Friedrich Meinecke And German Politics In The Twentieth Century:

Friedrich Meinecke and German Politics in the Twentieth Century Robert A. Pois, 2022-09-23 This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1972

Friedrich Meinecke and German Politics in the 20th Century Robert A. Pois, 1965 *Friedrich Meinecke and German Politics in the 20th Century* Robert A. Pois, 1965 *Politics and Culture in Twentieth-century Germany* William John Niven, James Jordan, 2003 This is the first book to examine this crucial relationship between politics and culture in Germany not only during the Nazi and Cold War eras but in periods when the effects are less obvious

How History Was Used in the Wars of the Twentieth Century Robert J. Norrell, 2023-09-25 *How History Was Used in the Wars of the Twentieth Century* Perpetual War for Perpetual Peace looks at how historical thinking shaped decisions for war and peace in Germany and the United States during the twentieth century It examines the writing and public careers of the leading historians in each nation Robert J Norrell suggests it is useful to analyze where the discipline of history has succeeded and failed to understand war and the many attempts to institute lasting peace The narrative of this book testifies to the avid commitment of historians statesmen and the public to understanding the past and how these lessons and perspectives can influence the present

Epistemology and Political Thought in Interwar Germany and Austria (1914 - 1945) Michael Dylan Rogers, 2025-09-08 This book offers a new perspective on the emergence of concepts that shaped the world set against the dramatic background of political upheaval and crisis of scientific knowledge that characterized interwar Germany and Austria On the one hand the political theoretical certainties of previous generations were rendered suddenly obsolete by the imperatives of total war On the other hand the old certainties of a reductive and deterministic conception of scientific knowledge had likewise been destabilized in this case by the revolutionary discoveries of Relativity Theory and Quantum Mechanics Among the philosophically literate intelligentsia of interwar Germany and Austria the juxtaposition of such radical epistemic and political insecurity created fertile ground for the cross pollination of ideas across disciplines Using a network oriented approach this book traces key lines of influence following the development dissemination and reinterpretation of concepts from domains of political thought to epistemology and back again It is of interest and importance to a broad range of readers interested in learning how the ideas of physicist philosophers like Albert Einstein and Werner Heisenberg shaped the paradigms within which major theorists like Walter Benjamin and Carl Schmitt opened up new horizons for political thought

Militarism, Imperialism, and Racial Accommodation (c) , 1992 1993 Mid South Sociological Association Book Award Robert E Park has long been recognized as one of the most influential thinkers in early American sociology yet virtually all of his works appearing before 1913 were published in popular magazines and were dismissed as

nonsociological muckraking In *Militarism Imperialism and Racial Accommodation An Analysis and Interpretation of the Early Writings of Robert E Park* Stanford M Lyman examines and reprints many of these little known works including Park s essays on German military organization his expos s of the atrocities committed by Belgium s Leopold II in the Congo State his studies of the black community in Winston Salem North Carolina and of Booker T Washington s agricultural education program at Tuskegee Alabama Lyman shows clearly that Park s essays written outside the academy formulated a far more complex perspective on modern modes of evil than any proposed by his contemporaries thereby influencing sociological debates for decades to come By writing his essays on topical subjects and by publishing them for a public audience Park dramatized his profound belief that the struggle to achieve racial accommodation and to establish a true and lasting democracy is a concern for all

The Seduction of Culture in German History Wolf Lepenies,2009-01-10 During the Allied bombing of Germany Hitler was more distressed by the loss of cultural treasures than by the leveling of homes Remarkably his propagandists broadcast this fact convinced that it would reveal not his callousness but his sensitivity the destruction had failed to crush his artist s spirit It is impossible to begin to make sense of this thinking without understanding what Wolf Lepenies calls *The Seduction of Culture in German History* This fascinating and unusual book tells the story of an arguably catastrophic German habit that of valuing cultural achievement above all else and envisioning it as a noble substitute for politics Lepenies examines how this tendency has affected German history from the late eighteenth century to today He argues that the German preference for art over politics is essential to understanding the peculiar nature of Nazism including its aesthetic appeal to many Germans and others and the fact that Hitler and many in his circle were failed artists and intellectuals who seem to have practiced their politics as a substitute form of art In a series of historical intellectual literary and artistic vignettes told in an essayistic style full of compelling aphorisms this wide ranging book pays special attention to Goethe and Thomas Mann and also contains brilliant discussions of such diverse figures as Novalis Walt Whitman Leo Strauss and Allan Bloom *The Seduction of Culture in German History* is concerned not only with Germany but with how the German obsession with culture sense of cultural superiority and scorn of politics have affected its relations with other countries France and the United States in particular

