shunning children's games he traced his first pictures in the sand This early self expression held out promise of a rare gift Málaga must be mentioned for it was there on 25 October 1881 that Pablo Ruiz Picasso was born and it was there that he spent the first ten years of his life Picasso's father was a painter and professor at the School of Fine Arts and Crafts Picasso learnt from him the basics of formal academic art training Then he studied at the Academy of Arts in Madrid but never finished his degree Picasso who was not yet eighteen had reached the point of his greatest rebelliousness he repudiated academia's anemic aesthetics along with realism's pedestrian prose and quite naturally joined those who called themselves modernists the non conformist artists and writers those whom Sabart's called the lite of Catalan thought and who were grouped around the artists' café Els Quatre Gats During 1899 and 1900 the only subjects Picasso deemed worthy of painting were those which reflected the final truth the transience of human life and the inevitability of death His early works ranged under the name of Blue Period 1901-1904 consist in blue tinted paintings influenced by a trip through Spain and the death of his friend Casagemas Even though Picasso himself repeatedly insisted on the inner subjective nature of the Blue Period its genesis and especially the monochromatic blue were for many years explained as merely the results of various aesthetic influences Between 1905 and 1907 Picasso entered a new phase called Rose Period characterised by a more cheerful style with orange and pink colours In Gosol in the summer of 1906 the nude female form assumed an extraordinary importance for Picasso he equated a depersonalised aboriginal simple nakedness with the concept of woman The importance that female nudes were to assume as subjects for Picasso in the next few months in the winter and spring of 1907 came when he developed the composition of the large painting Les Femmes d'Alger (O.J. Version O) Just as African art is usually considered the factor leading to the development of Picasso's classic aesthetics in 1907 the lessons of Cézanne are perceived as the cornerstone of this new progression This relates first of all to a spatial conception of the canvas as a composed entity subjected to a certain constructive system Georges Braque with whom Picasso became friends in the autumn of 1908 and together with whom he led Cubism during the six years of its apogee was amazed by the similarity of Picasso's pictorial experiments to his own He explained that Cubism's main direction was the materialisation of space After his Cubist period in the 1920s Picasso returned to a more figurative style and got closer to the surrealist movement He represented distorted and monstrous bodies but in a very personal style After the bombing of Guernica during 1937 Picasso made one of his most famous works which starkly symbolises the horrors of that war and indeed all wars In the 1960s his art changed again and Picasso began looking at the art of great masters and based his paintings on ones by Velázquez Poussin Goya Manet Courbet and Delacroix Picasso's final works were a mixture of style becoming more colourful expressive and optimistic Picasso died in 1973 in his villa in Mougins The Russian Symbolist Georgy Chulkov wrote Picasso's death is tragic Yet how blind and naïve are those who believe in imitating Picasso and learning from him Learning what For these forms have no corresponding emotions outside of Hell But to be in Hell means to anticipate death The Cubists are hardly privy to such unlimited knowledge

**Franco's Friends**

Peter Day, 2011-10-31 Published to coincide with the 75th anniversary of the Falangist uprising in July 2011 *Franco's Friends* tells the little known true story of how MI6 orchestrated the coup that brought General Franco to power in Spain in 1936 leading to the Spanish civil war and 40 years of right wing dictatorship It has long been known that a British plane took Franco from the Canaries to Morocco at the start of the coup and that Major Hugh Pollard travelled on the plane from London masquerading as a tourist and accompanied by two attractive blondes to add to the deception that this was just a pleasure trip What is not known is the importance of his role and the extent of the involvement of the British intelligence services *Franco's Friends* shows that Pollard was a lifelong member of MI6 and discloses a list of Britons who helped engineer Franco's coup that reads like a who's who of British intelligence including James Bond creator Ian Fleming The book shows that MI6 continued working in Spain through to the Second World War putting together behind the scenes deals and ensuring that the UK's interests were maintained Crucially MI6 even financed bribes paid to the Spanish generals by the British naval attaché in Madrid to keep Spain neutral thus reaping the benefits for Britain in 1939-45 *Franco's Friends* based on previously unknown material from the National Archives Imperial War Museum the British Library and private archives is one of the great previously untold stories of the Second World War revealing how Britain made a dubious but difficult moral choice that would have repercussions on the outcome of the Second World War

**The Importance of Being Rational** Errol Lord, 2018-05-24 The Importance of Being Rational systematically defends a novel reasons based account of rationality The book's central thesis is that what it is for one to be rational is to correctly respond to the normative reasons one possesses Errol Lord defends novel views about what it is to possess reasons and what it is to correctly respond to reasons He shows that these views not only help to support the book's main thesis they also help to resolve several important problems that are independent of rationality The account of

possession provides novel contributions to debates about what determines what we ought to do and the account of correctly responding to reasons provides novel contributions to debates about causal theories of reacting for reasons After defending views about possession and correctly responding Lord shows that the account of rationality can solve two difficult problems about rationality The first is the New Evil Demon problem The book argues that the account has the resources to show that internal duplicates necessarily have the same rational status The second problem concerns the deontic significance of rationality Recently it has been doubted whether we ought to be rational The ultimate conclusion of the book is that the requirements of rationality are the requirements that we ultimately ought to comply with If this is right then rationality is of fundamental importance to our deliberative lives [ARTnews](#) ,1955

**Flamenco Nation** Sandie Holguín,2019-06-11 How did flamenco a song and dance form associated with both a despised ethnic minority in Spain and a region frequently derided by Spaniards become so inexorably tied to the country s culture Sandie Holgu n focuses on the history of the form and how reactions to the performances transformed from disgust to reverence over the course of two centuries Holgu n brings forth an important interplay between regional nationalists and image makers actively involved in building a tourist industry Soon they realized flamenco performances could be turned into a folkloric attraction that could stimulate the economy Tourists and Spaniards alike began to cultivate flamenco as a representation of the country s national identity This study reveals not only how Spain designed and promoted its own symbol but also how this cultural form took on a life of its own

**Europe in Love** Juan Díez Medrano,2020-05-12 Inter marriage both reflects and brings social change This book draws

on a unique survey of randomly selected samples of national and European binational couples to demonstrate that the latter are core cells of a future European society Unrestricted freedom of movement has enabled a rise in the number of lower class and middle class binational couples among Europeans Euro couples fully integrate in their host cities but secure less support in solving everyday problems than do national ones partly because of a relatively small network of relatives living close by Embeddedness in a dense international network and a cosmopolitan outlook also distinguish them from national couples The book challenges the view of cosmopolitanism as exclusively middle class and highlights contrasts between lower class and middle class binational couples Furthermore it shows that social cosmopolitanism among binational couples is not matched by a commensurate weaker national identification that would enhance support to a more federal Europe This book is primarily addressed to the general public interested in contemporary European society and to academics interested in inter marriage Since the chapters are quasi stand alone pieces devoted to specific topics it provides suitable reading material for social stratification social networks civil society popular culture and European integration undergraduate and graduate courses
