From Africa to Brazil Walter Hawthorne, 2010-09-13 *From Africa to Brazil* traces the flows of enslaved Africans from the broad region of Africa called Upper Guinea to Amazonia Brazil. These two regions though separated by an ocean were made one by a slave route. Walter Hawthorne considers why planters in Amazonia wanted African slaves why and how those sent to Amazonia were enslaved and what their Middle Passage experience was like. The book is also concerned with how Africans in diaspora shaped labor regimes determined the nature of their family lives and crafted religious beliefs that were similar to those they had known before enslavement. It presents the only book length examination of African slavery in Amazonia and identifies with precision the locations in Africa from where members of a large diaspora in the Americas hailed. *From Africa to Brazil* also proposes new directions for scholarship focused on how immigrant groups created new or recreated old cultures.

Atlantic Africa and the Spanish Caribbean, 1570-1640 David Wheat, 2016-03-09 This work resituates the Spanish Caribbean as an extension of the Luso African Atlantic world from the late sixteenth to the mid seventeenth century when the union of the Spanish and Portuguese crowns facilitated a surge in the transatlantic slave trade. After the catastrophic decline of Amerindian populations on the islands two major African provenance zones first Upper Guinea and then Angola contributed forced migrant populations with distinct experiences to the Caribbean. They played a dynamic role in the social formation of early Spanish colonial society in the fortified port cities of Cartagena de Indias Havana Santo Domingo and Panama City and their semirural hinterlands. David Wheat is the first scholar to establish this early phase of the

Africanization of the Spanish Caribbean two centuries before the rise of large scale sugar plantations With African migrants and their descendants comprising demographic majorities in core areas of Spanish settlement Luso Africans Afro Iberians Latinized Africans and free people of color acted more as colonists or settlers than as plantation slaves These ethnically mixed and economically diversified societies constituted a region of overlapping Iberian and African worlds while they made possible Spain's colonization of the Caribbean