The 1848 Revolutions and European Political Thought Douglas Moggach,Gareth Stedman Jones,2018-02-22 The 1848 Revolutions in Europe that marked a turning point in the history of political thought are examined here in a pan European perspective

Thinkers of the Twentieth Century Elizabeth Devine,1983 **Heinrich Bruning and the Dissolution of the Weimar Republic** William L. Patch, Jr,William L. Patch,2006-03-30 Scholars have long debated whether Heinrich Br ning head of the German government from 1930 to 1932 was the last democratic chancellor of the Weimar Republic or the trailblazer of the Nazi dictatorship His memoirs published in 1970 damaged his reputation badly by terming the restoration of monarchy the crux of his policies This 1998 book is the first scholarly biography of Bruning in any language and offers a systematic analysis of the economic social foreign and

military policies of his cabinet as it sought to cope with the Great Depression With the help of newly available sources it clarifies the peculiar distortions in the memoirs showing that Chancellor Brüning intended to restore parliamentary democracy intact when the economic crisis passed He was curbing the Nazi menace successfully when President Hindenburg reactionary landowners and army generals eager for massive rearmament made the disastrously misguided decision to topple him

A Short Treatise on the Wealth and Poverty of Nations (1613) Antonio Serra, 2011 Although no less an authority than Joseph A Schumpeter proclaimed that Antonio Serra was the world's first economist he remains something of a dark horse of economic historiography *A Short Treatise on the Wealth and Poverty of Nations* presents for the first time an English translation of Serra's *Breve Trattato* 1613 one of the most famous tracts in the history of political economy The treatise is accompanied by Sophus A Reinert's illuminating introduction which explores its historical context reception and relevance for current concerns

Henry Kissinger and the American Approach to Foreign Policy Gregory D. Cleva, 1989 This analysis of Henry Kissinger's historical philosophy statecraft and views on international politics reveals Kissinger to be a transitional figure who urged a conversion of American foreign policy from an insular to a continental approach

Encyclopedia of Historians and Historical Writing Kelly Boyd, 2019-10-09 The *Encyclopedia of Historians and Historical Writing* contains over 800 entries ranging from Lord Acton and Anna Comnena to Howard Zinn and from Herodotus to Simon Schama Over 300 contributors from around the world have composed critical assessments of historians from the beginning of historical writing to the present day including individuals from related disciplines like Jürgen Habermas and Clifford Geertz whose theoretical contributions have informed historical debate Additionally the *Encyclopedia* includes some 200 essays treating the development of national regional and topical historiographies from the Ancient Near East to the history of sexuality In addition to the Western tradition it includes substantial assessments of African Asian and Latin American historians and debates on gender and subaltern studies

Unpublished Research on Western Europe, Completed and in Progress United States Department of State. External Research Division, 1967 Beginning in 1954 Apr issue lists studies in progress Oct issue completed studies

Max Weber and the Dispute over Reason and Value Stephen P. Turner, Regis A. Factor, 2014-04-04 The problem of the nature of values and the relation between values and rationality is one of the defining issues of twentieth century thought and Max Weber was one of the defining figures in the debate In this book Turner and Factor consider the development of the dispute over Max Weber's contribution to this discourse by showing how Weber's views have been used revised and adapted in new contexts The story of the dispute is itself fascinating for it cuts across the major political and intellectual currents of the twentieth century from positivism pragmatism and value free social science through the philosophy of Jaspers and Heidegger to Critical Theory and the revival of Natural Right and Natural Law As Weber's ideas were imported to Britain and America they found new formulations and new adherents and critics and became absorbed into different traditions and new issues This book was first published in 1984

