From Arnold Schoenbergs Literary Legacy:

From Arnold Schoenberg's Literary Legacy Jean Christensen, Jesper Christensen, 1988 **From Arnold Schoenberg's Literary Legacy** Jean Christensen, Jesper Christensen, 1987 *Schoenberg and His World* Walter Frisch, 2012-01-16 As the twentieth century draws to a close Arnold Schoenberg 1874 1951 is being acknowledged as one of its most significant and multifaceted composers Schoenberg and His World explores the richness of his genius through commentary and documents Marilyn McCoy opens the volume with a concise chronology based on the latest scholarship of Schoenberg s life and works Essays by Joseph Auner Leon Botstein Reinhold Brinkmann J Peter Burkholder Severine Neff and Rudolf Stephan examine aspects of his creative output theoretical writings relation to earlier music and the socio cultural contexts in which he worked The documentary portions of Schoenberg and His World capture Schoenberg at critical periods of his career during the first decades of the century primarily in his native Vienna from 1926 to 1933 in Berlin and from 1933 on in the U S Included here is the first complete translation into English of the remarkable Festschrift prepared for the 38 year old Schoenberg by his pupils in 1912 it presciently explored the diverse talents as a composer teacher painter and theorist for which he was later to be recognized The Berlin years when he held one of the most prestigious teaching positions in Europe are represented by interviews with him and articles about his public lectures The final portion of the volume devoted to the theme Schoenberg and America focuses on how the composer viewed and was viewed by the country where he spent his final eighteen years Sabine Feisst brings together and comments upon sources which contrary to much received opinion attest to both the considerable impact that Schoenberg had upon his newly adopted land and his own deep involvement in its musical life **Schoenberg** Malcolm MacDonald, 2008-09-26 In this completely rewritten and updated edition of his long indispensable study Malcolm MacDonald takes advantage of 30 years of recent scholarship new biographical information and deeper understanding of Schoenberg s aims and significance to produce a superb guide to Schoenberg s life and work MacDonald demonstrates the indissoluble links among Schoenberg s musical language particularly the enigmatic and influential twelve tone method his personal character and his creative ideas as well as the deep connection between his genius as a teacher and as a revolutionary composer Exploring newly considered influences on the composer s early life MacDonald offers a fresh perspective on Schoenberg s creative process and the emotional content of his music For example as a previously unsuspected source of childhood trauma the author points to the Vienna Ringtheater disaster of 1881 in which hundreds of people were burned to death including Schoenberg s uncle and aunt whose orphaned children were then adopted by Schoenberg s parents MacDonald brings such experiences to bear on the music itself examining virtually every work in the oeuvre to demonstrate its vitality and many sidedness A chronology of Schoenberg s life a work list an updated bibliography and a greatly expanded list of personal allusions and references round out the study and enhance this new edition *Music Theory and Analysis in the Writings of Arnold Schoenberg (1874-1951)*

Norton Dudeque, 2017-07-05 Arnold Schoenberg's theory of music has been much discussed but his approach to music theory needs a new historical and theoretical assessment in order to provide a clearer understanding of his contributions to music theory and analysis. Norton Dudeque's achievement in this book involves the synthesis of Schoenberg's theoretical ideas from the whole of the composer's working life, including material only published well after his death. The book discusses Schoenberg's rejection of his German music theory heritage and past approaches to music theory pedagogy, the need for looking at musical structures differently and to avoid aesthetic and stylistic issues. Dudeque provides a unique understanding of the systematization of Schoenberg's tonal harmonic theory, thematic motivic development theory, and the links with contemporary and past music theories. The book is complemented by a special section that explores the practical application of the theoretical material already discussed. The focus of this section is on Schoenberg's analytical practice and the author's response to it. Norton Dudeque therefore provides a comprehensive understanding of Schoenberg's thinking on tonal harmony, motive, and form that has hitherto not been attempted.

