The Evolution of Chinese Filiality Deborah Lynn Porter,2022-03-10 This unique book brings a fresh interdisciplinary approach to the analysis of ancient Chinese history creating a historical model for the emergence of cultural mainstays by applying recent dramatic findings in the fields of neuroscience and cultural evolution The centrality in Chinese culture of a deep reverence for the lives of preceding generations filial piety is conventionally attributed to Confucius 551 479 B C who viewed hierarchical family relations as foundational for social order Here Porter argues that Confucian conceptions of filiality themselves evolved from a systemized set of behaviors and thoughts a mental structure which descended from a specific Neolithic mindset and that this psychological structure was contoured by particular emotional conditions experienced by China s earliest farmers Using case study analysis from Neolithic sky observers to the dynastic cultures of the Shang and Western Zhou the book shows how filial piety evolved as a structure of feeling a legacy of a cultural predisposition toward particular moods and emotions that were inherited from the ancestral past Porter also brings new urgency to the topic of ecological grief linking the distress central to the evolution of the filial structure to its catalyst in an environmental crisis With a blended multidisciplinary approach combining social neuroscience cultural evolution cognitive archaeology and historical analysis this book is ideal for students and researchers in neuropsychology religion and Chinese culture and history

Literary History: Towards a Global Perspective Anders Pettersson, Gunilla Lindberg-Wada, Margareta Petersson, Stefan Helgesson, 2011-12-22 *Literary History Towards a Global Perspective* is a research project funded by the Swedish Research Council Vetenskapsr det Initiated in 1996 and launched in 1999 it aims at finding suitable methods and approaches for studying and analysing literature globally emphasizing the comparative and intercultural aspect Even though we nowadays have fast and easy access to any kind of information on literature and literary history we encounter more than ever the difficulty of finding a credible overall perspective on world literary history Until today literary cultures and traditions have usually been studied separately each field using its own principles and methods Even the conceptual basis itself varies from section to section and the genre concepts employed are not mutually compatible As a consequence it is very difficult if not impossible for the interested layperson as well as for the professional student to gain a clear and fair perspective both on the literary traditions of other peoples and on one's own traditions The project can be considered as a contribution to gradually removing this problem and helping to gain a better understanding of literature and literary history by means of a concerted empirical research and deeper conceptual reflection The contributions to the four volumes are written in English by specialists from a large number of disciplines primarily from the fields of comparative literature Oriental studies and African studies in Sweden All of the literary texts discussed in the articles are in the original language Each one of the four volumes is devoted to a special research topic

The Pristine Dao Thomas Michael, 2012-02-01 The Laozi Daodejing and the Zhuangzi have long been familiar to Western readers and have served as basic sources of knowledge

about early Chinese Daoism Modern translations and studies of these works have encouraged a perception of Daoism as a mystical philosophy heavy with political implications that advises kings to become one with the Dao Breaking with this standard approach The Pristine Dao argues that the Laozi and the Zhuangzi participated in a much wider tradition of metaphysical discourse that included a larger corpus of early Chinese writings This book demonstrates that early Daoist discourse possessed a distinct textually constituted coherence and a religious sensibility that starkly differed from the intellectual background of all other traditions of early China including Confucianism The author argues that this discourse is best analyzed through its emergence from the mythological imagination of early China and that it was unified by a set of notions about the Dao that was shared by all of its participants The author introduces certain categories from the Western religious and philosophical traditions in order to bring out the distinctive qualities constituting this discourse and to encourage its comparison with other religious and philosophical traditions *A Chinese Bestiary* Richard E.

Strassberg,2023-11-03 *A Chinese Bestiary* presents a fascinating pageant of mythical creatures from a unique and enduring cosmography written in ancient China *The Guideways through Mountains and Seas* compiled between the fourth and first centuries b c e contains descriptions of hundreds of fantastic denizens of mountains rivers islands and seas along with minerals flora and medicine The text also represents a wide range of beliefs held by the ancient Chinese Richard Strassberg brings the *Guideways* to life for modern readers by weaving together translations from the work itself with information from other texts and recent archaeological finds to create a lavishly illustrated guide to the imaginative world of early China Unlike the bestiaries of the late medieval period in Europe the *Guideways* was not interpreted allegorically the strange creatures described in it were regarded as actual entities found throughout the landscape The work was originally used as a sacred geography as a guidebook for travelers and as a book of omens Today it is regarded as the richest repository of ancient Chinese mythology and shamanistic wisdom The *Guideways* may have been illustrated from the start but the earliest surviving illustrations are woodblock engravings from a rare 1597 edition Seventy six of those plates are reproduced here for the first time and they provide a fine example of the Chinese engraver s art during the late Ming dynasty This beautiful volume compiled by a well known specialist in the field provides a fascinating window on the thoughts and beliefs of an ancient people and will delight specialists and general readers alike *A Chinese Bestiary* presents a fascinating pageant of mythical creatures from a unique and enduring cosmography written in ancient China *The Guideways through Mountains and Seas* compiled between the fourth and first centuries b c e contain **The Flood Myths of Early China** Mark Edward

