism in fascist Italy and the Alpine region creating a comprehensive historical background and comparative reference to ongoing debates about the role of nature conservation in general and in relation to the state and its agencies

The Struggle for Development and Democracy: A General Theory Alessandro Olsaretti, 2023-03-13 In *The Struggle for Development and Democracy* Alessandro Olsaretti argues that we need significantly new theories of development and democracy to answer the problem posed by neoliberalism and the populist backlash namely uneven development and divisive politics heightened by the 9 11 attacks This volume proposes a general theory of

development and democracy as part of a unified theory of power emphasizing that development needs markets civil society and the state and also the proper networks and interactions amongst markets civil society and the state Imperialism undermines these interactions and turns countries into providers of cheap land or labour This book begins to sketch the mechanisms at work and to answer one question how did imperialist elites build their power All royalties from sales of this volume will go to GiveWell org in honour of Alessandro Olsaretti s memory *From Hitler to Codreanu* Carlos Manuel Martins,2020-12-30 This book examines fascist ideology in seven leaders of parties and movements in the interwar period It makes use of the conceptual morphological approach focused on core and adjacent concepts as well as on the interlinkages between them With such an approach the book seeks to offer an innovative perspective on fascism and arrive at a conceptual configuration of fascist ideology capable of highlighting its main concepts and combinations Furthermore it examines the major texts of seven leaders from Germany Italy the UK Portugal Spain France and Romania Adolf Hitler Benito Mussolini Oswald Mosley Rol o Preto Primo de Rivera Marcel D at and Corneliu Codreanu With the conceptual approach the book reasserts the possibility of finding a definition of generic fascism at the same time as depicting the ideological varieties espoused by each leader This title will be of interest to students and scholars of fascism extremism and the far right **The Rage of Nations** Edward R. Kantowicz,1999 In the first volume of a two volume set Canadian historian Kantowicz describes the events people and ideas driving the world s social and political course through two world wars the Holocaust revolutions depressions and other phenomena Covers from the beginning of the century through World War II Coming Apart Coming Together will presumably take the story from there Annotation copyrighted by Book News Inc Portland OR **Mussolini** Richard J. B. Bosworth,2014-03-04 In 1945 disguised in German greatcoat and helmet Mussolini attempted to escape from the advancing Allied armies Unfortunately for him the convoy of which he was part was stopped by partisans and his features made so familiar by Fascist propaganda gave him away Within 24 hours he was executed by his captors joining those he sent early to their graves as an outcome of his tyranny at least one million people He was one of the tyrant killers who so scarred interwar Europe but we cannot properly understand him or his regime by any simple equation with Hitler or Stalin Like them his life began modestly in the provinces unlike them he maintained a traditonal male family life including both wife and mistresses and sought in his way to be an intellectual He was cruel though not the cruellest his racism existed but never without the consistency and vigor that would have made him a good recruit for the SS He sought an empire but in the most part his was of the old fashioned costly nineteenth century variety not a racial or ideological imperium And self evidently Italian society was not German or Russian the particular patterns of that society shaped his dictatorship Bosworth s Mussolini allows us to come closer than ever before to an appreciation of the life and actions of the man and of the political world and society within which he operated With extraordinary skill and vividness drawing on a huge range of sources this biography paints a picture of brutality and failure yet one tempered with an understanding of Mussolini as a human being not