Music Theory and Analysis in the Writings of Arnold Schoenberg (1874-1951) Norton Dudeque, 2017-07-05 Arnold Schoenberg's theory of music has been much discussed but his approach to music theory needs a new historical and theoretical assessment in order to provide a clearer understanding of his contributions to music theory and analysis. Norton Dudeque's achievement in this book involves the synthesis of Schoenberg's theoretical ideas from the whole of the composer's working life, including material only published well after his death. The book discusses Schoenberg's rejection of his German music theory heritage and past approaches to music theory pedagogy, the need for looking at musical structures differently and to avoid aesthetic and stylistic issues. The focus of this section is on Schoenberg's analytical practice and the author's response to it. Norton Dudeque therefore provides a comprehensive understanding of Schoenberg's thinking on tonal harmony, motive, and form that has hitherto not been attempted.

Schoenberg and Redemption ,

Schoenberg and Redemption Julie Brown, 2014-06-26 Schoenberg and Redemption presents a new way of understanding Schoenberg's step into atonality in 1908. Reconsidering his threshold and early atonal works as well as his theoretical writings and a range of previously unexplored archival documents, Julie Brown argues that Schoenberg's revolutionary step was in part a response to Wagner's negative charges concerning the Jewish influence on German music. In 1898 and especially 1908, Schoenberg's Jewish identity came into confrontation with his commitment to Wagnerian modernism to provide an impetus to his radical innovations. While acknowledging the broader turn of the century Viennese context, Brown draws special attention to continuities between Schoenberg's work and that of Viennese moral philosopher Otto Weininger himself, an ideological Wagnerian. She also considers the afterlife of the composer's ideological position when

in the late 1920s and early 1930s the concept of redeeming German culture of its Jewish elements took a very different turn

Encyclopedia of German Literature Matthias Konzett, 2015-05-11 Designed to provide English readers of German literature the opportunity to familiarize themselves with both the established canon and newly emerging literatures that reflect the concerns of women and ethnic minorities the Encyclopedia of German Literature includes more than 500 entries on writers individual work and topics essential to an understanding of this rich literary tradition Drawing on the expertise of an international group of experts the essays in the encyclopedia reflect developments of the latest scholarship in German literature culture and history and society In addition to the essays author entries include biographies and works lists and works entries provide information about first editions selected critical editions and English language translations All entries conclude with a list of further readings

Journal of the Arnold Schoenberg Institute Arnold Schoenberg Institute, 1995

Handling Dissonance Chelle L. Stearns, 2019-06-12 Music can answer questions that often confound more discursive modes of thought Music takes concepts that are all too familiar reframes these concepts and returns them to us with incisive clarity and renewed vision Unity is one of these all too familiar concepts thrown around by politicians journalists and pastors as if we all know what it means By turning to music especially musical space the relational structure of unity becomes less abstract and more tangible within our philosophy Arnold Schoenberg as an inherently musical thinker is our guide in this study of unity His reworking of musical structure dissonance and metaphysics transformed the tonal language and aesthetic landscape of twentieth century music His philosophy of compositional unity helps us to deconstruct and reconceive how unity can be understood and worked with both aesthetically and theologically This project also critiques Schoenberg's often monadic musical metaphysic by turning to Colin Gunton's conviction that the particularity and unity at the heart of God's triune being should guide all of our theological endeavors Throughout music accompanies our thinking demonstrating not only how theology can benefit the philosophy of music but also how the philosophy of music can enrich and augment theological discourse

Schoenberg's Program Notes and Musical Analyses Arnold Schoenberg, 2016 Schoenberg's Program Notes and Musical Analyses is a comprehensive study of the composer's writings about his own music The texts include program notes letters sketch materials pre concert talks public lectures scholarly writings newspaper articles interviews pedagogical materials publicity fliers radio broadcasts and liner notes

A Schoenberg Reader Joseph Auner, 2008-10-01 Arnold Schoenberg's close involvement with many of the principal developments of twentieth century music most importantly the break with tonality and the creation of twelve tone composition generated controversy from the time of his earliest works to the present day This authoritative new collection of Schoenberg's essays letters literary writings musical sketches paintings and drawings offers fresh insights into the composer's life work and thought The documents many previously unpublished or untranslated reveal the relationships between various aspects of Schoenberg's activities in composition music theory criticism painting performance and teaching They also show the significance of events in his