Lewis,2012-02-01 Early Chinese ideas about the construction of an ordered human space received narrative form in a set of stories dealing with the rescue of the world and its inhabitants from a universal flood This book demonstrates how early Chinese stories of the re creation of the world from a watery chaos provided principles underlying such fundamental units as the state lineage the married couple and even the human body These myths also supplied a charter for the major political and

social institutions of Warring States 481 221 BC and early imperial 220 BC AD 220 China In some versions of the tales the flood was triggered by rebellion while other versions linked the taming of the flood with the creation of the institution of a lineage and still others linked the taming to the process in which the divided principles of the masculine and the feminine were joined in the married couple to produce an ordered household While availing themselves of earlier stories and of central religious rituals of the period these myths transformed earlier divinities or animal spirits into rulers or ministers and provided both etiologies and legitimation for the emerging political and social institutions that culminated in the creation of a unitary empire

A Patterned Past David Schaberg,2020-03-23 In this comprehensive study of the rhetoric narrative patterns and intellectual content of the Zuo zhuan and Guoyu David Schaberg reads these two collections of historical anecdotes as traces of a historiographical practice that flourished around the fourth century BCE among the followers of Confucius He contends that the coherent view of early China found in these texts is an effect of their origins and the habits of reading they impose Rather than being totally accurate accounts they represent the efforts of a group of officials and ministers to argue for a moralizing interpretation of the events of early Chinese history and for their own value as skilled interpreters of events and advisers to the rulers of the day

Chinese Annals in the Western Observatory Edward Shaughnessy,2019-11-18 Since the beginning of the twentieth century hundreds of thousands of documents of all sorts have been unearthed in China opening whole new fields of study and transforming our modern understanding of ancient China While these discoveries have necessarily taken place in China Western scholars have also contributed to the study of these documents throughout this entire period This book provides a comprehensive survey of the contributions of these Western scholars to the field of Chinese paleography and especially to study of oracle bone inscriptions bronze and stone inscriptions and manuscripts written on bamboo and silk Each of these topics is provided with a comprehensive narrative history of studies by Western scholars as well as an exhaustive bibliography and biographies of important scholars in the field It is also supplied with a list of Chinese translations of these studies as well as a complete index of authors and their works Whether the reader is interested in the history of ancient China ancient Chinese paleographic documents or just in the history of the study of China as it has developed in the West this book provides one of the most complete accounts available to date

Impairment in Early China Avital H. Rom,2025-03-31 This book is the first collection of scholarly works fully dedicated to exploring disability and impairment in early Chinese history Early Chinese understandings of disability are effectively revealed through investigations of a wide range of aspects such as terminological legal political and etiological The volume explores how early Chinese disability was socially negotiated as a means for creating enabled and at times empowered identities It shows how oppression and empowerment when viewed through the prism of such negotiations of identity were not mutually exclusive Through such examinations the volume demonstrates how an approach sensitive to both the separability and the interconnectedness of disability and impairment enables a more nuanced understanding of Chinese disability history specifically and Chinese notions of embodiment more generally Bringing together international academics to examine a plethora of topics relating to disability and bodily impairment in early Chinese history with an eye on their socio political implications this book will appeal to students and scholars of Chinese History History of Medicine and Disability Studies Literary History Anders Pettersson,Gunilla Lindberg-Wada,Margareta Petersson,Stefan Helgesson,2006 Literary

research topic Chinese Theories of Fiction Ming Dong Gu, 2007-06-01 In this innovative work Ming Dong Gu examines Chinese literature and traditional Chinese criticism to construct a distinctly Chinese theory of fiction and places it within the context of international fiction theory He argues that because Chinese fiction or xiaoshuo was produced in a tradition very different from that of the West it has formed a system of fiction theory that cannot be adequately accounted for by Western fiction theory grounded in mimesis and realism Through an inquiry into the macrocosm of Chinese fiction the art of formative works and theoretical data in fiction commentaries and intellectual thought Gu explores the conceptual and historical conditions of Chinese fiction in relation to European and world fiction In the process Gu critiques and challenges some accepted views of Chinese fiction and provides a theoretical basis for fresh approaches to fiction study in general and Chinese fiction in particular Such masterpieces as the Jin Ping Mei The Plum in the Golden Vase and the Hongloumeng The Story of the Stone are discussed at length to advance his notion of fiction and fiction theory *The Construction of Space in Early China* Mark Edward Lewis, 2012-02-01 This book examines the formation of the Chinese empire through its reorganization and reinterpretation of its basic spatial units the human body the household the city the region and the world The central theme of the book is the way all these forms of ordered space were reshaped by the project of unification and how at the same time that unification was constrained and limited by the necessary survival of the units on which it was based Consequently as Mark Edward Lewis shows each level of spatial organization could achieve order and meaning only within an encompassing superior whole the body within the household the household within the lineage and state the city within the region and the region within the world empire while each level still contained within itself the smaller units from which it was formed The unity that was the empire's highest goal avoided collapse back into the original chaos of nondistinction only by preserving within itself the very divisions on the basis of family or region that it claimed to transcend
