

Benito Mussolini (1883-1945)

- Mussolini had a talent for moving crowds of people with his powerful speeches and for manipulating public opinion.
- Mussolini established an organization that:
 - Advocated aggressive nationalism
 - Opposed the Communists and Socialists
 - Dressed in black shirts
- In 1921 he was elected to parliament and the **National Fascist Party** was officially organized.

Fascism As A Totalitarian Move

E Durkheim

Fascism As A Totalitarian Move:

Fascism, Totalitarianism and Political Religion Roger Griffin, 2013-09-13 9 11 and its aftermath demonstrate the urgent need for political scientists and historians to unravel the tangled relationship of secular ideologies and organized religions to political fanaticism This major new volume uses a series of case studies by world experts to further our understanding of these complex issues They examine the connections between fascism political religion and totalitarianism by exploring two inter war fascist regimes two abortive European movements and two post war American extreme right wing movements with contrasting religious components A highlight of this collection is a fresh article from Emilio Gentile recently awarded an international prize for his contributions to our appreciation of the central role played by political religion in the modern age This is preceded by an editorial essay by Roger Griffin one of fascist studies most original thinkers Alongside these contributions the reader is presented with a wealth of work that redefines the complex concept of totalitarian movement and our understanding of generic Fascism Taken as a whole it comprehensively analyses the links between particular totalitarian movements and regimes and the concrete historical phenomena produced in the light of current radical theories of fascism totalitarianism and political religion This book will be of great interest to all students and scholars of international relations politics and contemporary history This volume was previously published as a special issue of the journal *Totalitarian Movements and Political Religions*

Totalitarianism and Political Religions Hans Maier, 2004 This book shows how new models by which to understand political history arose from the experience of modern despotic regimes Here the totalitarianism and political religions are discussed and tested in terms of their usefulness Hannah Arendt's Response to the Crisis of Her Times Anthony Court, 2008 *The Totalitarian Experiment in Twentieth Century Europe* David Roberts, 2006-04-27 By developing a long term supranational perspective this ambitious multi faceted work provides a new understanding of totalitarianism the troubling common element linking Soviet communism Italian fascism and German Nazism The book's original analysis of antecedent ideas on the subject sheds light on the common origins and practices of the regimes Through this fresh appreciation of their initial frame of mind Roberts demonstrates how the three political experiments yielded unprecedented collective mobilization but also a characteristic combination of radicalization myth making and failure Providing deep historical analysis the book proves that totalitarianism best characterizes the common features in the originating aspirations the mode of action and even the outcomes of Soviet communism Italian fascism and German Nazism By enhancing our knowledge of what totalitarianism was and where it came from Roberts affords important lessons about the ongoing challenges possibilities and dangers of the modern political experiment

Totalitarianism and Political Religions Volume III Hans Maier, 2008 *Totalitarianism and Political Religions, Volume II* Hans Maier, Michael Schäfer, 2007-12-24 *Totalitarianism and Political Religions Volume II* available for the first time in English translation features contributions from leading scholars of political extremism sociology and modern history Based upon a seminal

conference on political religions edited by eminent Professor Hans Maier the book seeks to define the term and explore its application to the interpretation of a wide variety of totalitarian movements in Europe in the twentieth century **Beyond the Fascist Century** Constantin Iordachi, Aristotle Kallis, 2020-11-11 This book evaluates the current and future state of fascism studies reflecting on the first hundred years of fascism and looking ahead to a new era in which fascism studies increasingly faces fresh questions concerning its relevance and the potential reappearance of fascism This wide ranging work celebrates Roger Griffin s contributions to fascism studies in conceptual and definitional terms but also in advancing our understanding of fascism which have informed related research in a number of fields and directions since the 1990s Bringing together three generations of fascism scholars the book offers a combination of broad conceptual essays and contributions focusing on particular themes and facets of fascism The book features chapters which although diverse in their approaches explore Griffin s work while also engaging critically with other schools of thought As such it identifies new avenues of research in fascism studies placing Griffin s work within the context of new and emerging voices in the field Freedom as Motion Leslie Dale Feldman, 2001 In Freedom as Motion Leslie Dale Feldman explores the American concepts of freedom individualism and liberal culture and how they are closely tied to Thomas Hobbes notion of free movement In chapter XXI of Leviathan Hobbes describes freedom as the absence of opposition to motion This idea of freedom as motion has flourished in America where the emphasis on individualism is greatest Feldman explores the evolution of this concept through Western and American history and also the theoretical connection that exists in reality at the level of simple daily life Hobbes theory of freedom as motion becomes the central metaphor of liberalism and forms the basis for the American conception of freedom today This book will prove thought provoking to students of Western and American Political Theory as well as students of American History and Culture *Colin Jordan and Britain's Neo-Nazi Movement* Paul Jackson, 2016-12-15 Colin Jordan and Britain s Neo Nazi Movement casts fresh light on one of post war Britain s most notorious fascists using him to examine the contemporary history of the extreme right The book explores the wide range of neo Nazi groups that Colin Jordan led contributed to and inspired throughout his time as Britain s foremost promoter of Nazi ideology In a period stretching from the close of the Second World War right up to the 2000s Colin Jordan became politically engaged with a multitude of Nazi inspired extremist groups either as leader or as a key protagonist Moreover Jordan also developed critical relationships with larger competitor extreme right organisations and parties including the Mosley s Union Movement the National Front and the most recent incarnation of the British National Party He fostered a number of transnational links throughout his years of activism as well especially with American neo Nazis In recent years his writings and somewhat idealised profile have been adopted by more contemporary extremist organisations such as the British People s Party and a rekindled British Movement who look to Jordan as an inspirational figure for their own reconfigurations of a National Socialist agenda By examining this history drawing on a wide range of fresh primary sources Colin Jordan and Britain s Neo

