*Time in Fashion* Caroline Evans, Alessandra Vaccari, 2020-07-09 Few phenomena embody the notion of time as well as fashion Fast moving and rooted in the now it s

constantly creating its own past through the process of rapid style change. Uniquely poised between the past and the future, fashion's relationship with time is unorthodox. Rather than considering time in the conventional sense, this anthology explores three alternative ways to think about fashion and time: the first identifies the seasonal nature of fashion as an industry and shows how this has impacted on workers and wearers alike; the second looks at fashion design as a ceaseless process of adaptation, reconstruction, and recombination of motifs in which nostalgia and revivals play their part; the third construes fashion's imaginary with its capacity for fantasy and myth-making as a form of alternate history that asks what if. Within this framework, key classic texts are juxtaposed with lesser-known ones in an interdisciplinary approach that includes philosophy, history, literature, media, and fashion design, ranging from the 18th century to the present. It will be of interest to anyone wishing to understand one of the most complex yet inescapable aspects of fashion: its relationship to time, and will be a critical resource for undergraduate and postgraduate students in the humanities and all those interested in fashion in all its creative, commercial, and cultural aspects.

*The Hosier & Glover's Gazette and Outfitter's Chronicle*, *Decentering Fashion on the Silk Roads* Stefanie Mallon, Galina Mihaleva, 2024-12-30 *Decentering Fashion on the Silk Roads* focuses on the dynamism of fashion, textile craft, heritage, and sustainability in Central Asia and beyond. The compelling series of accounts provides a comprehensive set of insights and impressions collected from both fashion academics, designers, and practitioners from around the globe who journeyed through Uzbekistan and Kazakhstan and from those who live and work in this region. It showcases ways in which local textile craft practices can inform the modern fashion industry into becoming more sustainable. The book opens by exploring the importance of the old Silk Roads crossing through the heart of the world in Central Asia, serving not only as trade routes but also allowing knowledge, art, and practices to be transmitted between the Orient and the Occident, enabling ideas to flourish and cultural dispositions to develop from Antiquity until Modernity. The unique set of chapters that follow examine and highlight the growing opportunities and lessons this region has to offer to Western fashion through local artistry and craft and points toward the urgent need to slow down and adopt responsible principles and practices. The book constitutes a warm appreciation of the experiences and grateful thanks to the many communities from all different backgrounds and ages who contributed. This rich travelogue is a refreshing resource for international scholars and postgraduate students studying and researching fashion theory and management in particular. It will also be of interest to anthropologists, cultural studies, and textiles scholars.

**Vogue** ,1999-10 Hang-Ups Benjamin Linley Wild, 2024-01-11 The Covid 19 pandemic heightened people s awareness of long standing inequalities within the fashion industry Amid calls for greater accountability and ethical awareness efforts are being made within and beyond the industry chiefly in the cultural and education sectors to decentralize fashion to make the conception creation and consumption of fashionable dress and appearance less western centric Supporting this premise Hang Ups argues that purposeful and permanent change within the fashion industry and fashion education is more likely if it is understood how the contemporary industry became western centric To institute effective change it is necessary to revert to first principles and understand how the fashion industry developed into what it is today During a period when the concepts of fashion history and culture are being intensely scrutinized and with suggestions they are reaching their nadir the imperative to understand the extent to which they relate and facilitate the presentation of people s fashionable bodies is urgent Hang Ups explores the origins and consequences of the fashion industry s western centrism by focusing on nine binaries defined in the crucible of empire that continue to be sites of negotiation as the west s traditions and ideals are contested by different cultural perspectives and changing global realities