personal and family life his evolving Jewish identity his political concerns and his close interactions with such figures as Gustav and Alma Mahler Alban Berg Wassily Kandinsky and Thomas Mann Extensive commentary by Joseph Auner places the documents and materials in context and traces important themes throughout Schoenberg's career from turn of century Vienna to Weimar Berlin to nineteen fifties Los Angeles Historical Dictionary of Modern and Contemporary Classical Music Nicole V. Gagné, 2019-07-17 The contemporary music scene thus embodies a uniquely broad spectrum of activity which has grown and changed down to the present hour With new talents emerging and different technologies developing as we move further into the 21st century no one can predict what paths music will take next All we can be certain of is that the inspiration and originality that make music live will continue to bring awe delight fascination and beauty to the people who listen to it This book cover modernist and postmodern concert music worldwide from the years 1888 to 2018 This second edition of Historical Dictionary of Modern and Contemporary Classical Music contains a chronology an introduction and an extensive bibliography The dictionary section has over 500 cross referenced entries on the most important composers musicians methods styles and media in modernist and postmodern classical music worldwide from 1888 to 2018 This book is an excellent resource for students researchers and anyone wanting to know more about modern and contemporary classical music **Coherence, Counterpoint, Instrumentation, Instruction in Form** Arnold Sch"nberg, 1994-01-01 Only Stravinsky can claim as much credit as Schoenberg for the most dramatic innovations in twentieth century music Inventor of the twelve tone row explorer of atonality and the hexachord composer of tone poems songs and chamber music and chief spokesman for the Vienna Circle Schoenberg has become ever more influential as his successors have come to understand him Fuller understanding has been delayed because many of his writings have not yet been edited or published This volume collects four short works each concentrated on a key issue in composition Written in 1917 but altered and augmented many times in later years the manuscripts edited and translated in this volume have never been published before Their importance can permit no further delay since they present Schoenberg's thinking well after the publication in 1911 of *Harmonielehre* his revolutionary theoretical book The later texts provide numerous prospects for enhancing the study and appreciation of Schoenberg's compositions and theories Also a painter Schoenberg enjoyed the friendship of Kandinsky and the Berlin expressionists This volume includes a frontispiece reproducing one of Schoenberg's paintings *Music Theory and the Exploration of the Past* Christopher Hatch, David W. Bernstein, 1993 In recent decades increased specialization has sharply separated music theory from historical musicology *Music Theory and the Exploration of the Past* brings together a group of essays written by theorists and musicologists that seek to bridge this gap This collection shows that music theory can join forces with historical musicology to produce a more humanistic form of musical scholarship In nineteen essays dealing with musical theories from the twelfth to the twentieth century two recurring themes emerge One is the need to understand the historical circumstances of the writing and reception of theory a humanistic approach that gives theory a place within social

and intellectual history The other is the advantages of applying contemporaneous theory to the music of a given period thus linking theory to the history of musical styles and structures The periods given principal attention in these essays are the Renaissance the years around 1800 and the twentieth century Abundantly illustrated with musical examples Music Theory and the Exploration of the Past offers models of new practical applications of theory to the analysis of music At the same time it raises the broader question of how historical knowledge can deepen the understanding of an art and of systematic writings about that art Arnold Schoenberg Institute Archives Preliminary Catalog Arnold Schoenberg Institute, Kathryn P.

Glennan, Jerry L. McBride, R. Wayne Shoaf, 1986 Stravinsky Eric Walter White, 1984 In the second edition of the definitive account of Igor Stravinsky's life and work arranged in two separate sections Eric Walter White revised the whole book completing the biographical section by taking it up to Stravinsky's death in 1971 To the list of works the author added some early pieces that have recently come to light as well as the late compositions including the Requiem Canticles and The Owl and the Pussycat Four more of Stravinsky's own writings appear in the Appendices and there are several important additions to the bibliography *The Musical Idea and the Logic, Technique, and Art of Its Presentation, New Paperback English Edition* Arnold Schoenberg, 2006-07-18 Presents one of the most important documents in twentieth century musical thought

Music Library and Research Skills Jane Gottlieb, 2017 Concise and engaging this text covers a wide range of reference sources for research in all genres of music Through this practical introduction to the key concepts of music research students will develop a firm understanding of the tools used to gather data including what types of sources exist how they are arranged and how they may best be used to do research
