

210: *Three Bell*. Sail plan: Redrawn from builder's sail plan at National Maritime Museum.  
Reconstruction: Staysails; lower stunsail boom; foot of courses and lower stunsail; chain plates and deadeyes; almost all the braces. An unusual feature of this plan was that the builder had drawn the stunsails with their booms, yards, sheets and tacks in such detail.

211: In this typical example of a watercolour by the Dutch artist J. Spin, the *Ironside* (1855) is portrayed as a very lofty ship. The sky sails are filled about the royal masts, and the sky sail poles are long enough to carry moon sails. Scheepvaart Museum, Amsterdam.

partments; the foremost and aftermost compartments drained into the adjacent ones with adjustable cocks. Three boats were carried and the upper deck was of wood. The measurements were 171.0ft by 29.0ft by 16.7ft with tonnages of 649 nm and 730 om.

On her first voyage to Australia, an Adelaide paper said that she was 'the first iron vessel to visit this colony' and commented on her 'steamer-like' bow and 'beautifully clean run'. In the 'tween decks there was space for 250 passengers; further aft her 'cabins were fitted up with oak'. Maximum speed was given as 12% knots and the best day's run was 273 nautical miles.<sup>1</sup> On a load line length of 161ft-6in, the speed-length ratio works out at .98 for 12% knots, but to attain a high ratio of 1.25 a speed of 15.98 knots would have been required.

The first owners were Glasgow fleshers (butchers to Sassenach): John Bell held 32 shares, and William and Findlay Bell 16 shares apiece, so that the name of *Three Bell's* is entirely appropriate. They also owned shares in the wooden hulk *Three* (1839) in the same proportions. John Bell later held 32 shares in the extreme clipper named after him.

In the early 1850s iron ships were inevitably making history, so that besides the *Three Bell's* claim being the first iron ship to visit Adelaide, there is also a similar one in respect of Montreal, where she went on her maiden passage, returning to Glasgow in 16 days. In November 1850, she sailed for Adelaide and claimed a fast passage of 86 days from Cape Clear, Ireland, to the Adelaide light ship. She returned to Glasgow via Melbourne and Calcutta and on 24 March 1852 sailed from Glasgow for Melbourne, which she reached 96 days later. On a later Atlantic passage she stood by the sinking steamer *San Francisco* for a week and rescued over 200 passengers, a feat which was immortalised by Walt Whitman.<sup>2</sup> The Bell brothers retained ownership until she disappeared from Lloyd's Register after 1851.

The sail plan represented in figure 210 shows a lofty rig with three sky sails. The narrowness of the rig prevents overlap of the

yards, except in a single case, but this is fully compensated by a full suit of stunsails, the fore lower stunsail being unusually square. Reconstruction has been restricted to the following outline of the staysails, which have been accordingly drawn dotted; foot of the fore and main courses (the leeches were already drawn); braces; chain plates and deadeyes; and lower stunsail boom. It is unusual to find a builder's plan on which the stunsails and their gear have been so clearly drawn.

Another clipper launched in 1850 was the *Stormway*, whose design is referred to later in this chapter. With a similar beam to the *Three Bell's*, the *Stormway* was 14 feet shorter in length but one foot deeper, and not quite so sharp in the ends. The *Three Bell's* iron construction permitted a longer, narrower hull and this greater length in turn made a faster speed possible. Most of the iron clippers had a proportion of one beam to length and upwards.

### Cayman's 1794 Wreck of the Ten Sail

Margaret E. Leshikar-Denton, 2019-12-17 The greatest shipwreck disaster in the history of the Cayman Islands The story has been passed through generations for more than two centuries Details vary depending on who is doing the telling but all refer to this momentous maritime event as the Wreck of the Ten Sail Sometimes misunderstood as the loss of a single ship it was in fact the wreck of ten vessels at once comprising one of the most dramatic maritime disasters in all of Caribbean naval history Surviving historical documents and the remains of the wrecked ships in the sea confirm that the narrative is more than folklore It is a legend based on a historical event in which HMS Convert formerly L Inconstante a recent prize from the French and 9 of her 58 ship merchant convoy sailing from Jamaica to Britain wrecked on the jagged eastern reefs of Grand Cayman in 1794 The incident has historical significance far beyond the boundaries of the Cayman Islands It is tied to British and French history during the French Revolution when these and other European nations were competing for military and commercial dominance around the globe The Wreck of the Ten Sail attests to the worldwide distribution of European war and trade at the close of the eighteenth century In Cayman's 1794 Wreck of the Ten Sail Peace War and Peril in the Caribbean Margaret E Leshikar Denton focuses on the ships the people and the wreck itself to define their place in Caymanian Caribbean and European history This well researched volume weaves together rich oral folklore accounts invaluable supporting documents found in

archives in the United Kingdom Jamaica and France and tangible evidence of the disaster from archaeological sites on the reefs of the East End      **Southwest Cultural Resources Center Professional Papers** ,1983      *Maritime Archaeology* Lawrence E.
