and role of memory in Graeco Roman thought and literature and building on the background of memory studies The volume s contributors apply theoretical models such as memoryscapes civic and cultural memory and memory loss to a range of authors from Homeric epic to Senecan drama and from historiography to Cicero s recollections of performances The chapters are divided into four sections according to the main perspective taken These are 1 the Mechanics of Memory 2 Collective memory 3 Female Memory and 4 Oblivion This modern approach to ancient memory will be useful for scholars working across the range of Greek and Roman literature as well as for students and a broader interdisciplinary audience interested in the intersection of memory studies and Classics