Democracy, Federalism, the

European Revolution, and Global Governance Andrea Bosco, 2020-06-10 The European Union is facing today the greatest crisis since its creation Brexit could mean not only the reversal of its steady enlargement from 6 to 28 member states but also the beginning of an inexorable decline leading to its disintegration However few today seem to recollect that it was precisely the British who were the first to promulgate the political culture which inspired the European Union's construction democracy and federalism and the first who tried to realise in June 1940 a European federation on the basis of an Anglo French union This volume traces the fundamental stages of the European unification process placing it in relation to the wider process of world economic and political integration In particular it analyses the historical significance of the European Revolution which is identified in the overcoming of the nation state namely the modern political formula which institutionalised the political division of mankind and the birth of the first truly international state The universal historical significance of the European Revolution lies in its exportability as for the other great European revolutions and therefore its potential as progressively extensible to all the states of the planet Europe was indeed the first region of the world where the barriers between national states fell and a post national political identity emerged complementary to national political identities It is in fact in the context of the European Union that democracy beyond the borders of the nation state has first been realized constituting a guiding principle for global governance A Global Encyclopedia of Historical Writing, Volume 2

D.R. Woolf, 2022-09-30 First published in 1998 Including a wide range of information and recommended for academic libraries this encyclopedia covers historiography and historians from around the world and will be a useful reference to students researchers scholars librarians and the general public who are interested in the writing of history Volume II covers entries from K to Z Leopold Von Ranke Andreas D Boldt, 2019-03-29 Leopold von Ranke endeavoured to understand political order within its own historical context To understand the nature of historical phenomena such as an institution or an idea one had to consider its historical development and the changes it underwent over a period of time Historical epochs Ranke argued should not be judged according to predetermined contemporary values or ideas Rather they had to be understood on their own terms by empirically establishing history as things really were Ranke's influence on History as a modern discipline is thus evident and this is the first volume in English to chart his life and works for a hundred years

Gyula Szekfű Irene Raab Epstein, 2016-03-31 This study explores the connection between politics and historical scholarship in the case of the Hungarian historian Gyula Szekfű whose career spanned one of the most significant and eventful periods of Hungarian history His writing is particularly suited for an inquiry into the relationship between politics and historiography because the changes in Szekfű's political and historical points of view paralleled the drastic changes which occurred in Hungary

The book delves into Friedrich Meinecke And German Politics In The Twentieth Century. Friedrich Meinecke And German Politics In The Twentieth Century is an essential topic that needs to be grasped by everyone, from students and scholars to the general public. The book will furnish comprehensive and in-depth insights into Friedrich Meinecke And German Politics In The Twentieth Century, encompassing both the fundamentals and more intricate discussions.

1. This book is structured into several chapters, namely:
 - Chapter 1: Introduction to Friedrich Meinecke And German Politics In The Twentieth Century
 - Chapter 2: Essential Elements of Friedrich Meinecke And German Politics In The Twentieth Century
 - Chapter 3: Friedrich Meinecke And German Politics In The Twentieth Century in Everyday Life
 - Chapter 4: Friedrich Meinecke And German Politics In The Twentieth Century in Specific Contexts
 - Chapter 5: Conclusion
 2. In chapter 1, the author will provide an overview of Friedrich Meinecke And German Politics In The Twentieth Century. This chapter will explore what Friedrich Meinecke And German Politics In The Twentieth Century is, why Friedrich Meinecke And German Politics In The Twentieth Century is vital, and how to effectively learn about Friedrich Meinecke And German Politics In The Twentieth Century.
 3. In chapter 2, the author will delve into the foundational concepts of Friedrich Meinecke And German Politics In The Twentieth Century. The second chapter will elucidate the essential principles that must be understood to grasp Friedrich Meinecke And German Politics In The Twentieth Century in its entirety.
 4. In chapter 3, this book will examine the practical applications of Friedrich Meinecke And German Politics In The Twentieth Century in daily life. The third chapter will showcase real-world examples of how Friedrich Meinecke And German Politics In The Twentieth Century can be effectively utilized in everyday scenarios.
 5. In chapter 4, this book will scrutinize the relevance of Friedrich Meinecke And German Politics In The Twentieth Century in specific contexts. The fourth chapter will explore how Friedrich Meinecke And German Politics In The Twentieth Century is applied in specialized fields, such as education, business, and technology.
 6. In chapter 5, the author will draw a conclusion about Friedrich Meinecke And German Politics In The Twentieth Century. The final chapter will summarize the key points that have been discussed throughout the book.
- This book is crafted in an easy-to-understand language and is complemented by engaging illustrations. This book is highly recommended for anyone seeking to gain a comprehensive understanding of Friedrich Meinecke And German Politics In The Twentieth Century.