Nazi Movement offers a new analysis on the nature and workings of Nazi inspired political extremism in post war Britain It is an important study for anyone interested in the history of fascism extreme ideologies and the political and social history of Britain since the Second World War

The Tragedy of European Civilization Harry Redner,2017-09-08 The tragedy of European civilization is a protracted historical event spanning the twentieth century and in many ways is ongoing During this time some of the greatest modern thinkers were active producing works that both reflected what was happening in history and contributed towards shaping it This work is a critique of their ideas Harry Redner establishes where and how they went wrong in some cases with apocalyptic consequences for Europe and the world The great intellectuals of the age at once philosophers sociologists political theorists historians and much else besides include Marx Weber Freud Elias Spengler Wittgenstein Heidegger Arendt Nietzsche and Foucault All of them had a historical impact even if only in molding academic disciplines and shaping of public opinion as was the case with the philosophers Wittgenstein and Arendt This book explores the close links between anti Semitism and cultural pessimism and the relation between psychology and sociology Other themes range from the history and theory of the state to the misconception of language and power Suitable for students of sociology philosophy political theory history and cultural studies this brilliant exploration of our civilization and its tragedies will also be of interest to intellectual general readers

The Extreme Right in France James Shields,2007-05-07 As well as providing a detailed biography of Le Pen the leader of the National Front in France this book also explores the wider development of the extreme right as a significant intellectual and political force within France

The Public Realm Reiner Schurmann,1988-12-08 This book offers a collection of essays in contemporary political philosophy from a wide range of Continental viewpoints The authors include some of the most prominent European and European oriented philosophers and political thinkers of our day Two sections out of four focus on the debate between prescriptive and descriptive types of political thinking On the prescriptive or normative side Karl Otto Apel Robert Paul Wolff Robert Spaemann Hans Jonas and Jean Francois Lyotard discuss current forms of legitimating political life via some ultimate grounding On the descriptive or phenomenological side Bernhard Waldenfels Michel Henry William J Richardson Jürgen Link and Vincent Descombes argue that an understanding of praxis is always implied as one reaches insights into the life world there is no need to either construe or set normative standards for action The remaining two sections deal with transcendental and institutional types of political philosophy respectively Manfred Riedel Stanley Rosen Thomas Seeböhm and Ludwig Siep develop Kant's search for a priori conditions in the public realm explicitly or implicitly they confront the ancient Greek with the modern Enlightenment conceptions of life in public Lastly Agnes Heller Alain Touraine Reinhart Koselleck and Bertram Schefold put to work many ways of looking at the life of our institutions

Politics of Mass Society William Kornhauser,2013-04-15 The Politics of Mass Society explores the social conditions necessary for democracy and the vulnerabilities of large scale society to totalitarian systems Mass movements mobilize people who are alienated from the social system who do not believe in the legitimacy of

the established order and who are therefore ready to engage in efforts to destroy Contrary to the psychological approach prevalent in European doctrines of mass movements Kornhauser persuasively argues that social order is the critical factor The greatest number of people available to mass movements are located in those segments of society that have the fewest ties to social order The book draws on a wide range of materials from classical political theory contemporary sociological analysis historical and intuitional studies public opinion surveys and other published and unpublished data Kornhauser selected political phenomena in organizations communities classes and whole societies He examined support for communism and fascism in a variety of countries in relation to rates of urbanization and industrialization employment suicide and homicide among other phenomena In his new introduction Irving Louis Horowitz identifies Kornhauser's book as a seminal work of the great tradition in political sociology at mid twentieth century Kornhauser points out that modern democratic systems possess a distinct vulnerability to mass movements He spells out and identifies factors that tend to increase or decrease this vulnerability not least the health and strength of elites In this way the book reveals new clues to the origins and nature of mass political movements The Politics of Mass Society remains the most complete analytical account of the sociological approach to mass society in advanced industrial societies Modernism and Totalitarianism Richard Shorten, 2012-11-15 What is totalitarianism In what ways was it modern Modernism and Totalitarianism argues that conventional theories of totalitarianism are too focused on the state and fail to take note of its ideological trajectory The book analyses this trajectory shared by Nazism and Stalinism the two instances of totalitarianism in its classical form The ideological trajectory was formed in the interaction of three currents of modernist thought utopianism scientism and revolutionary violence Developing first of all in the nineteenth century and in reaction to the Enlightenment mainstream each of these three currents contributed to the idea of the totalitarian New Man The book considers a broad range of theoretical positions including those associated with Cold War liberalism critical theory and recent anti totalitarian thought in France in order to develop these arguments The Totalitarian Experiment in Twentieth-century Europe David D. Roberts, 2006 By assessing totalitarianism in a more deeply historical way this study suggests how we might learn further lessons from this troubling phase of modern political development Jacket **Journal of a Dissenter** Chris Wright, 2025-01-20 This is a lengthy intellectual journal by a political radical that ranges over a variety of subjects such as Marxism capitalism history many schools of modern philosophy psychology economics and contemporary American politics It also includes quite a few personal passages but I've kept those only because they express common experiences and youthful psychological tendencies Its most useful content for students might be its many summaries of good historical and scientific scholarship especially in the journal's second half Ultimately the document is a fairly comprehensive expression of a particular society as refracted through an inquisitive and critical mind from the ages of 15 to 44 **The Origins of Totalitarianism** Hannah Arendt, 1973 How could such a book speak so powerfully to our present moment The short answer is that we too live in dark times even if

