Culturally Responsive Approaches to Evaluation Jill Anne Chouinard, Fiona Cram, 2019-09-27 Evaluators have always worked in diverse communities and the programs they evaluate are designed to address often intractable socio political and economic issues Evaluations that explicitly aim to be more responsive to culture and cultural context are however a more recent phenomenon In this book Jill Anne Chouinard and Fiona Cram utilize a conceptual framework that foregrounds culture in social inquiry and then uses that framework to analyze empirical studies across three distinct cultural domains of evaluation practice Western Indigenous and international development Culturally Responsive Approaches to Evaluation provide a comparative analysis of these studies and discuss lessons drawn from them in order to help evaluators extend their current thinking and practice They conclude with an agenda for future research *Social Identity and Intergroup Relations* Henri Tajfel, 2010-06-24 This study explores the relationship between social groups and their conflicts *Accounting for Aggression* Gerda Siann, 2024-08-08 The despair and incomprehension that often seem to be the only possible response to acts of aggression and violence have led to attempts by academics and writers from a wide variety of backgrounds to understand and explain such behaviour The concern and anxiety that is felt by many people about this subject is such that some of their accounts notably by Konrad Lorenz Desmond Morris Robert Ardrey and Anthony Storr have become popular and even best selling books Originally published in 1985 Accounting for Aggression provides a comprehensive synthesis and assessment of these writings and other contemporary theory and research on aggression and violence at the time The author presents a variety of accounts of aggression drawing on original work in the areas of biology sociobiology ethology psychology and sociology Each account is evaluated according both to the criteria of scientific methodology and to the extent to which it illuminates our understanding and appears to have a lasting explanatory value In the last chapter the author presents an integrative approach to the subject area which synthesizes those findings for which there appears to be substantial empirical support within a framework of the meaning that aggressive and violent behaviour offers to those who carry it out Accounting for Aggression will be of great value to students and practitioners in the fields of psychology psychiatry social work and education Furthermore it will be welcomed by interested members of the general public who are concerned with issues such as whether or not violence is inherent in human nature the extent to which interpersonal violence is related to group violence and the extent to which violence in the media affects violent behaviour **Fascists** Michael Billig, 1978 *Intergroup Relations* Michael A. Hogg, Dominic Abrams, 2001 This anthology examines Love s Labours Lost from a variety of perspectives and through a wide range of materials Selections discuss the play in terms of historical context dating and sources character analysis comic elements and verbal conceits evidence of authorship performance analysis and feminist interpretations Alongside theater reviews production photographs and critical commentary the volume also includes essays written by practicing theater artists who have worked on the play An index by name literary work and concept rounds

out this valuable resource A London Bibliography of the Social Sciences British Library of Political and Economic Science,1931 Vols 1 4 include material to June 1 1929 El porvenir de la psicología ,1985 **Psychology, Humour and Class** Babak Fozooni,2020-03-27 This challenging book critically examines three forms of contemporary psychology all displaying various signs of crisis through analogy with humour associated with three different class perspectives mainstream psychology critical psychology and postpsychology By fusing the best of the three psychologies with political and cultural critiques the book poses the question what if class conflict and the crises of psychology are related This is precisely the Gordian Knot which Fozooni tries to untangle First the author demonstrates how psychology has traditionally veered towards either an upper class or a middle class paradigm With the demise of these two old paradigms a new understanding of psychology is gradually emerging a postpsychology Describing how mainstream and critical psychologies are undergoing late life crisis and postpsychology is experiencing its birth pangs in an environment hostile to its existence the book provides an alternative narrative of psychology The author suggests that whilst all three forms of psychology have contributed to our self comprehension it is only postpsychology that possesses the attributes necessary for a global remaking of humanity Tackling the discipline of psychology head on Fozooni pits against it a series of scathing yet tongue in cheek critiques making this fascinating and provocative reading for all students and academics interested in psychology as well as the general reader
