From Federation to Communion Jens Holger Schjørring, Prasanna Kumari, Norman A. Hjelm, Viggo Mortensen, 1997

Historical Dictionary of Lutheranism Günther Gassmann, Mark W. Oldenburg, 2011-10-10 The Reformation of the 16th century was a complex and multifaceted political social cultural and religious process Most historians agree however that in the framework of this process it was the religious and theological efforts to reform and renew the late medieval church decadent and irrelevant in many ways that were the initiating forces that set a broad historical movement in motion Among these reforming religious and theological forces the Lutheran reform movement was the most important and influential one It was the historical impact of the theological genius of the Wittenberg professor Martin Luther 1483 1546 that profoundly changed and shaped the face of Europe and beyond Today Lutheranism has become a worldwide communion of churches that stretches from Germany to Siberia Papua New Guinea Madagascar and Surinam The second edition of the Historical Dictionary of Lutheranism presents information on major theological issues historical developments of Lutheranism worldwide Lutheran ecumenical and missionary involvement and activities worship and liturgy spirituality social ethics inter religious and Jewish relations Lutheranism and the arts theology and important representatives of Lutheranism This is done through a detailed chronology an introductory essay an appendix of Lutheran Churches a bibliography and hundreds of cross referenced dictionary entries This book is an excellent access point for students researchers and anyone wanting to know more about Lutheranism

A History of Lutheranism Eric W. Gritsch, In a clear nontechnical way this noted Reformation historian tells the story of how the nascent reforming and confessional movement sparked and led by Martin Luther survived its first battles with religious and political authorities to become institutionalized in its religious practices and teachings Gritsch then traces the emergence of genuine consensus at the end of the sixteenth century followed by the age of Lutheran Orthodoxy the great Pietist reaction Lutheranism s growing diversification during the Industrial Revolution its North American expansion and its

increasingly global and ecumenical ventures in the last century

Koinonia and the Quest for an Ecumenical Ecclesiology Lorelei F. Fuchs, 2008 The word koinonia has gained prominence in recent ecumenical discussions In this original and substantial work Lorelei Fuchs proposes the theological idea of koinonia commonly translated as communion or fellowship as the key to moving fractured churches toward a future unity Fuchs challenges churches to move beyond mere dialogue and to apply ecumenical insights at the local level She begins by relating the exegetical meaning of koinonia to its ecumenical meaning tracing the place of koinonia both within the churches and between the churches She then examines the concept of koinonia in the extensive and fruitful dialogues that have taken place between Lutherans Anglicans and Roman Catholics finally articulating a symbolic competence for communionality that provides a rich and workable way forward for church unity at all levels Encompassing the latest in ecumenical thought Koinonia and the Quest for an Ecumenical Ecclesiology provides a broad thoughtful framework for realizing Christ's prayer that all may be one so that the world may believe

Transloyalties, Connected Histories and World Christianity during the Period of Decolonization and the Cold War Frieder Ludwig, Ellen Veia Rosnes, Joar Haga, Marina Xiaojing Wang, Jairzinho Lopes Pereira, 2025-06-30 Focusing on the history of World Christianity this book relates the concept of transloyalties to developments during the Period of Decolonization and the Cold War This was a time when the terms loyal and loyalty became more frequently used not only in the United States where a loyalty program was introduced but also in Africa Asia and Europe Churches and ecumenical organizations had to navigate in this context of new loyalty demands They had to clarify whether changes in church state relations and corresponding changes in their organizational structures were necessary or whether they affected core identities Was the restriction or exclusion of Western missionaries a threat to the universal character of the church or a transition to self governing churches How did African and Asian churches relate to Western mission societies in the new context Was the strive for justice a basis for cooperation with socialist governments or were the concepts fundamentally different How were denominations organized at a national level Which forms of church government were chosen Which denominations could become members of Christian Councils that represented joint interests toward the states These are some of the questions that underlie the importance of this volume to the study of the history of World Christianity

Reformation Observances: 1517-2017 Philip D. W. Krey, 2017-08-09 The year 2017 marks the five hundredth anniversary of the Reformation if that event is dated from the posting of Martin Luther's Ninety Five Theses Admittedly 2017 is an arbitrary and somewhat artificial milestone Nevertheless anniversaries can be special occasions that allow for an appreciation and evaluation of memorable persons and events As a number of Reformation anniversaries approach the historical significance of the Reformation merits increased attention Employing a variety of historiographical methods from intellectual history to postcolonial theory this volume demonstrates how four major traditions observed the Reformation Lutheran Anglican Reformed and Roman Catholic The foreword and preface place the essays into the contemporary and broader historical contexts in the history of reform Commemorations of the Reformation varied in different periods often influenced by immediate historical contexts How are those sixteenth century events which caused both renewal and conflict in church and society as well as divisions between those expressions to be viewed in the twenty first century in a setting broader than Europe

Martin Luther's Anti-Semitism Eric W. Gritsch, 2012-01-09 In this book Eric W Gritsch a Lutheran and a distinguished Luther scholar faces the glaring ugliness of Martin Luther's anti-Semitism head on describing Luther's journey from initial attempts to proselytize Jews to an appallingly racist position which he apparently held until his death Comprehensively laying out the textual evidence for Luther's virulent anti-Semitism Gritsch traces the development of Luther's thinking in relation to his experiences external influences and theological convictions Revealing greater impending danger with each step Martin Luther's Anti-Semitism marches steadily onward until the full extent of Luther's racism becomes apparent Gritsch's unflinching analysis also describes the impact of Luther's egregious words on subsequent generations and places Luther within Europe's long history of anti-Semitism

Throughout however Gritsch resists the temptation either to demonize or to exonerate Luther Rather readers will recognize Luther s mistakes as links in a chain that pulled him further and further away from an attitude of respect for Jews as the biblical people of God Gritsch depicts Luther as a famous example of the intensive struggle with the enduring question of Christian Jewish relations It is a great historical tragedy that Luther of all people fell victim to anti Semitism albeit against his better judgment

Early Ecotheology and Joseph Sittler Panu Pihkala,2017 When did Christians begin to address environmental questions What can be learned from these pioneering thinkers This study reveals that between 1910 and 1954 many theologians called for responsibility towards nature The focal point is the work of Joseph Sittler 1904 1987 an American Lutheran and ecumenical theologian The role of these early ecotheologians is discussed in relation to environmental history and education The findings show that ecotheology was not as strongly separated from other environmentalism as it was after the 1960s

Mapping the Differentiated Consensus of the Joint Declaration Jakob Karl Rinderknecht, 2016-10-12 This book uses the insights of cognitive linguistics to argue for the possibility of differentiated consensus between separated churches The Joint Declaration on the Doctrine of Justification signed by the Lutheran World Federation and the Roman Catholic Church in 1999 represents the high water mark of the twentieth century ecumenical movement It declares that the sixteenth century condemnations related to justification do not condemn the teachings of the partner church Some critics reject the agreement arguing that a consensus that is differentiated is not actually a consensus In this book Jakob Karl Rinderknecht shows that mapping the cognitive blends that structure meaning can reveal underlying agreement within apparent theological contradictions He traces Lutheran and Catholic positions on sin in the baptized especially the Lutheran *simul iustus et peccator* and the Catholic insistence that concupiscence in the baptized is not sin He demonstrates that the JDDJ reconciles these positions and therefore that a truly differentiated consensus is possible