so different from many of his contemporaries The definitive study of the Italian dictator Library Journal **Alan S. Milward and Contemporary European History** Fernando Guirao, Frances M.B. Lynch, 2015-10-14 Alan S Milward was a renowned historian of contemporary Europe In addition to his books as well as articles and chapters in edited books he also wrote nearly 250 book reviews and review articles some in French and German which were published in journals world wide Taken together they reveal a remarkable degree of theoretical consistency in his approach to understanding the history of Europe since the French Revolution This book brings together these previously unexamined pieces of historical analysis in order to trace and shed light on key intellectual debates taking place in the second half of the 20th century Many of these discussions continue to influence us today such as the role of Germany in Europe the economic social and political foundations of European integration the European rescue of the nation state the reasons for launching the single currency the conditions for retaining the allegiance of European citizens to the notions of nation and supra nation and ultimately the issue of democratic governance in a global environment In bringing together these reviews and review articles the book provides an introduction to the main scholarly achievements of Milward in his own words Fernando Guirao and Frances M B Lynch provide an introduction to the volume which both guides the reader through many of the academic debates embedded within the text while underlining their contemporary relevance By introducing and bringing together this hitherto overlooked treasure trove of historical analysis this book maps a close itinerary of some of the most salient intellectual debates of the second half of the 20th century and beyond This unique volume will be of great interest to scholars of economic history European history and historiography **The Birth of Fascist Ideology** Zeev Sternhell, Mario Sznajder, Maia Ashéri, 1994 When The Birth of Fascist Ideology was first published in 1989 in France and at the beginning of 1993 in Italy it aroused a storm of response positive and negative to Zeev Sternhell s controversial interpretations In Sternhell s view fascism was much more than an episode in the history of Italy He argues here that it possessed a coherent ideology with deep roots in European civilization Long before fascism became a political force he maintains it was a major cultural phenomenon This important book further asserts that although fascist ideology was grounded in a revolt against the Enlightenment it was not a reactionary movement It represented instead an ideological alternative to Marxism and liberalism and competed effectively with them by positing a revolt against modernity Sternhell argues that the conceptual framework of fascism played an important role in its development Building on radical nationalism and an antimaterialist revision of Marxism fascism sought to destroy the existing political order and to uproot its theoretical and moral foundations At the same time its proponents wished to preserve all the achievements of modern technology and the advantages of the market economy Nevertheless fascism opposed every bourgeois value universalism humanism progress natural rights and equality Thus as Sternhell shows the fascists adopted the economic aspect of liberalism but completely denied its philosophical principles and the intellectual and moral heritage of modernity *Conservatism from the French Revolution to the 1990s* Pekka Suvanto, trans Roderick

Fletcher,2016-03-07 Suvanto has studied the political and ideological conservatism of Britain the United States Germany and France with references to Scandinavian countries He also discusses the nature of traditionalism and its influence on the development of conservatism Suvanto emphasizes the pragmatism and the consistency of conservatism It has played a great part in the collapse of communism Suvanto s book was first published in Finnish in 1994 and it was chosen as the best historical book in Finland in that year

The Enthralling Realm of E-book Books: A Detailed Guide Unveiling the Benefits of E-book Books: A World of Ease and Flexibility Kindle books, with their inherent portability and simplicity of access, have liberated readers from the constraints of physical books. Gone are the days of lugging bulky novels or meticulously searching for particular titles in bookstores. Kindle devices, stylish and lightweight, effortlessly store an wide library of books, allowing readers to indulge in their preferred reads anytime, everywhere. Whether traveling on a busy train, relaxing on a sunny beach, or simply cozing up in bed, Kindle books provide an unparalleled level of convenience. A Reading World Unfolded: Discovering the Vast Array of E-book Fascism A Readers Guide Analyses Interpretations Bibliography Fascism A Readers Guide Analyses Interpretations Bibliography The E-book Shop, a digital treasure trove of literary gems, boasts an wide collection of books spanning varied genres, catering to every readers taste and choice. From captivating fiction and mind-stimulating non-fiction to timeless classics and modern bestsellers, the E-book Shop offers an unparalleled abundance of titles to discover. Fascism A Readers Guide Analyses Interpretations Bibliography Introduction

In the digital age, access to information has become easier than ever before. The ability to download Fascism A Readers Guide Analyses Interpretations Bibliography has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Fascism A Readers Guide Analyses Interpretations Bibliography has opened up a world of possibilities. Downloading Fascism A Readers Guide Analyses Interpretations Bibliography provides numerous advantages

over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Fascism A Readers Guide Analyses Interpretations Bibliography has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Fascism A Readers Guide Analyses Interpretations Bibliography. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Fascism A Readers Guide Analyses Interpretations Bibliography. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Fascism A Readers Guide Analyses Interpretations Bibliography, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download Fascism A Readers Guide Analyses Interpretations Bibliography has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.

FAQs About Fascism A Readers Guide Analyses Interpretations Bibliography Books

1. Where can I buy Fascism A Readers Guide Analyses Interpretations Bibliography books? Bookstores: Physical

- bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
2. What are the different book formats available? Hardcover: Sturdy and durable, usually more expensive. Paperback: Cheaper, lighter, and more portable than hardcovers. E-books: Digital books available for e-readers like Kindle or software like Apple Books, Kindle, and Google Play Books.