they are different and perhaps less dark and Origins raises a set of fundamental questions about how tyranny can arise and the dangerous forms of inhumanity to which it can lead Jeffrey C Isaac The Washington Post Hannah Arendt's definitive work on totalitarianism and an essential component of any study of twentieth century political history The Origins of Totalitarianism begins with the rise of anti-Semitism in central and western Europe in the 1800s and continues with an examination of European colonial imperialism from 1884 to the outbreak of World War I Arendt explores the institutions and operations of totalitarian movements focusing on the two genuine forms of totalitarian government in our time Nazi Germany and Stalinist Russia which she adroitly recognizes were two sides of the same coin rather than opposing philosophies of Right and Left From this vantage point she discusses the evolution of classes into masses the role of propaganda in dealing with the nontotalitarian world the use of terror and the nature of isolation and loneliness as preconditions for total domination

La Grande Italia Emilio Gentile, 2009 La Grande Italia traces the history of the myth of the nation in Italy along the curve of its rise and fall throughout the twentieth century Starting with the festivities for the fiftieth anniversary of the unification of Italy in 1911 and ending with the centennial celebrations of 1961 Emilio Gentile describes a dense sequence of events from victorious Italian participation in World War I through the rise and triumph of Fascism to Italy's transition to a republic Gentile's definition of Italians encompasses the whole range of political cultural and social actors Liberals and Catholics Monarchists and Republicans Fascists and Socialists La Grande Italia presents a sweeping study of the development of Italian national identity in all its incarnations throughout the twentieth century This important contribution to the study of modern Italian nationalism and the ambition to achieve a great Italy between the unification of Italy and the advent of the Italian Republic will appeal to anyone interested in modern European history Fascism and nationalism Best Books for Special Interests selected by the American Association of School Librarians and Best Books for Regional General Interests selected by the Public Library Association

Neojihadism Peter Lentini, 2013-01-01 Many years after 9/11 we are still struggling to categorize groups like Al Qaeda home grown cells and others that claim to be perpetrating and justifying terrorist acts under the banner of jihad This book introduces the concept of neojihadism as a new form of political organization grand narrative global subculture counterculture and theological understanding with an approach to political violence that is unique to the post Cold War period What these groups espouse and enact differs radically from fascism totalitarianism cults jihad and even jihadism Neojihadism takes an interdisciplinary approach that fuses comparative politics subcultural studies Islamic studies and terrorism studies It cites examples from global regional and nationally based terrorist groups to illustrate the diversity within the movement Additionally it draws from unique primary materials including recorded conversations of terrorists preparing for attacks captured by electronic bugging devices and telephone wiretaps to help to test the extent to which the term neojihadism is a significant political and theological departure from previous Islamist group experiences This fascinating book will be an invaluable resource for academics and undergraduate and postgraduate students of terrorism

studies political science international relations comparative religion and Islamic studies *Totalitarian and Authoritarian Regimes* Juan José Linz, 2000 Originally a chapter in the Handbook of Political Science this analysis develops the fundamental distinction between totalitarian and authoritarian systems It emphasizes the personalistic lawless non ideological type of authoritarian rule the author calls the sultanistic regime

Embracing the Song of Appearance: An Psychological Symphony within **Fascism As A Totalitarian Move**

In a global taken by screens and the ceaseless chatter of instantaneous conversation, the melodic splendor and emotional symphony developed by the written term usually diminish in to the background, eclipsed by the constant sound and disturbances that permeate our lives. Nevertheless, set within the pages of **Fascism As A Totalitarian Move** an enchanting literary treasure full of organic feelings, lies an immersive symphony waiting to be embraced. Constructed by a wonderful composer of language, that charming masterpiece conducts viewers on an emotional trip, well unraveling the concealed tunes and profound affect resonating within each cautiously constructed phrase. Within the depths of the touching assessment, we will explore the book is central harmonies, analyze its enthralling writing model, and submit ourselves to the profound resonance that echoes in the depths of readers souls.
