From Charity To Enterprise:

From Charity to Enterprise Stanley Wenocur, Michael Reisch, 2001 How did social work evolve as a profession in the United States Stanley Wenocur and Michael Reisch examine the history of social work and provide a theoretical model of professionalization for analyzing its development They offer a provocative view of American social work as an enterprise seeking exclusive control over the definition production and distribution of an essential commodity Now in paperback for the first time From Charity to Enterprise sets the professionalization of social work into a dynamic social context The explicit political and economic framework of Wenocur and Reisch's model enables the authors to examine how various subgroups within social work lost or gained control of the professional enterprise at various points **Social Policy and Social Change** Jillian Jimenez, 2010 A timely examination of social policy through a social constructivist and economic lens Social Policy and Social Change illuminates the root causes of common social problems and how policy has attempted to ameliorate them In so doing the book focuses on how social policies in the United States can be transformed to promote social justice for all groups The book uniquely offers both an historical analysis of social problems and social policies and an economic analysis of how capitalism and the market economy have contributed to social problems and impacted social policies The book goes beyond the U S borders to examine the impact of globalization in the United States and in the Global South It considers the meaning and impact of the election of Barack Obama as President of the United States and explores the policy solutions his administration has proposed to deal with the economic recession of 2008-2009 The book also discusses social workers as agents of social change and advocates of social and economic justice It examines five key realms Poverty in families and the welfare system poverty among the elderly and social security child maltreatment and child welfare policy health and mental health policy and housing policy Social Policy and Social Change is a primary text for social policy social welfare policy courses in MSW programs and possibly some higher level BSW programs It will be supplemented with a comprehensive ancillary program including a test bank instructor's manual and student website **From Charity to Social Work**

Elizabeth N. Agnew, 2004 Mary E. Richmond 1861-1928 was a contemporary of Jane Addams and an influential leader in the American charity organization movement In this biography the first in-depth study of Richmond's life and work Elizabeth N. Agnew examines the contributions of this important if hitherto under-valued woman to the field of charity and to its development into professional social work Orphaned at a young age and largely self-educated Richmond initially entered charity work as a means of self-support but came to play a vital role in transforming philanthropy previously seen as a voluntary expression of individual altruism into a valid organized profession Her career took her from charity organization leadership in Baltimore and Philadelphia to an executive position with the prestigious Russell Sage Foundation in New York City Richmond's progressive civic philosophy of social work was largely informed by the social gospel movement She strove to find practical applications of the teachings of Christianity in response to the social problems that accompanied rapid

industrialization urbanization and poverty At the same time her tireless efforts and personal example as a woman created an appealing if ambiguous path for other professional women A century later her legacy continues to echo in social work and welfare reform
